FOLLOW THE EXPERT.

The Advertiser carries today another important letter from Farm Demonstrator Moore in regard to the Clover Club. This letter, we think, is a very important one to read as it deals with that most vital phase of clover culture, the seeding process. On this the ultimate success or failure of the clover largely depends.

In this connection, we cannot urge too strongly the advisability of following the instructions of the farm demonstrator, who has been placed here as an expert. Doubtless many farmers who have met with more or less success with clover cultivation will be tempted to follow their own inclinations, but we hope that they will pin their faith on the demonstrator who is supposed to know whereof he speaks and who by study has gotten the benefit of long experimentation.

GETTING PUBLICITY.

The editor of The Advertiser is in receipt of a letter from Clarence Poe, editor of The Progressive Farmer, in which he says "Your Laurens County Clover Club is one of the most interesting things I have run against in a long time." The letter was prompted by a few clippings from The Advertiser which we sent him several days ago in regard to the clover club. Mr. Poe thinks so much of the club that he has requested farm demonstrator Moore to contribute a special article on it to The Progressive Farmer. To Mr. Moore he wrote "I think the farmers all over the South ought to know about this club." Laurens county farmers are going to get into the limelight as a result of the clover agitation and we want to see them make good. If they will follow the instructions given by the experts, we believe they will. Doubtless they would if they only noticed the farm demonstrator, but we believe it will be best for all to work in unison and come out on top together.

After several interesting games, the guests were ushered into the dining room, where they through dainty place cards found their places. The artistic decorations presented a scene of loveliness, green and white being the color scheme observed. A six-course luncheon was served, being a most elegant affair. A fitting climax to the pleasure of the occasion was the reading of several telegrams of congratulations to the honoree.

Assisting Miss Dial in receiving were Misses Helen Sullivan and Marguerite Tolbert.

Autumn leaves artistically decorated the library and hall, while the parlor and dining room were charming with yellow flowers, a profusion of daisies and golden rod being used. This color was also observed in the refreshments, a delicious ice course, which was served after several games of "42" had been most enthusiastically played.

The bride-to-be was presented with a hand-embroidered guest towel as a souvenir of this happy occasion.

The departing guests extended their best wishes to Miss Todd and took the opportunity to bid good-bye to Miss Dial, who spends the coming winter in Boston.

A large train of attendants in the most unique and tasteful costumes made up the wedding party whose appearance brought down the house.
