## NEWS BY TELEGRAPH

The Usual Budget of News from Washington.

The Senate Deadlock and the Star Route Fraud.

Interesting Items on Various Topics from Other Quarters.

Newsy Notes From Mexico and Across the Water.

The Days Doings—A Full Chapter of Crimes, Casualties and Other Happenings.

Tehuantepec Railway.

New York, April 29.—The World interviewed Gen. H. W. Slocum yesterday, he having just returned from Mexico. He said: "I am somewhat interested financially in Tehuantepec and desired to see how work was advancing. The first twelve miles from the eastern terminus are completed and forty more are graded. By the 1st of July fully fifty miles will have been built and will be in running order. Mr. McAlpin has selected a harbor for the western terminus and will begin to build from that end immediately. A large quantity of rails and rolling stock will be shipped hither in the next fortnight. The road is being built entirely by New York capitalists, except that the company has a subsidy from the Mexican Government of \$12,500 a mile, to be paid as the road advances, and this has been paid regularly so far and probably will continue to be paid. While I was in the City of Mexico the sum of \$550,000 was the amount of the appropriation bill to provide for the payment of the portion that is expected to be built during this year. Grant's road begins at a point on the coast about fifteen miles below Vera Cruz, who don't like the idea of a rival seaport being built up so near her and possibly some other point may be selected. The proposed course from there is directly west to the Pacific. No portion of this road has yet been built. It has no subsidy. I think Grant will succeed. He is popular and has some bright people around him among the Mexican people of great influence.

A Conclusion Reached.

Washington, April 29.—Senator Dawes, chairman of the republican caucus committee, had a conference with the President to-day. The President is emphatic in urging the consideration of executive business, especially the confirmation of nominations. A number of pending nominations are to fill vacancies the existence of which is somewhat embarrassing the work of the departments and as soon as the Senate resumes executive sessions the President has a number of nominations to make, some of which he has been requested by parties selected for offices to hold back while the deadlock continues, as the gentlemen do not like to have their names hung up in the Senate. There is no doubt but what the committee will arrange for an executive session next Tuesday to consider the Chinese treaties. This will take two or three days and in the meantime the committee will arrange for action upon nominations. The prevailing sentiment among the republicans seems to be in favor of letting the Robertson nomination go over until next winter, but the caucus committee does not feel authorized to single out this case as the courtesy of the Senate demands that it be left entirely with the Senators.

Wounded Officers and Escaped Horse Thieves.

Del Norte, Col., April 29.—Night before last Sheriff Bronough, of Saguache, and Mr. Samuel Goodaker, of Russell Springs, left on the western bound coach to follow three horse thieves who have been stealing horses and plunder near Saguache and this place. Yesterday they overhauled and captured the three about ten miles west of Wagon Wheel Gap. The men were, as was supposed, entirely disarmed, but must have had weapons in their boots, as they made a break in the night, shooting the sheriff in one arm and Goodaker in both arms. Two of them escaped without their coats. The third one did not offer resistance, and was started for this place this evening. The other two are supposed to be near the Gap, in the foot hills, and will doubtless be forced into the road soon. Different parties are after them. Dr. Pittman started from here this evening to take care of the wounded.

Blazes.

Chicago, April 29.—A special to the Evening Journal says: This morning the whole business portion of the village of Mount Morris, Mich., burned. Losses were very large. The town was almost wiped out. The house of James Parsons, near Charlotte, Mich., burned last night. The family slept till the roof fell in. Mrs. Parsons and a child are probably fatally burned.

## Wool Market.

Boston, April 29.—Wool during the past week has been more quiet, manufacturers taking 1,800,000 pounds, most domestic, including all grades and qualities. There is no improvement in prices and no prospect of any improvement at present. Manufacturers are bound to purchase cautiously as the entire clip of the country comes upon the market during the next two months, they feel that with such abundant supplies of old and new wool on hand that prices should rule low. Ohio and Pennsylvania fleeces have been selling at 38 to 40 for X; 40 to 41 1-2 for XX, 42 for X and above. Buyers are not disposed pay over 40 for good XX fleeces. Michigan, Wisconsin and New York X fleeces have been sold at 37 to 39 and dull. Medium and No. 1 fleeces range 40 to 46 as to quality, some choice lots of Ohio selling at 44 to 46. Combing and delaine fleeces have been very quiet and remain unchanged. In California wools there has been sales of 370,000 pounds, principally fall, at 16 to 25 per pound; and in unwashed and unmerchantable fleeces the sales have been 425,000 pounds at various prices, as to quality, including a lot of fine unwashed at 24 to 28; good to medium grades at 28 to 32. Pulled wool has been in fair demand at 30 to 38 for common; good western supers at 40 to 48; good and choice eastern supers 35 to 40 for X pulled. Foreign wools have been quiet with sales of 100,000 pounds. Cape at 30 to 31 1-2. Several lots of Montevideo sold at 28 to 30 1-2, and small lots of Mediterranean carpet at various prices.

## That Executive Session.

New York, April 29.—A World's Washington special says: It is said on apparently good authority, that the committee agreed upon yesterday in the Republican caucus will consist of Dawes, Ingalls, Jones, of Nevada, Cameron, of Wisconsin, Hill, of Colorado, Sewell and Rollins. The committee will have three days before another session of the Senate, and the talk among the Senators to-night is that an executive session will be allowed for the consideration of the Chinese treaties Tuesday next. The Republicans will be very much mistaken if they suppose that the Democrats are going to submit quietly to the dictation of their caucus committee. Whenever the executive committee is ordered the Democrats intend to consider nominations as well as treaties and the nominations of Matthews, Chandler and Robertson, will be industriously pressed for consideration regardless of the effects towards Republican harmony.

## Filicide and Homicide.

Grand Island, Neb., April 29.—Christian Koch, engine wiper for the engine which runs between Grand Island and St. Paul, upon returning to St. Paul this morning went direct to his home and found the door locked. He looked in and saw one of his children in bed and his wife lying with blood around her upon the floor near the bed. He got the sheriff and they together went in and found his three children in bed and his wife on the floor, all with their throats cut, and a razor and table near by. The children were aged four years, two years, and six months, respectively. It is thought the mother first murdered her children and then committed suicide. The coroner's jury rendered a verdict in accordance with the above facts. No reason is given for the rash deed, and there is no evidence of insanity. She left only the two words, "Good Bye," to explain.

## Military.

New York, April 29.—Says the Herald's Washington special: The dissatisfaction caused among certain army officers by information of the division of the Gulf to which Schofield has been assigned, will probably be overcome by a change in the boundaries for the purpose of better enforcing military discipline in the Territories and along the borders, and to reach a full understanding in regard to the division of military authority between Sheridan's and Schofield's commands. Sheridan was to-day ordered to Washington by telegraph to report to the Secretary of War. Upon his arrival there will be a conference between the Secretary, Gen. Sherman, Gen. Sheridan and Adjutant-General Drum.

## A Kentucky Volcano.

Louisville, Ky., April 29.—A volcano broke out on the farm of N. A. Jamagin, in the southern portion of Ohio county, one day last week. Mr. Jamagin was attracted to the place by gas as it escaped from the earth, and found on examination that the earth was smoking on fire. He held a corn shuck over the place and the heat caused it to ignite. Many persons have visited the place, and it is a source of wonder to all.

## Murder.

San Francisco, April 29.—A dispatch received from Colton, San Bernardino county says that near Resting Springs, Inyo county, about four days ago there were two whites and one Chinaman murdered while asleep in a cabin by unknown parties. No particulars have been received. The murderers are supposed to have been Chinese or Indians.

## Hung for Homicide.

Windsor, Vt., April 29.—Rufus S. Carr, for the murder of W. W. Mumfomock, was hanged to-day.

## Giant Locomotives.

Philadelphia, April 29.—The Times of yesterday says ten iron giants for the Pennsylvania Railway Company will be built this summer at Altoona. They will be much larger and more powerful than the ordinary passenger engines, and are to be built for the particular purpose of making up time on that portion of road where there are long stops. The monster locomotive known as "No. 10" was built as an experiment, and the result has been satisfactory. The driving wheels are six feet six inches in diameter.

## Catholic Clergy on the Land Bill.

Dublin, April 29.—The manifesto of the Catholic clergy is substantially an endorsement of the report adopted by the recent Land League Convention. It is warmly approved by the advocates of the tenants, although it is thought it is hardly probable the proposal to elect Land League assessors to administer the law to be sanctioned by the Legislature will be conceded, that being the first step towards the establishment of the American way of making judicial appointments by popular vote.

## Mining Consolidation.

New York, April 29.—There is a movement on foot to consolidate the Central Arizona and Cascade Mining Companies. This will be done by an increase of the Central Arizona shares, for which it gets the eighty stamp mill, all of its outstanding obligations and one thousand feet of well developed ground adjoining, which is said to be equal to the Central Arizona in value. If this be accomplished the Central Arizona earnings will be available for dividends.

## Colorow Says the Troops Must Go.

Cheyenne, Wyo., April 29.—A special to the Leader from Rawlins, Wyoming, says Colorow, the Ute chief, and seventy-five lodges of Utes, are camped within three miles of the post on White River. Colorow told Col. Moore, commanding the troops of the Sixth infantry, to leave with all the troops within five days. The action of the Indians indicates trouble. Colorow is next in authority to Jack in the band of White River Utes.

## Conservatives' View of Land Bill.

London, April 29.—At a meeting of the Conservatives to-day it was pointed out that the Land Bill would not only deprive the landlords of their rights in dealing with their property but would take away a large portion of that property without giving any compensation.

## Couldn't Compromise.

Little Rock, Ark., April 29.—Efforts to amend the differences between the pro and anti-amendment wings of the Democratic party by compromise last night failed utterly, and both conferences adjourned sine die.

## Resolved to Suppress.

Paris, April 29.—A prominent diplomatist at St. Petersburg reports that the Czar and his counselors are disposed to adopt rigorous suppressive measures having no example in Russian history.

## Washington Whispers.

Washington, April 29.—A New York Washington special to an evening paper says an administration Senator said that at least the Chinese treaties would be acted upon when the deadlock is broken. Californians are getting anxious about it. The Democrats did not want the treaties confirmed, for if they fell through by lapse of time they could blame the republicans for it and the state would go steadily democratic as the people were united upon the idea that Chinese immigration must be limited. It is believed that the Democrats have in their minds a scheme to offer amendments to the treaties that will provoke discussion and result in the delay of action or non-confirmation.

Washington, April 29.—The total number of nominations sent to the Senate by the President to date, and awaiting action of the executive session, is 217. These nominations include Wm. Phelps, Minister to Austria; Wm. H. Robertson, Collector of Customs at New York; Mr. Elmer, Second Assistant Postmaster General; Wm. A. Grier, Third Assistant Postmaster General; Mr. Hilt, Assistant Secretary of State; Mr. Prier, Commissioner of Indian Affairs.

Ex-Senator Eaton, of Connecticut, who is now in Washington, advises the Democratic senators to stick to their present position concerning the election of Senate officers until 1885. He also advises them to vote against the confirmation of Judge Robertson, arguing that, if they enable Conkling to defeat Robertson, a breach will be created in the Republican party of New York, which will give the State to the Democrats.

Ex-Senator Dorsey has been active all day endeavoring to offset the allegations connecting him with the Star route ring to clear himself of the charge. It was stated to the western associated press reporter to-night by authority direct from Dorsey that the latter had requested the Postmaster General to investigate immediately Dorsey's alleged complicity and that the Postmaster General admitted that he could not find any evidence to connect Dorsey with the ring and General James will write a letter to-morrow to the President stating that nothing has been found against Dorsey. On the basis of this letter Dorsey will make his defense to the public denying that he ever had any connection with the Star route ring.

Senator Vest returned this morning from Missouri having made arrangements, he says, to remain here all summer.

The Republican caucus committee has been in conference with the President to-day, and an executive session is certain to be held next week.

There is bad blood between Dorsey and Brady personally, but those who still maintain charges against the Star route ring say it will result in aiding the pending investigation to unearth and expose all the ring's doings.

## The Franco-Tunisian Trouble.

Paris, April 29.—St. Hilaire received a note from the Porte raising the question of integrity of the Ottoman Empire, in regard to Tunis, and stating that the Sultan, being the Bey's Suzerain, he has influence over him which France does not possess, and consequently at a single order of the Porte the Bey might be made to make all amends to France, thus sparing the latter the necessity of coercive measures and risking diplomatic complications. The note hints at depositing the Bey in favor of his brother. France has, however, declined the proffered intervention, as she does not desire to acknowledge the Porte's suzerainty.

## Unsuccessful Attempt at Eviction.

Limerick, April 29.—An attempt to evict tenants at New Pallas to-day failed. Five hundred military and police were present, but the mob numbering five thousand men with revolvers shouted, and groaned, and stoned the sheriff and assistants. The police charged the mob several times but the bailiff's life being threatened, he refused to point out the houses of defaulting tenants. Another attempt to evict will be made shortly.

## Telegraphic Brevities.

Silver Bars 112 1-2 in New York.

The crop prospects in the Mississippi valley are regarded as being promising.

A special election will be ordered in South Carolina to elect a member of Congress in the place of O'Connor, deceased.

Attorney General confirms previous opinions as to the legality of withholding letters addressed to managers of fraudulent lottery schemes.

The situation in Russia is regarded as very grave, inasmuch as the most intelligent portion of the population entertain views similar to those of the Revolutionists.

A movement against the Jews has broken out at Argentan, West Prussia. A mob led by a school teacher attacked the houses of some Jews and maltreated the inmates.

R. H. V. Kelly, cashier at the B. & M. R. R. headquarters, in Omaha, for the embezzlement of \$8,800 was arrested. He admits his guilt. Cause, women and wine.

Andrew Parteecock, Adam Uriehs and John Martin were killed by the fall of a rock this afternoon in a tunnel of the Susquehanna coal company at Nanticoke, Pennsylvania.

A family named Weaver, eight in number, living near Detroit, on an island in a large marsh are all down with malignant scarlet fever. They were found destitute, without covering and hungry.

## The Theatre.

There was a good audience to greet the McWade combination, although not so large as the company deserved. A strong comedy bill was presented, "Paddy Miles," "Toodles" and "Richard mit III." Robert McWade demonstrated to our people, that is, what report had credited him with being, a versatile actor. As "Timothy Toodles," "Paddy Miles" and "Richard mit drei eyes," he afforded fun for the crowd. The characters exhibit a wide range, English, Irish and German, and not once did he make a misstep. As "Toodles" his drunkenness was, according to the boys, natural, and he kept the house in a roar. The burlesque of Richard III was excellent. The company was strong, stronger even than in "Rip Van Winkle," showing that although good in legitimate drama they are one and all first-class comedians. "Paddy Miles" afforded the keenest enjoyment, and the Irishman of McWade was perfection. Our people will have another opportunity of witnessing this farce, as it will be repeated this evening. This being the last appearance of McWade, he will certainly have a crowded house. The "Knight of Arva, or, Connor the Rash" will give this star an opportunity to acquit himself well, and afford his strong support a chance to show their ability.
