

GAS, DYSPEPSIA AND INDIGESTION

"Pape's Diapepsin" settles sour, gassy stomachs in five minutes—Time It!

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it. Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs; its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any dealer and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Adv.

Women in the World.

According to statistics married school teachers do better work than those who are unmarried.

Savannah, Ga., has more women motorcyclists than any other city of her size in the United States.

Miss Mary T. Wilson will probably be appointed as head of the woman prison board in Indiana.

Mrs. Susan Jones of Benson, N. C., has just celebrated her eighty-fifth birthday by cutting a new set of teeth.

Glasgow, Scotland, is to have female police if the women's association there can have their way about it.

Harriet Freeberry, a woman lawyer, has been engaged by J. S. Kinney, a millionaire of Menominee, Mich., to defend him in a \$500,000 breach of promise suit against him.

Mrs. Frederick W. Lehmann, wife of the former solicitor general under President Taft, is the latest addition to the "matron class" at Washington university.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Beautify Your Hair! Make It Soft, Fluffy and Luxuriant—Try the Moist Cloth.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any store and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all. Adv.

Have to Stay In.

Yeast—This paper says that the Civic federation in Boston would have rog beating in the back yard stopped. Criminals—Too bad. Those Boston husbands won't be able to "beat it" over the back fence at night now.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. H. H. Fletcher* In Use For Over 30 Years. Children Cry for Fletcher's Castoria

Out, Damned Spot!

He—Have you read "Freckles"? She (quickly)—Oh, no! That's my yell!—O. S. U. Sun Dial.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules. Easy to take as candy. Adv.

Most of these mother-in-law jokes are composed by men who never enjoyed the blessing

before a fall and it the bump at that.

GOOD MANAGEMENT OF POULTRY ON FARMS

(Prepared by the United States Department of Agriculture.)

On almost any farm there can be fitted up, with very little, if any, cost for new material, a poultry house that will answer all the purposes of more expensive buildings for keeping poultry, states the department of agriculture, farmers' bulletin No. 562. The essentials to success in housing are fresh air, sunshine, a dry floor and a building that is free from drafts. In constructing a poultry

Plan of an Inexpensive Poultry House.

try house it is advisable to allow 2½ to 4 square feet of floor space per bird.

The accompanying cut is a plan for a poultry house 10x14 feet in size for not more than 50 hens, which can be constructed at an expense of about \$20 for material. This house has one-half of the front open, and is adapted for southern conditions, but in localities where much snow or rain is apt to blow into the house or where the winters are severe it is advisable to insert a curtain of burlap or thin muslin which can be closed in cold weather. If the ground is damp, it will be necessary to add a board floor, otherwise a dirt floor elevated a few inches above the ground level will be satisfactory. If desired, a cement floor of cheap and simple construction may be laid; such a floor is a good protection against rats. The plan shows a 6-inch shutter on the back just under the eaves, which is recommended for use in the south. This must be constructed so that it can be closed to prevent any draft on the hens in cold weather. The house should face toward the south. The nests may be placed directly under the dropping boards or on the walls of the house rather than on the floor. The materials required for building the house shown in the cut are as follows:

Two pieces 4 by 4 inches by 10 feet, for sills.

Two pieces 4 by 4 inches by 14 feet, for sills.

Two pieces 2 by 4 inches by 10 feet, for plates.

Two pieces 2 by 4 inches by 14 feet, for plates.

Sixteen pieces 2 by 4 inches by 12 feet, for studs, rafters, and roosts.

One hundred and twenty square feet of boards 12 feet long for ends.

Fifty-six square feet of boards for back.

Eighty-four square feet of boards for front and dropping boards.

One hundred and fifty square feet of boards for roof.

Two hundred and twelve lineal feet of 2 by ½-inch battens.

Total scantling, 226 feet b. m.

Total boards, 622 feet b. m.

Total lumber, 850 feet b. m.

Two pairs hinges.

One hundred and fifty square feet roofing paper.

Nails.

Fifty-six square feet poultry wire, 2-inch mesh.

Poultry netting, ½-inch mesh, can be used in localities where sparrows are troublesome.

The foregoing plans for housing are merely suggestive, and any plan that conforms generally to the essentials laid down will be sufficient.

The selection of stock is a matter of considerable importance, as a great deal of one's success or failure with poultry depends upon the individual specimens used to breed from. Care should be taken to select the early maturing, fast-growing pullets. Hens

will not, as a rule, lay until they are well matured; consequently it can be readily seen that the slow-growing breeds will not begin to lay as soon as the former. A good index to a hen's ability to pay a profit over the cost of feed and labor is her ability to be continually on the move. It is advisable to keep but one breed of pure-bred fowls, as the product from a flock of the same variety is more uniform than that from a flock of mixed breeds or mongrel stock. It is advised that all pullets to be used as layers the following winter shall be hatched by April 15, and certainly not later than May 1 of the preceding spring.

It takes a healthy, well-fed flock to produce eggs. Fowls must not be allowed to become too fat, as but few eggs will be laid by hens in such condition. To prevent their getting over-fat, it is best to make them work for most of their feed by scratching in the litter, of which there should be about four inches on the floor. This litter can be of straw, leaves or chaff, and should always be kept dry.

A good feed for egg production is one composed of corn, wheat and oats, equal parts by measure. It is advisable to use home-grown grains whenever possible. In sections where corn and oats do not thrive, other grains can be used to good advantage, for example, a mixture of equal parts by measure of kafir corn, oats and barley will produce good results. Scatter a small handful of this mixture for every three hens in the litter morning and noon, and give them all they will eat of it in a V-shaped trough at night. In the winter time some green feed should be fed at noon; cabbage or mangel-wurzels, either chopped or whole, are good. Every few days look in the litter carefully and see if the fowls are eating all the grain being given them; if not, reduce the quantity. Fowls that have to work for what feed they get seldom become over-fat. Grit and oyster shells in a hopper should always be kept before them. The grit is used to grind their feed, and the oyster shell furnishes the lime for the eggshells. Be sure to keep water before them at all times. Birds that are laying drink much more water than those that are not laying. The water should be kept out of the direct rays of the sun. During the fall and winter months, when colds and roup are apt to appear among the poultry, it is advisable to add the amount of permanganate of potash which will remain on the face of a 10-cent piece to each gallon of drinking water. This mixture will often prevent and cure these troubles. Allow the fowls free range whenever possible, except when snow is on the ground.

Pigs on Alfalfa.

Pigs can be raised at a minimum cost on alfalfa.

Happy Bake Days

CALUMET BAKING POWDER

The cook is happy, the other members of the family are happy—appetites sharpen, things brighten up generally. And Calumet Baking Powder is responsible for it all.

For Calumet never fails. Its wonderful leavening qualities insure perfectly shortened, faultlessly raised bakings.

Cannot be compared with other baking powders, which promise without performing.

Even a beginner in cooking gets delightful results with this never-failing Calumet Baking Powder. Your grocer knows. Ask him.

RECEIVED HIGHEST AWARDS
World's Pure Food Exposition, Chicago, Ill.
Paris Exposition, France, March, 1912.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to any other brand.

Its Drawback.

Jinks—"You don't mean to say your wife wants to sell that prize toy terrier you bought for her?" Binks—"Yes, she does." "Why, I thought that dog was said to be the smallest dog in the world!" "That's the trouble. It's so small she keeps mistaking it for a mouse!"

"CASCARETS" FOR A BILIOUS LIVER

For sick headache, bad breath, Sour Stomach and constipation.

Get a 10-cent box now. No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress. If you will take a Cascaret now and then. All stores sell Cascarets. Don't forget the children—their little insides need a cleansing, too. Adv.

Between Friends.

Alice—Somehow, Jack cannot seem to get up courage to propose. Marie—Perhaps he's afraid you'd say "yes."

Men Fight On Their Stomachs

Napoleon so said. A man with a weak stomach is pretty sure to be a poor fighter. It is difficult—almost impossible—for anyone, man or woman, if digestion is poor, to succeed in business or socially—or to enjoy life. In tablet or liquid form

Dr. Pierce's

Golden Medical Discovery

helps weak stomachs to strong, healthy action—helps them to digest the food that makes the good, rich, red blood which nourishes the entire body.

This vegetable remedy, to a great extent, puts the liver into activity—oil the machinery of the human system so that those who spend their working hours at the desk, behind the counter, or in the home are rejuvenated into vigorous health.

Has brought relief to many thousands every year for over forty years. It can relieve you and doubtless restore to you your former health and strength. At least you owe it to yourself to give it a trial. Sold by Medicine Dealers or send for trial box of Tablets—Dr. Pierce's Invaluable Hotel & Surgical Institute, Buffalo, N.Y.

You can have Dr. Pierce's Common Sense Medical Advisor of 1008 Pages for \$10.

35 BUSHEL PER ACRE
was the yield of WHEAT

160 ACRES
FARMS
WESTERN
CANADA
FREE

on many farms in Western Canada in 1913, better yields being reported as high as 50 bushels per acre. As high as 100 bushels were recorded in some districts for oats, from 10 to 20 bus. for flax.

J. Keys arrived in the country 3 years ago from Denmark with very little means. He homesteaded, worked hard, is now the owner of 320 acres of land, in 1913 had a crop of 200 acres, which will realize him about \$4,000. His wheat weighed 48 lbs. to the bushel and averaged over 35 bushels to the acre.

Thousands of similar instances might be related of the homesteaders in Manitoba, Saskatchewan and Alberta.

The crop of 1913 was an abundant one everywhere in Western Canada.
