Secretary Sherman and Ben Harrison the Favorites for Senatorial Honors.

Must Keep Their Eyes Open. Philadelphia, Pa., Nov. 27.—The Evening Telegraph says: The very large number of our citizens who are directly and indirectly interested in the China trade will do exceedingly well to closely scrutinize any bargain that may have been made between the Chinese commissioners and our people before they make up their minds to permit its ratification by the Senate without a vigorous protest.

Chicago, Nov. 27.—Times Washing ton special on cool reception of Tow Path Club says: These blooming fresh water idlers had cards specially printed for the occasion with title in full of First Deck Hand, etc., printed after each owners name. One may imagine Gen. Garfield's feelings when he was called from his library by a servant with a dozen cards in his hand. The reception he gave his friends was absolutely freezing, he curtly nodded to them while standing and did not ask them to sit down. One of the spokesmen feebly tried to say he was glad to see that Garfield's canal boat was finally in the last lock, when Garfield, with a stormy look, shut the sparker off in the middle of a word. Gradually it began to dawn upon the callers that they were not pleasant companions and they crept softly away, hoping as they went that they had not intruded. A first deck hand snuffed up the reception by answering the inquiry of how were you received: "Damn cold." Gen. Garfield said afterwards to friends that he had no patience with such idleness. He was not ashamed of his having been a canal boy, but was it a matter to boast of; it was a mere accident of his life, and of least importance in shaping his after career.

Chinese Matters. San Francisco, Cal., November 27.—The steamer City of Tokio, from Hong Kong via Yokohama has arrived. The affairs at Pekin are still unsettled. Different parties at the capital are anxious about the future of the country and of the nature and extent of the demands to be made by Russia. It is believed that Sung Li Yonn is still ignorant that territory will be asked for in addition to the large money indemnity and it is generally conceded that Corea is mentioned in this connection. The report that the Chinese are desirous of settling the question by arbitration is perhaps correct but it is agreed that Russia will allow of no foreign intervention. Captain Anderson, one of the officers of the British man of war which recently steamed upon Chinese waters had occasion to land near Chang Ki-ang and was surrounded by natives and pelted with stones.

The steamer Columbia, of the Chicago line, arrived here to-day, and reports while passing Duck Island, Lake Huron, she encountered large portions of a wreck of a steamer strewn for miles; saw life preservers marked Simeco. The Columbia searched for hours but failed to find any tidings. The opinion is that the Simeco struck on a reef off Duck Island and went to pieces the early part of the week. The Simeco was due here from Chicago four days ago. She was almost a new steamer, having been rebuilt last winter at Cottonwood, and was valued at \$40,000; insured for \$12,000.

"It is Pleasant to Know." New York, November 27.—The Herald says: It is pleasant to know that the French government by a law recently passed prohibits commerce in wines containing more than four grammes of potassium sulphate to the litre. This salt is a product of plattiridge and in wines thus treated is often treated to five or six grammes per litre. While therefore the process has not been prohibited entirely it has been so rated that wine consumers the world over are likely to be far less victimized by it.

Fox Fled. Chicago, Ill., November 27.—A Times New York special says the search to find Edwin Fox, the reporter for Truth who probably originally received the envelope which figures in the Morey case discovered that Fox recently left town and is now in Novascotia. Added to this sum the amount of specie imported, \$127,000,000, principally in gold, and Europe has been deprived since January 10, 1877, of about \$255,000,000 in gold which it would have had in the normal course of affairs.

Her Cargo. Chicago, Nov. 27.—The steamer Stomeco which is reported lost on Lake Huron, had twenty-one on board including officers and two passengers. Her cargo consisted of 160,000 bushels of corn. She was valued at \$20,000, and was considered staunch and may yet turn up.
