Railroad Racket.
It is rumored that the Richmond and Danville railroad authorities will in a short time run the train that is now run from Prosperity to Columbia. This would be quite a convenience to the traveling public, and very likely we could get a mail service on it which would add greatly to the mail service for Newberry.

Then there is also a rumor that the Laurens train between Laurens and Columbia will be extended to Greenville. The distance from Laurens to Greenville is only 24 miles, and with the track from here to Laurens put in good condition, the distance to Greenville could be made in very nearly the same time that it now takes to run to Laurens. We would be glad to have the authorities to put into force these two proposed improvements in our passenger service. It would give six passenger trains daily between Columbia and Greenville.

Gratifying to all.
