Sponging Woolens at Home.

Never in home dressmaking cut any kind of woolen goods until they have been sponged. The sponging material is often not dampened before it is sold. To do this properly at home get an ironing board or table the width of the goods and cover with tightly stretched calico. Spread your cloth wrong side up, cover with a linen cloth that has been well wrung out in water and then press with a hot iron the lengthwise of the goods. Never let the iron be still, and the goods must fall evenly on the floor on to a clean cloth as pressed.

How to Clean a Piano.

The materials required for washing piano keys are a dish of tepid water, a cake of soap and three pieces of clean, thin flannel. Take one piece of cloth and wet it; then rub it over the cake of soap and apply it to the piano—a small portion of the surface at a time. Then wet another piece of flannel, and with this rub off the soap as thoroughly as possible. With the third piece dry the part treated, rubbing it till it shines brightly, and do it all as quickly as possible, that the soap may not remain too long upon the polished surface.

Where Quail Are Numerous.

Quail are destroying the crops of the Colorado farmers and have been declared a nuisance by various town and county boards. Ladysmith Steer Hardships. During the siege of Ladysmith 4,000 horses of the cavalry brigade were converted into soup or sausage in a single month.
