As the price of silver fluctuated, so the amount of treasury notes issued in payment of this bullion sometimes increasedsometimes diminished. The downward tendency having been greater in the last few years, there were issued, from the time of the passage of the Sherman Act to its repeal, \$154,000,000 in treasury notes, to cover an amount horse. of bullion which should actually have made 209,000,000 silver dollars. In other words, there is now an amount of bullion, in excess of the reserve necessary to cover the \$154,000,000 treasury notes, in the treasury which, if coined, would make 55,000,000 silver dollars, against which the Seigniorage Bill is to issue paper currency, and so put \$55,000,000 in the treasury and belp the government out of its financial dif-ficulties."

This explains the matter very clearly and yet concisely. It would be dif ficult to throw more light upon the subject in the same space."

Webster defines it: "Something claimed or taken by virtue of sovereign prerogative; specifically a certain toll or deduction on bullion brought to the mint to be coined, designed originally to defray the expenses of coinage, but after made a branch of royal revenue. This deduction is still in force with certain modifications of the original system at government mints."

Johnson's Encyclopedia says: "Seigniorage, in finance, is the charge levied by the government to cover the expense of coinage."

It seems to us that Mr. Herzog's definition covers the case as well or better than any we have seen. We have been asked several times what is meant by seigniorage, and we hope these explanations will cover the case fully and satisfactorily.

To judge from the daily papers there is a great deal of wire pulling going on among the leaders just about this time. It was first said that the race for Governor was to be narrowed down to John Gary Evans and W. H. Ellerbe. Now, since the Lexington meeting, we are told that Mr. Ellerbe is not enough of a stump speaker to make the race and that he will be asked to step down and out. That W. D. THE RECORM MASS MEETING.

No Gubernatorial Candidates Turn Up. J. A. Sligh Elected Pelegate to April Conference In Columbia, The Attendance not Large Or Euthuseastic. But Good Natured.;

It was a delightful meeting. We mean the mass meeting of the reforwhich was held at Newberry last Saturday under the call issued by the Rev. J. A. Sligh in his circular letter. It was for the purpose of hearing the reform candidates for Governor tell of their respective claims upon the peoand Banner that Gen. Robt. R. Hemp- ple for their suffrage, but the cauditurned up and even our own county man went with the crowd over to Lexington. So our meeting was without back to the Senate he will stand for re- a speaker in the shape of a gubernatorial candidate. But the meeting was held all the same and a delegate elected to the conference to be held in Columbia under the Colleton idea. And every body was in a good humor and the meeting passed off without any jars or friction. It may have been because every one was of the same way of thinking and there was no reason or occasion for friction.

The crowd was not large. Only one vote on a division was held and there were only twenty-two votes coauted, but there were all told something more than one hundred present. That included the reporters and college studen's and spectators from the town. From the attendance here on Saturday we are almost ready to believe that at least some of the people are getting tired of politics. The leaders are now having a big time and we suppose the people will come in after awhile for their time. We shall wait and watch news and both sides of the political questions The Herald and News is the paper you are looking for. The meeting was called to order by

Upon motion of Mr. J. T. Duncan

Mr. Sligh was made permanent chairnating convention to nominate State man of the mass meeting.

Mr. Sligh said that he would have preferred some one else to have had that honor but as it was his purpose never to shrink from any duty, he thanked them for the : onfidence manifested and proceeded to business. He said they were a little unfortunate. The mass meeting had been called to hear the candidates for Governor; but Lexington was a little ahead of them and having called a meeting first the candidates and prospective candidates bad accepted the Lexington invitation. He had written to each candidate and they had all responded regretting their inability to attend. He said it was for the meeting to say whether another meeting should be held or not. The meeting was also for the purpose of discussing the Colleton plan and electng a delegate to attend a meeting to be held in Columbia on April 4, and who should also be a member of a meeting in the morning to which the campaign State committee of the Re-reporter was not invited. utes.

We might say here that Chairman
Sligh did not read any of the letters,
though we understand he was requested to read some of them. Letters were received from W. D. Evans, J. G. Evans, J. E. Tindal, Dr. W. H. Timmerman, W. H. Ellerbe and Timmerman and Dr. Pope, who have attended both meetings that have been held.

We publish this week from the W. H. Timmerman, W. H. Elierbe and Dr. S. Pope. Mr. Sligh told us after the meeting that Dr. Pope requested his letter read, but he wanted to get through with the meeting and hardly saw the necessity of reading them. Dr. Pope's letter was to the effect that

he had never addressed the people of Lexington, and having received the invitation he had decided to accept it. That the people of Newberry knew him and knew his position on public questions and he felt sure they would excuse his absence, thoughhe regretted he could not be with them. At some future time, if it was desired, he would be glad to address the people of New-berry County. That he was a candidate for Governor and if nominated tained. and elected he would do all in his power to discharge the duties well and faithfully, and if he was not successful he would fall in line and work for the successful candidate.

Mr. Cole. L. Blease, who was called to Charleston on account of the illness of his brother-in-law and who did not return until Saturday at 1 o'clock, also wrote Mr. Sligh a letter explaining his absence and requesting it read to the meeting, but it was not read and no mention made of it, we presume for the eason that he was not considered a candidate for Governor. So much for the

letters that were not read. Mr. W. C. Sligh moved that we adopt the Colleton plan . Mr. Duncan said he did not know that every one fully understood the Colleton plan in its details. As he understood it there was to be one member from each county, who should meet in Columbia on April 4, and formulate a plan for calling a State Convention of Reformers, and arrange for such convention, and also to act as a campaigu committee for the Reformers during election of this committee it was well togive the members some discretionary powers. We cannot afford to go

in the campaign with halh a dozen candidates. We must have a pruning down. In order that we treat each candidate right each one should be given an opportunity to be heard. Each one should be required to pledge himself to stand by the nominations when they are made. We ought to go in the campaign with one caudi-date for Governor and all of us be prepared to roll up our sleeves and go to

work for that candidate.

Chairman Sligh said he wished to call the attention of the meeting to the fact that the conference which was to oe held in Columbia on April 4, was to lecide whether we were to have a State Convention and if it was decided to have one this committee was to arrange for it. It seemed to him that it would be well for the meeting to say, first, whether or not it was in favor of a convention. There are Reformers who do not favor a convention and then there are those who do favor one. Mr. W. C. Sligh's motion to adopt the Colleton plan was then adopted. Mr Duncan nominated as the delegate the Hon. J. A. Sligh, and there being

Houses. THE OUTSIDE OF THE BUILD-ings should be painted during Autumn or Winter, or early Spring. Hot weather injures the paint by drying in the oil too quickly; then the paint will easily rub off. But when the paint is laid on during cold weather, it hardens in drying, and is firmly set. JULIUS GARRETT,
