The appearance at the White House of President Benjamin Ide Wheeler of the University of California has attracted much attention and revived the story of a month ago in which the President of the United States and President Wheeler were the central figures. It will be recalled that when President Roosevelt was in California he dedicated the University of California.

The dedicatory ceremonies were held in the University's Amphitheatre which William Randolph Hearst donated to the University. It is well known that Mrs. Phoebe Hearst, the mother of Representative Hearst is the chief benefactor of the University of California. She was made a Regent of the State because of her numerous donations to this institution.

For four years she has devoted herself exclusively to this seat of learning. She began by announcing a world wide competition for the University plans and these plans alone cost ultimately \$100,000. Her total contributions are said to aggregate \$1,000,000.

President Wheeler on the occasion of the dedication ceremonies read the names of all the donors except those of Mrs. and Mr. Hearst. The California press and Californians generally were indignant at this omission. No one could understand why the name of the chief benefactors of the University should be omitted when the names of persons contributing comparatively small amounts were read. More than 8,000 persons were said to be present in the Amphitheatre when the exercises occurred and President Wheeler did not mention the name of Hearst, presumably because he feared there would be a great popular demonstration on the part of the audience and this demonstration, it is assumed, would have been annoying to President Roosevelt.

The latest news, therefore, that President Wheeler was a guest at the White House for three days and is now mentioned as the one likely to be appointed as Minister to the Hague is attracting general attention.

Is President Wheeler now receiving his reward for suppressing the name of Hearst? Is he to be sent to the Hague as an evidence of the fact that the President is grateful to him for failing to mention the family name in California most revered and esteemed?

But after all the main questions are:

Why did President Wheeler fail to mention the name of Hearst, at the dedicatory ceremonies?

Did President Roosevelt request President Wheeler to ignore the names?

If so, why should President Roosevelt have objected to the mention of the names and the natural demonstration of enthusiasm that would have resulted?

California is said to be so indignant over this remarkable situation that President Wheeler may well feel it necessary to have a soft spot for alighting purposes and there is eminent propriety in the administration furnishing the spot.

## GOOD ROADS OUTLOOK

The report of the special committee appointed by the Board of County Commissioners on the Daytona and New Smyrna road, published in last week's Gazette News, cannot be made to the Board by Messrs. Turner, McDonald and Hendricks before the August meeting and then it will have to be advertised thirty days, it will be the first of October before the county will begin operations.

However, work has already begun at the other end of the road, as Mr. Chilton started a force of men to work on the two mile stretch through Mr. Conroy's property Thursday morning.

We are confident that the road will be built, and at as early date as possible. Those who are familiar with the route say it will not take longer than thirty days to build this road, as it will follow a natural shell bed the greater part of the distance, and where the shell beds are, all that will have to be done is to grub the trees and bushes and level the ground. It will probably take more time to throw up the fill across the marsh at Spruce Creek and Rose Bay than the rest of the work, and it is said the bridges can be built and the road completed while the fills are being made.

Dade county has begun anew its effort to complete a grand boulevard reaching from Palm Beach to Miami and beyond. The Rock train has already been ordered

on by the Florida East Coast Railway to help facilitate the work. Many miles have already been constructed, and during the present summer many more miles will be completed. Brevard county is also doing something in the road-making line.

Daingerfield, Gainesville.

Meetings of a number of organizations important to the J. C. & S. Association are under way at the Seaside. The most important of these is the annual meeting of the Chulu members and friends, Dr. M. McDonald and Mrs. Williams at their beach cottage. After enacting the scenes and the wile, sleep of the gentry and went for some time, the members were furnished with pens and paper and reluctantly invited to a soft mound where a card table. However, the room was quickly removed, and all suspense ended as the eyes rested on a splendid exhibit of plants and flowers in symbol. The real guess game had just begun. A tea plate with the letter Z in it represented a pansy blossom, but it took the show out of the Sifter, nearly the whole time allowed to solve the idea, was a wild-sopped mouth represented the tulip, two lips. But this was quite beyond the grasp of your reporter. However, there were many others more ready and the show closed fast and furious. Natural aptitude at guessing and familiarity with the floral kingdom won the day, and amidst laughter and cheers, Mrs. C. F. Burroughs was awarded the first prize and Mrs. J. C. Trumbauer the second. After this great mental strain the guests were daintily refreshed with cream and cake.

## Over-Work Weakens Your Kidneys.

Unhealthy kidneys make impure blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your body's purifiers, filtering out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of ureic acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or steady heart beats, and makes one feel as though they had heart trouble, because the heart is overworking in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits.

By all druggists in fifty-cent and one-dollar bottles.

You may have a sample bottle by mail. None of Swamp Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Elkhart, Ind.

Don't make any mistake, but remember the name, Swamp Root, Dr. Kilmer's Swamp Root, and the address, Elkhart, Ind., one dollar bottle.

## Cured

At 70 of Heart Disease Contracted

During Civil War Veteran Grateful.

Dr. Miles' Heart Cure Effectively Cured.

Heart disease is curable, but in people of advanced age it does not readily lend itself to ordinary treatment. There is, however, hope for all sufferers in Dr. Miles' Heart Cure, which we know from watching hundreds of cases and from the letters of grateful sufferers, will cure where all else has failed. It is not only a wonderful cure for weak and disabled people, but it is also a powerful factor in the action of the heart and the most effective treatment ever formulated for improving the circulation of the blood.

"During the Civil War I contracted heart disease, and in 1870, while living in the grand old town of Lexington, Va., I grew so much worse, I left there with my wife to visit my sister-in-law, Mrs. T. A. Kirby, at Roanoke, Va. While I was not strong to anyone I never expected to live long, I did not expect to live long. On reading Mrs. Kirby's letter I thought I should try Dr. Miles' Heart Cure. I purchased a few bottles of it at the Drugstore and Tonic. After using one or two bottles, I could see no improvement, and I despaired of ever being better, but my health improved rapidly, and I am now in full strength again. I am fifteen or sixteen bottles. I was restored to perfect health and while I was 70 years old, I am comparatively a boy. You are a benefactor, and I sincerely thank you. Dr. Miles' Heart Cure is suffering humanity."
