THIS noble lover of Liberty was to his beloved Hungary what Patrick Henry was to American Independence. Give me Liberty or give me death" meant to Kossuth all that made life worth the living. He lived for ninety-two years, and his long and honorable career was devoted solely to secure for Hungary National Independence. For it he suffered imprisonment and edie. For it he worked as few men have ever worked. His fiery soul was expressed in his writing, and his impassioned oratory thundered across the two continents. All the world read and listened to this high-souled Hungarian Patriot. When exiled our government sent the U.S. Steamer Mississippi to Turkey and brought him to our shores as the guest of the Nation. To day we have millions of Hungarian citizens, each one a lover of Personal Liberty. To secure it they scught our shores, and to a man they will high to the death to keep forever alive the spirit and letter of our immortal Declaration of Independence. They make good citizens, and like Kossuth detest prohibitory enactments which make the many suffer for the faults of the very few. For centuries Hungarians have as a nation been moderate users of barley brews and light wines. Their votes are always registered against any legislation which proposes to regulate human diet by law. Thou shalt NOT cat this—thou shalt NOT drink that—to those of brave Hungarian blood is insufferable tyranny. For 57 years Anheuser-Busch have been proud to serve their Hungarian patrons. They have helped to make the sales of their great brand Budweiser exceed those of any other been by millions of bottles. Seven thousand, five hundred people are daily required to keep pace with the public demand for Budweiser.
