UNIVERSAL MILITARY TRAINING VOTES

176 Congressmen and 42 Senators Are Recorded for Measure by Security League.

176 members of the House of Representatives and 42 members of the Senate. The figures in the canvass which the League has been conducting stood 179 in the House of Representatives and 45 in the Senate in its last aunouncement. These figures were reduced by the rettrement from Congress of three New York representatives who were committed to universal military training-viz, Congressmen Griffin, who was elected sheriff of Kings county; Murray Hulbert, ap pointed dock commissioner by Mayor Hylan, and Congressman Bruckner, elected borough president of the Bronx. The advocates in the Senate were reduced by three by the death of Senators Brady of Idaho. Newlands of Nevada and Hughes of New Jersey.

GIRL! ITS YOUR

STEP THAT ATTRACTS

Says Women Pay to Much Heed to Their Face Instead of Their Corns.

Watch your step! A brisk, lively step is what carms more than a lovely step is what charms more than lovely skin, but your high heels have caused corns and you limp a little. That's bad, girls, and you know it. Corns destroy beauty and grace, besides corns are very easy to remove.

Rid your feet of every corn by asking at any drug store for a quarter of an ounce of freezone. This will cost little but is sufficient to remove every hard or soft corn or callus from one's

A few drops applied directly upon a tender, touchy corn relieves the soreness and soon the entire corn, root and all, lifts right out without

This freezone is a gummy substance which dries instantly and simply shrivels up the corn without inflaming or even irritating the sur-

rounding skin. Women must keep in mind that cornless feet create a youthful step which enhances her attractiveness.

FOLLOWING FALSE GODS

By S. STANWOOD MENKEN, President of the National Security

Just as the test of the individual is best found under the stress of great trial or play of passion, so nations prove themselves in time of war and

8. Stanwood

are able to Judge. not alone of the qualities of which their peoples are composed, but also the measure of confidence which should be placed in their leaders. It has been said

that Americans don't ha've to prove that they are the "greatest people on earth" for they admit it; and yet, when we look back over our history and

consider how we have met great problems—such as slavery, by a great war; tariff, by fourteen bills and a like number of panics; conservation, currency, banking, anti-trust and railroad questions, by making the same matters of polltics—it may be doubted whether we are quite as great as we think we are.

In considering how we exercise our judgment, we should remember the extent to which we have devoted ourselves to the education of the young and the large sums we have spent at all times for public schools and for colleges. When we look back and see the mistakes we have made, it would almost appear as if we had failed to apply much that had been taught us in school and college, or that perhaps the school and college had not taught us how to solve great political measures Then, again, the thought comes to us of whether or not we have not had false leaders, and have not clung to false gods.

Corporation Wrongs.

We all remember the outcry against vested interests of the capitalists. There have been great wrongs done by many corporations-some of their franchises have been obtained by corruption and theft and great injuries have often been done to the rights of the people; and so, when we found times hard and things going wrong, we have vented our anger upon corporations and upon the capitalists who controlled them. In many cases we allowed ourselves to become angry with a class or with certain individuals and expended our strength on our temper, rather than upon a study of the cure of the conditions about which we complained; and in many instances we punished corporations for the wrongs of their predecessors in ownership, much as sins of parents visited upon their children.

Demagogues, knowing the public mood, appealed to prejudice and ignorance in discussing public matters and made issues like currency, antitrust laws and the railroads political footballs, just as if the question of whether money could be saved by joining together companies and providing for economy in purchases and sales was political. Of course it was a matter of economics (which is the science of commerce). Such matters call for a conference between representatives of farmers, laborers, sci-The National Security League an- entific students of world conditions, nounces today that it has recorded in and manufacturers and purchasers of favor of universal military training goods, to consider and determine how goods can be produced with a fatr wage to the employee, a fair profit to the employer and the maximum benefit to the public.

Future Problems

In Europe they have taken these questions up in this careful way and the result has been of great benefit, Now, and in the future, America will have to deal with countries that are short of resources through the exhaustion of war and have, of necessity, to get down to rock-bottom. The thrifty, intelligent, industrious European is apt to be a good merchant, and we are going to have a hard time competing with him for commerce and for world position, so we must consider all of our problems more carefully than ever before and cast aside those men who attempt to lend us away from a thoughtful, dispassionate view of great questions.

Graft and neglect in local communities of political duties by the average citizen are responsible for the misgov ernment that breeds disrespect, where we should have pride because of the efficiency of our people. The first concern of the citizen in every community must be to see that it is governed in way that will assure the approval of clean thinking men and women The mechanics governing a city require the same kind of clear thought and careful work as that given to shop work or farm planning, and every good American must feel that at this time there is nothing more worth

if we do these things well, we will not have to worry about the foreignborn loving America, because living conditions here will be so excellent that they simply cannot help it, espe cially when they are given not alone good government and healthy conditions surrounding home and work shop, but also education, opportunity and a charter of liberties which will mean happiness to them, if we perform our duties as citizens.

HELP WANTED

We can use at once, several families, can give work to either day or night workers.

Can work either men or women, boys or girls.

Good houses, electric lights, good water, a desirable place to live. Wages are paid on basis of war and increased cost of lifing.

Come to see us or write, we can interest you. Apply at the Mill. CHERAW COTTON MILLS.

12 J.L.FONVILLE, Superintendent

All American

Your Red Cross is an all-American, largely volunteer organization, authorized by Congress, headed by President Wilson, audited by the War Department, enthusiastically approved by your Army, your Navy, and your Allies.

The work covers both military and civilian relief in every war-torn Allied country and full reports of all expenditures are continually being published, or are available through the Chapters.

It stands beside our boys in training here or "over there."

It watches beside the pillows of battle-broken men, and offers rest and sympathy to war-torn fighters on brief respite from the front.

It carries food and clothing to hungered mothers and little ones in ruined villages.

It helps rebuild the scattered pile of brick and stone they once called "Home."

It brings back to hopeless mother's arms her long-lost child.

It helps care for the orphans of the men who died that civilization might live.

It helps care for the thousands that have fallen prey to dread tuberculosis.

It nobly represents in deeds of mercy, relief, and restoration the more than twenty million members that have made its great work possible.

Will You Do Your Share to Keep This "Hand of Mercy" At Its Work?

Every cent of every dollar received for the Red Cross is spent for war relief. All administration costs, relief work for other than war purposes (such as the Halifax and Guatemala disasters) are taken care of out of membership dues, and the interest accruing from the banking of the War Fund has made available for war relief at least \$1.02 for every \$1 contributed.

This Space Contributed to The Red Cross by-

Catarrh of Throat

Miss Amalie Ruzicka, 1449 South 16th St., Omaha, Nebraska, writes: "I have suffered with catarrh of the throat. I caught cold and it settled in my throat, and I coughed badly and was very weak. I could not sleep and had no appetite. I had two doctors, and had taken so the settled in the settled in my throat, and had the settled in the settle tors, and had taken so many different medicines and found no help. I thought I will have to give up; but at last my mother read about Peruna, so thought of trying that great medicine Peruna. I got a bottle of it and in about four days I almost stopped coughing, and after a while I surely found relief, and from that time ware not without Peruna in our home.

ALLIED FOOD SHIPMENTS REACH LARGE TOTAL

A general idea of the quantity of food sent to European allies by the United States from July 1, 1914, to if Sealth is Wealth, For Batts Gain-January 1, 1918, is given by figures | ed Wonderfully On Great Tonic, 2 lots in Chesterfield school dist- just announced by the U. S. Food Administration. In that period the United States has furnished complete year ly rations for 57,100,933 people. In addition there was enough extra proteln to supply this portion of the diet for 22,194,570 additional men.

The total export of wheat and wheat flour to the three principal ailies is equivalent to about 384,000,000 bushels. school district, known as Mrs. Edna Pork exports for the 3% years amounted to almost 2,000,000,000 pounds. Ex-2 lots, 2 buildings in Chesterfield ports of fresh beef totaled 443,484,400 pounds. The amount of food exported to Russia is negligible compared with that sent to the western allies.

ONLY AMERICA CAN HELP.
