

The Currans Dry Goods Co. Good Shoes.

In no part of physical culture can more grace and beauty be attained than in the shap of the foot cultivated by properly fitting boot.

We study the shoe question minutely and have had heaps of experience with various kinds of shoes with the result that we are more familiar with the shoe market than any house in the city and can give our customers better results in their shoe purchases in consequence thereof than they are likely to find elsewhere.

We have tried many lines of shoes in our store and have carefully studied the wearing qualities of all. Some have proved satisfactory in the extreme, while others have been the cause of complaint and dissatisfaction, which in every case we have perfected our customers by refunding the money or replacing the shoes.

Having been so long in the shoe business we have had a vast experience upon which we can rely with confidence and can give our customers satisfaction in every particular without any exception. It is our important feature of our business that we sell a better shoe for the same money or the same shoe for less money than any house in the city.

RED CROSS TAXATION.

The Russian Government Imposes a Heavy Tax For the Society. St Petersburg, Oct 29.—The government, for the second time within two months, has imposed a special tax for the benefit of the Red Cross society. The first was a tax of from five to ten roubles upon licenses to travel abroad, according to the length of time for which the license was granted; and now railway tickets are taxed five kopecks when the fare is two roubles or upwards. It is estimated that the ticket tax will yield \$125,000. It is understood that the Czarina whose interest in the Red Cross society is keen, originated the idea of imposing the taxes.

NEWSPAPER WOMAN DEAD.

Escaping Gas Caused Death of a Well Known Writer. Chicago, Oct 30.—Mrs Anna L. Adamson a well-known writer, daughter of the late E. J. Hulling, editor and publisher of the Saratoga Sentinel, was found dead in her room at the home of her sister, Miss Catherine A. Hulling. The gas had been escaping from an open jet for some time. The door was slightly ajar and this fact led Miss Hulling to believe that her sister's death was accidental. For a number of years Mrs Adamson was actively engaged in newspaper and literary work.

CHICAGO'S DEN OF THIEVES.

Chicago, Oct 30.—A repository for stolen goods in unusual quantities has been unearthed in Chicago by the police. Ten thieves, men and women, were arrested, and two wagon loads of a stolen property, valued at thousands of dollars, was recovered. Vina McNurney, an alleged shoplifter, is said to have maintained the resort. It is believed that the gang have associates in many other large cities, and that the building raided was the headquarters of thieves who are working systematically in all parts of the United States.

AMERICAN LEAGUE MAGNATES.

They Will Meet To-Day to Decide On the Circuit. Chicago, Oct 30.—The circuit committee of the American league, composed of Messrs Johnson, Comisky, Somers and Manning, will meet to-day in the office of President Johnson. At the meeting a report will be made on the recent eastern trip of President Johnson and Mr Somers and some definite action may be taken by the committee regarding the entering of Philadelphia, Washington and Baltimore. There will probably be a discussion of the three western cities to be dropped in order to make way for the three eastern clubs, although the definite make-up of the circuit will, of course, not be actually decided until the regular meeting of the club owners at the time that the committee makes its final report after the completion of the investigation which has already been started.

CHICAGO CHURCHES COMBINE.

Chicago, Oct 30.—Forty churches which use institutional methods of work will be joined together in a league similar to but not affiliated with the Open Door and Missionary Church league of New York. The new organization grows out of the conference on institutional methods in church work held in Trinity parish house, this city. The formation of the league will be completed to-day. The league will collect information as to the religious needs of the city and furnish it to the pastors of the affiliated churches in such a way that it will be available to use in increasing church membership among the ranks of the present unchurched and to acquaint them with the needs of the districts for particular kinds of missionary and evangelical work.

Proclamation by the President appointing November 29. Washington, Oct 30.—The state department to-day issued the following: By the President of the United States of America.

A PROCLAMATION.

It has pleased Almighty God to bring our nation in safety and honor through another year. The works of religion and charity have everywhere been manifest. Our country through all its extent has been blessed with abundant harvests and the great industries have prospered beyond all precedent. Our commerce has spread over the world. Our power and influence in the cause of freedom and enlightenment have extended over distant seas and lands. The lives of our official representatives and many of our people in China have been unharmedly preserved. We have been generally exempt from pestilence and other great calamities; and even the tragic visitation which overwhelped the city of Galveston made evident the sentiments of sympathy and Christian charity by virtue of which we are one united people.

RUSSIAN COTTON INDUSTRY.

St Petersburg, Oct 30.—Official reports show that the area under cotton cultivation in Russian Central Asia has increased thirty per cent this year. The crop is estimated at 7,500,000 pounds, or half the Russian requirement. This result is attributed to the increased raw cotton import duty introduced last winter. The situation in the cotton industries is much brighter in the United States. The petroleum and petroleum shares have fallen sharply recently. The New York Verna attributes this to a campaign of the syndicates, who wish to discourage any possible competition from bidding for the petroleum fields recently discovered in Trans-Caspia.

COMMISSIONER CROSS, FATHER OF THE CHICKEN INDUSTRY, WANTS TO AMEND THE DRAFT BY MAKING THE DISTANCE COOPS MUST BE FROM THE HOUSES THIRTY FEET INSTEAD OF FIFTY FEET.

Commissioner Cross, father of the chicken industry, wants to amend the draft by making the distance coops must be from the houses thirty feet instead of fifty feet. Commissioner Finn did not see any use feeding with the thing at all, so long as no one was finding fault about the chickens or the coops. Nothing was done in the premises, except to table the matter, where it is likely to remain until many a chicken that is now full of animation will have felt the keen edge of the axe. It was resolved and ordered on file. The monthly report of Milk Inspector Keeley showed that thirty-eight samples of milk had been inspected since the last report, all of them being above the standard. Other inspections included 129 milk cans, 40 stores, 15 vehicles and a number of barnyards; cowsheds and feed supplied to cows. One barnyard, one stable and two milk measures were ordered cleaned. The report was approved. The payrolls and miscellaneous bills were read and payment recommended. The board then adjourned.
