The United States Fast Becoming a Paradise

We want to make the people feel happy, and here are the latest figures to show what is being done in their interest. In round numbers, this country spent \$300,000,000 for hospitals, orphanages, new churches, etc. etc. in 1900.

The Catholics head the list with \$31,000,000. Methodists \$26,000,000. Presbyterians \$20,000,000. Episcopalians \$14,000,000. Baptists \$12,000,000. Salvation Army \$7,500,000 and so on down the line.

In 1800 we had 2,340 churches and to-day we have 187,481 churches in the United States alone. This is a marvelous showing—a pretty good world to live in.

The next best thing to do to make the world better is for the great Trusts and Combinations who control prices to show their honesty to the people by paying GOOD LIVING WAGES.

The habit of paying small wages is a bad habit. What is the world to anyone who has not got a comfortable home, with comfortable surroundings? Good character and good homes must go together, and watch the good old mother, when she is in our store; how quickly she recognizes this fact.

She says to her husband: "JOHN, IF WE WANT THE BOYS AND GIRLS TO STAY IN NIGHTS, WE MUST GIVE THEM AN ATTRACTIVE HOME!"

The greatest philosopher could not speak a greater truth. This is what we have been doing for the past month—away in the markets buying goods—the latest styles and the lowest prices in America.

STRUCK BY A TRAIN.

Driver Trown in the Air and Cart Drugged Several Hundred Feet.

There was a big sensation in South Brooklyn this morning when the 8:36 train collided with a cart belonging to Edward McManus, throwing the driver, Frank Napoleon, several feet into the air and tearing the cart off the horse and dragging it several hundred feet. It was a close call, and while it is thought that the driver was more scared than hurt, still it is hard to tell about that, for he got a bad fall. McManus has men at work drawing sand from the bank at the west side of the track and while driving over the rails this morning the train came upon the cart in charge of Frank Napoleon before he had a chance to get out of the way.

A freight that was standing on a siding shut out the view down the road and on this account the engine was but a short distance from the spot when the man got onto the track. When he realized his perilous position he gave a yell and a roar and struck the horse with the reins. The animal made a bound towards the bank, thus getting his own heels out of the way on time to save them from being ground off. The train came to a standstill and the conductor and engineer got down and looked over the ground. All the facts were reported to Superintendent Beach.

A SECOND EXPLOSION.

Victoria, B. C., Feb 16.—A second explosion occurred in No 5 shaft at Union colliery last night, but it had been expected and all the men had left the workings. This explosion prevents any further attempts being made to rescue the entombed miners, through No 5 shaft. A partial list of the entombed miners includes eighteen names.

PAID LARGE DIVIDENDS.

The Year 1906 a Prosperous One for Waterbury Manufacturers.

The manufacturing concerns of Waterbury were never in a more prosperous condition. While all of them declared annual dividends at their last meetings of the year in December, many of them were little less than monstrous. All of the big concerns, furthermore, built large additions last year, which have been paid for to the last cent. It is noticeable, also, that not one of them increased the pay of the workmen, but, on the contrary, never before had there been so many labor disturbances in this city over wages. The effects of the strike in the adjusting department at the clock factory still felt among the workmen, at all events, and the same might be said of the situation at the casting department at the Waterbury Manufacturing company's giant plant. One of the big silverware factories has been closed by the silver trust and hundreds of men thrown out of work, while a great many of them have lost their equity in houses they had built near the factory whose wheels are now silent, and which before it became a mere atom in the assets of the trust was one of the big concerns in this city.

Following is the dividend declared by each concern in the round figures: The New England Watch company, 8 per cent; Scovill Manufacturing company, between 20 and 40 per cent; Waterbury Clock company, 47 per cent; Waterbury Manufacturing company, about 25 per cent, certainly not less than that amount; Plimne & Atwood company and the American Ring company, 20 per cent each; The Pump and Machine company, 40 per cent; this is about the same figure that this concern has been paying for years; Holmes, Booth & Hayden's, 5 per cent; American Pin company, 5 per cent. This concern is paying for a large tract of land and new buildings. The Waterbury Brass company and the Benedict & Burnham company, which are now owned by the American Brass company, 6 per cent each. The stockholders in these firms, while they did not draw as high a dividend as they did before they sold to the American Brass company, draw as much as before, in having more stock, this being one of the conditions of the sale.

HEALTH OF THE STATE.

January Deaths Numbered 1,439—Vaccination and Smallpox.

The state board of health has issued its report for the last month. There were 1,439 deaths during January. This was 319 more than in December, 72 more than in January of last year, and 713 more than the average number of deaths in January for the five years preceding. The death rate was 18.5 for the large towns, 20.4 for the small towns and 19.0 for the whole state. The deaths reported from infectious diseases were 235, being 16.4 per cent of the total mortality. Deaths occurred in the state from diseases as follows: Measles, 3; scarlet fever, 3; grippe, 132; cerebro-spinal fever, 81; diphtheria and croup, 41; whooping cough, 5; erysipelas, 6; typhoid fever, 14; malaria, 2; puerperal fever, 3; diarrhoea, 12; consumption, 153; pneumonia, 229; bronchitis, 73; diseases of nervous system, 142; heart disease, 119; accidents and violence, 62; all other diseases, 425. The mortality in public institutions of the state was: Bridgeport, 9; Hartford, 26; Middletown, 14; New Haven, 22. Sixteen towns report as having no deaths in January. They are: Andover, Beacon Falls, Bozrah, Canterbury, Canton, Chaplin, Columbia, Durham, East Granby, Easton, Killbuck, Middlebury, Middletield, Sullivan, Sterling and Trumbull. The registrars of Canaan and Willington did not report for last month. In regard to smallpox the report says: The recent outbreak of smallpox in New York city naturally excited an apprehension that it would invade Connecticut. It has moderately, but far less than was feared. There have been six cases in Bridgeport, one in East Granby in Torrington, none fatal as yet. The remarkable exemption from this dread pestilence, which Connecticut has enjoyed, while it has been prevailing to the number of thousands of cases in other states, can be attributed to the general practice of vaccination in Connecticut. Vaccination has been on trial now for more than a hundred years, and has been tested in every civilized country in the world, and everywhere proved itself a sure and safe means of protection, when properly performed. It is true there are a few mentally distorted persons who deny its protective power. They represent a class of objectors in the human family that always exists. They are like the famous colored preacher of Virginia who claimed that the earth was the center of the solar system, and with illogical obstinacy insisted "dat de sun do move round it."

LETTER CARRIERS' BALL.

The Sixth Annual Was a Brilliant Success.

City hall was again the scene of merry festivities last evening, when the sixth annual ball of the letter carriers of Waterbury was held. The handsome and natty manner in which the hall was decorated at once attracted the eye and won the admiration of the exceedingly large audience in attendance. The letter carriers in the past have been grand affairs, but the sixth annual surpassed them in every detail. Here and here upon the stage were handsomely displayed numerous sweet and inspiring strains of dainty melody emanated. The American band furnished music for the dancing and also rendered an interesting concert program as a prelude to the dancing. The program of the concert was as follows: Overture..... O. Nicolri Merry Wives of Windsor... A. Czibuka Woodland Whispers... C. F. Briegel Love's Frolics..... William Lorraine Sakome-Intermezzi..... G. Michiels Czardas.....

Shortly after the conclusion of the concert, which was of rare merit, the grand march commenced. Postmaster J. H. Guernsey and Prof. Leo Herr led with the twenty letter carriers immediately after them. About 150 couples participated in it. Dancing followed, the program consisting of eighteen numbers, for which the American band orchestra furnished music and Prof. Herr promptly.

The gallery and the body of the hall was filled. All enjoyed a most pleasant evening, both those who sat in the gallery and looked on and those who joined in the merry whirl.

THE KENNEDY TRIAL ADJOURNED.

Rolling Out of Handwriting Causes Much Discussion Among Lawyers.

New York, Feb 16.—There was a sudden adjournment of the Kennedy case yesterday until Monday morning. Mr Cantwell said the rolling of Justice Fursman's handwriting expert was a surprise and the defense was not prepared to proceed with the case. Speaking of Justice Fursman's ruling on the testimony of handwriting expert Osborne said yesterday: "Justice Fursman's ruling is good law, then to my knowledge at least six men have been illegally executed. Not only this, but hundreds of others, in cases, not capital, have suffered imprisonment. In the case of Dr Buchanan the court of appeals sustained the decision of the lower court. The Buchanan conviction was brought about principally by the testimony of Professor Ames, the handwriting expert. Take the case of Molinoux. Weeks and Battle went before Justice Pardon C. Williams and asked that the indictment be dismissed on the ground that the testimony of the handwriting expert was not sufficient to find an indictment on. Justice Williams decided to the contrary, in a most decided manner. In the case of William H. Schooley, convicted of receiving stolen goods by means of a false signature to a power of attorney, and whose conviction was brought about by a comparison of handwriting and sustained by the court of appeals, that tribunal made use of the following: "We know of no principle or rule in law which would justify the court in rejecting this evidence."

ROLLER SKATING AT THE AUDITORIUM SATURDAY MATINEE, MONDAY EVENING.

Roller skating at the auditorium Saturday matinee, Monday evening.

BROOKLYN BRIEFS

Veronica Tynela, aged 23 years, died at her home, No 1 James place, last evening. Besides her husband she leaves one child. The funeral will take place Sunday afternoon at 2 p. m. with interment in Calvary.

John Ryan of North Leonard street, who was struck down by a team about a week ago and seriously injured, was removed to the hospital yesterday afternoon at 2 p. m. His condition is still critical.

There is to be a Lithuanian wedding in Brooklyn Monday morning. The bride is a well known lady of that nationality and the groom is Joe Pit, who presides over the lunch counter at a well known cafe.

It was a jolly party that enjoyed a straw fire at Beacon Falls last evening. A more merry affair could not be gathered together. After reaching Beacon Falls all partook of a splendid repast. Both on the way to and fro there were songs and recitations galore. Officers William Goggins and Thomas Finnegan were voted the best directors that ever existed.

A surprise party was given in honor of Miss Alfreda Whitley at her home on Bank street last evening. A large number of her friends were present and the evening was pleasantly spent in games and amusements. Songs were rendered by Thomas McDonald, Edward Delaney, Patrick Dehan and the Misses Margaret Delaney and Rose Rafferty, while Roger Dawson, Thomas McDonald and Miss Rose De Liquori contributed several piano selections to the evening's entertainment. Dancing was one of the features of the evening. Refreshments were served.

A private sociable and dance was given in Beantown last evening. Charles street last evening by a number of young people in this section. The grand march, in which about twenty couples were participants, was led by Patrick O'Brien and Miss Hooker. Michael Brennan prompted for the dancing, which was followed until an early hour. Refreshments were served. All present had a most delightful time and it was their unanimous desire that a similar affair would be given in the near future. The committee of arrangements was as follows: Michael Brennan, chairman; Patrick O'Brien, John Malone, John Cunningham, Michael Cavanaugh, Patrick Clark and Michael Mack.

The twelfth anniversary of the Brooklyn Athletic club was celebrated in a right royal manner by the members of this ever increasing in popularity organization and their many friends. The decorations of the club's rooms at once fascinated the eye and many were the compliments which the decorator's work received last evening. As on former occasions, the boys gallantly upheld their reputation as entertainers of the first rank. Everything was done by the members to make the affair the most enjoyable in the history of the club, and that they succeeded was well manifested by the manner in which everyone appeared to be enjoying him or herself. After the conclusion of the grand march, which was led by President Daniel McCarthy and Miss Mollie McCarthy, followed by about 150 couples, dancing followed until a late hour. Music for the dancing was furnished by the Excelsior orchestra and Prof Harper did the prompting. During the intermission between the dances a light collation was served. During the evening remarks were made by the president, Daniel McCarthy, Steve O'Brien, ex-president, Thomas Mitchell, J. Kiely, E. J. Donahue and J. Mulvaney. President McCarthy made rather a long speech in which he related the story of the organization of the club, told of the most important events in its history and dilated on its rapid growth and its present prospects. Many out of town guests were present, including the following: J. Buchanan and P. Lachance, Bridgeport; Homer Marchand, South Norwalk; F. Ashe, Ansonia, and the Misses Alice Kiely, New Haven, Susan Berberly, Stevens, Seymour and Jones, Torrington. The committee of arrangements consisted of J. O'Brien, J. Dunphy, D. McCarthy, Michael Madden, Larry Robinson and Charles Schmidt.

HEALTH OF THE STATE.

January Deaths Numbered 1,439—Vaccination and Smallpox.

&lt;
