LOCAL NEWS.

The Kenna Lumber Co. has plenty of coal—Nico Lamp.

Sid Birdwell moved his office into the new depot Tuesday.

Miss Gertrude Teague is teaching a four-month term at her home school, out in the Valley.

Mrs. Al Hawkins came home from Roswell Sunday. Her Nephew, Jasper Guinn, came with her.

The Kimmons boys have plenty of coal on hand again. They got a car this week that is as fine as we have had in Kenna.

H. E. White and family, including Alvin, came back overland from Texas the first of the week, arriving home Wednesday.

Our boys, Joe and Ernest, are at work now drilling a well (or a hole) on our claim. They began yesterday, and will continue as long as the rope lasts and the rabbits hold out.

A letter received yesterday by Mrs. Cowgill, from her daughter Mrs. C. H. Putnam, who is at Los Angeles, California, says it has been raining out there for a month passed, nearly every day.

An easy way to take a steam bath: Place a pail that is three-fourths full of boiling water under a cane-seated chair. Slip two hot bricks into the water. It is well to have one or two more heating for some one else to drop into the water to keep up the steam. Sit down in the chair, covering the body entirely with a blanket after removing all clothing. Let the blanket fall to the floor so that all the steam may be kept in. Sit in the chair as long as the steam rises, then quickly wrap yourself in a hot, dry blanket and instantly get into bed and keep closely covered.

Work is a great blessing. You can not see now, but some day you will say that you were fortunate in your boyhood days because you were compelled to work. Because you cannot get power to do things save by doing them. Look over the successful men you know; get their history. Nearly every one was compelled to work in boyhood. They toughened their muscles by hard work, and sharpened their brains by looking out for themselves, and are self-reliant.

ESTABLISHING A REPUTATION.

"Father," said little Roll, "was Solomon really the wisest man?"
"I don't know, my son. You see, his political power was so great that when he claimed to be the wisest man nobody had the nerve to contradict him."

The trials that make us Fume and fret,
The burdens that make us Groan and sweat,—
Are the things that haven't Happened yet.

The hen has many useful things,
Including feathers, neck and wings,
And white meat, dark meat, wishbone, legs,
And stuffing, side-bone, gizzard, eggs.
She does the very best she's able
To make us satisfied at table.

A New Metal.

A new material, called by its inventor "cork metal," has been introduced for the manufacture of aeroplanes. It is about 40 per cent. lighter than aluminum, and is nothing more than an alloy of magnesium with small quantities of aluminum and iron. The drawback to the "cork metal" is that it reacts chemically with hot water, giving off hydrogen, but doubtless this difficulty will be got over in some way.

Your Stomach—and Your Wife.

When a man has trouble with his stomach, it is due to one of two causes: Either his wife is such a good cook she is stuffing him, or she is such a poor one she is starving him. —Aitchinson (Kan.) Globe.
