Dragging Pains

2825 Keeley St., CHICAGO, ILL., Oct. 2, 1902.
I suffered with falling and congestion of the womb, with severe pains through the groins. I suffered terribly at the time of menstruation, had blinding headaches and rushing of blood to the brain. What to try I knew not, for it seemed that I had tried all and failed, but I had never tried Wine of Cardui, that blessed remedy for sick women. I found it pleasant to take and soon knew that I had the right medicine. New blood seemed to course through my veins and after using eleven bottles I was a well woman.

Maudie Bush

Mrs. Bush is now in perfect health because she took Wine of Cardui for menstrual disorders, bearing down pains and blinding headaches when all other remedies failed to bring her relief. Any sufferer may secure health by taking Wine of Cardui in her home. The first bottle convinces the patient she is on the road to health.

For advice in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

WINE OF CARDUI!

Patronize home industry—Corvallis Steam Laundry.

Mrs. Adams, known to the ladies who frequent Newport, as a teacher of embroidery, will be pleased to have Corvallis ladies call at her rooms, next door north of Prof. Lake's, where she has an assortment of linens, canvas and designs not found in any store in the valley. Wednesdays, Thursdays and Saturdays.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass had to get up ten or twelve times in the night and had a severe backache and pains in the kidneys and was cured of Foley's Kidney Cure. For sale by Graham & Wortham.

A Wrong Impression.

EDITOR OF GAZETTE—Dear Sir.—An impression has gone forward that we are not retailers of groceries. In order to correct this, I wish to state that we have a very full line of groceries and sell at retail. Should it not be convenient for your readers to call in person, they can call us up as we have both phones. Yours truly
S. L. KLINE
Corvallis, Jan. 16, 1905.

Sickening Shivering Fits

of Ague and Malaria, can be relieved and cured with Electric Bitters. This is a pure tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to quinine, having none of this drug's bad after-effects. E. S. Munday, of Henrietta, Texas, writes: "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life. At Allen & Woodward's drug store; price 50 cents, guaranteed."

When Buying a Horse.

A farmer, speaking of the way a preacher was deceived into buying an unsound horse said to me the other day: "I was thinking how easy it is to fool a man in matters he knows nothing about." Buying a horse is pretty ticklish business unless a man does know considerable about the animal. And even then it may be a good plan to get the opinion of some man who knows a little more about horses than you do.—Farm Journal.

"Dry Dust" for Spraying.

Mr. L. A. Goodman stated recently that spraying was to-day a necessity with the progressive apple grower. He had been testing the merits of "dust spray," and while he did not feel qualified to state that it was altogether an improvement over the old liquid form; yet he had seen fit to use it exclusively on an orchard of over 400 trees. Thoroughness seemed to be the keynote to success. As to the "dust," he pronounced it safe, cheap, easily applied—and no water hauling necessary. His formula is as follows: Lime, 20 pounds; paris green, one pound; dry Bordeaux, one pound; sulphur, one pound; concentrated lye, pulverized, one pound. The dry dust spray is without doubt rapidly gaining friends, and we will all know more about it a few months hence.—Midland Farmer.

CLEANING UP THINGS.

No Time of the Year is Better Suited for This Kind of Work Than the Present.

During the next two months is one of the best seasons for cleaning up the farm, and in the majority of farms there is plenty of opportunity or need for this kind of work. After the plowing for wheat is done the manure can all be cleaned out of the stables, sheds and feed lots and hauled out and scattered broadcast on the land intended for wheat. The work of properly preparing the land for the reception of the seed will incorporate sufficiently with the soil. Weeds may be cut down in the meadows and pastures and along the fence rows to a good advantage. Many of them, if cut down before they mature seeds, will be effectually killed out.

This is one of the best reasons for killing out sprouts and briars. With the exception of sassafras and persimmon almost all kinds may be effectually killed out by cutting down reasonably close to the ground almost any time in August. With these two in nearly all cases the only safe plan is to grub out, cutting them off at least six inches below the surface. While this plan requires considerable work, in the end it will prove much the more economical. This is so much the case that generally it will be better to thoroughly clean an acre in this way than to spend the same amount of time and labor cutting off and burning a larger acreage, but doing less effective work.

Cutting close to the ground and letting lay until dry and then burning will kill out many weeds, moss and sprouts, but with persimmon and sassafras the tops will rarely be killed down so deep but that the roots will send up shoots next year, and in a short time they will be as much in the way as ever.

By keeping the farm clear the value is materially increased to say nothing of the better satisfaction in working it.—N. J. Shepherd, in Farmers' Voice.

Open Ditches Breed Weeds.

Open ditches are usually weed nurseries, because not one farmer in ten ever finds time to go along them and keep the weeds down to prevent them from seeding. An open ditch also occupies much more ground than the width of the cut. There must be a turn row on both sides or else the crop to the width of such a row is tramped down and ruined. For these reasons it pays to put in tile drains instead of open ditches. A tile drain lasts forever; an open ditch needs cleaning out every year.

SHEEPFOLD AND PIGGERY.

Petting sheep is almost as good as feeding them.

A hog naturally is a clean animal; man has made him dirty.

For satisfactory results in any flock, the ram must be thoroughly well bred and typical of the breed he represents.

Pure water and plenty of it is relished by hogs. But don't make them drink great quantities of thin stop in cold weather for the sake of the grain. Better feed both separately.

Buckwheat middlings are a good feed for hogs, but they make rather more economical gains on corn and wheat feeds. Buckwheat hulls are not fit for any kind of stock. They make good litter for the poultry house and the fowls pick out any good stuff in them.—Farm and Home.

When Buying a Horse.

A farmer, speaking of the way a preacher was deceived into buying an unsound horse said to me the other day: "I was thinking how easy it is to fool a man in matters he knows nothing about." Buying a horse is pretty ticklish business unless a man does know considerable about the animal. And even then it may be a good plan to get the opinion of some man who knows a little more about horses than you do.—Farm Journal.

"Dry Dust" for Spraying.

Mr. L. A. Goodman stated recently that spraying was to-day a necessity with the progressive apple grower. He had been testing the merits of "dust spray," and while he did not feel qualified to state that it was altogether an improvement over the old liquid form; yet he had seen fit to use it exclusively on an orchard of over 400 trees. Thoroughness seemed to be the keynote to success. As to the "dust," he pronounced it safe, cheap, easily applied—and no water hauling necessary.
