Fresh From the Wires from All Points.

Chicago, July 31.—Adolph L. Luetger's sudden death in the penitentiary at Joliet, Thursday last, brought to light the fact that State's Attorney C. S. Deneen has had locked up in the vaults at the criminal court building almost from the beginning of the accused's trial for wife murder, two years ago, a confession of guilt. It was made by Luetger to a fellow prisoner in the jail. It was sworn to by the latter at the time before the state attorney. It is now given publication for the first time.

Denver, July 31.—When the state board of arbitration handed down a decision on the smelter trouble, which will not be until Monday at the earliest, it will recommend the adoption of the eight-hour day among the class of labor formerly handled on 12-hour shifts. At the same time the wage scale, intended to be acceptable to both trusts and men, and prepared in conformity with a reduction in working time, will be submitted to both parties to the present controversy. Persons familiar with the present status of affairs predict this decision will mean an immediate reopening of the smelters in Colorado, as they believe the employer and employe alike will accept the ruling of the board as a finality.

Laguna, N. M., July 31.—B. C. Richards, operator and lineman of the Postal Telegraph company at Gallup, was killed by lightning today at McCarthy's station, eighteen miles east of here. He was perched on a pole testing the wire and talking to the wire chief at Albuquerque when struck, the shock knocking him off the pole, killing him instantly. His parents reside in Strong City, Kansas. The bolt was felt the entire length of the wires from Albuquerque to Las Angeles.

The Hague, July 31.—The International peace conference met for its final sitting today. It is announced that sixteen states have signed the arbitration convention, seventeen the declaration prohibiting the throwing of problems of explosives from balloons, sixteen prohibiting the use of asphyxiating gases and fifteen the declaration prohibiting the use of expansive bullets.

Havana, July 31.—Mayor Lacoste has determined that gambling in Havana must stop. Hitherto only Chinese gamblers have been raided by the police but now the war has extended to aristocratic gambling circles. Fourteen arrests were made last night and a large quantity of money was captured.

Arizona at Paris.

Mr. Victor C. Heikes, the special agent of the department of mines and metallurgy for the United States commissioner to the Paris exposition, arrived in the city last night and will remain here until Monday, says the Phoenix Herald.

The mission of Mr. Heikes is one of every person in the territory is interested in. He is here to get a collection of minerals to send to the exposition at Paris, which opens next year. It is very important that he succeed in this work, and it is gratifying to learn that he is being received by mining men with cordiality. Mr. Heikes spent the day visiting the leading mining men of the city, and he secured a number of samples which he will forward to Washington at once.

"The Copper Queen Company at Bisbee is preparing a large exhibit of ores from its mine, said Mr. Heikes. The great caves of the Copper Queen have produced some of the richest colorings of malachite ore ever found, and this exhibit will no doubt attract general attention to Arizona. I am very desirous of securing a good exhibit of gold ores, and if possible I would like to get some specimens of your industrial minerals, such as onyx, lithograph rock and building stones. There is no cost attached to this work which the people here will have to bear for the government pays for the cost of collecting and shipping the ores to Paris and returning them here after the fair."

Neat, attractive job printing on short notice at THE ORB.

Late Mining News.

THE BURN TAIL.
L. J. Court, one of the best known miners and prospectors in the territory, has recently returned from Helvetia and speaks in glowing terms of that camp. At present there are about 30 men at work on the claims. The entire energy of the mine owners seem to be devoted to the work of locating the ore body and acquiring a knowledge of its extent and quality.

A diamond drill has been used extensively to ascertain the value of the various claims in the group. In two places in particular boring by the drill has recently shown rich ore running in thick veins. Several shafts have been sunk and three tunnels have also been driven into the hill. One shaft has reached a depth of 250 feet, while two others are down to a depth of 200 feet. One of the tunnels has been carried into the hill at a depth of 350 feet and the contract has just been let to drive it in another 100 feet. The other tunnel has been carried in about 125 feet and a winze sunk fifty-five feet and from this a drift runs about forty feet.

GLOBE GRIST.

Porter Fleming, district attorney of Gila county, has been in Tucson for several days with the Globe base-ball team. Mr. Fleming is secretary of the Black Warrior Copper Company, the mines of which are developing into very large and valuable properties. Speaking of the mines Mr. Fleming said to a Star reporter that the company were working fifty men at the present time. There are over one hundred tons of ore, averaging ten per cent, in sight now, and other development work shows unusual ore bodies. Four carloads of high grade ore are being shipped every week to the Silver City reduction works. Over three thousand feet of development work has been done by the present company. There are thirty-five claims owned by the company. The Diamond H. copper claims embracing some valuable properties are owned by the company. The leaching works will be in operation by August 1, when 100 tons of ore will be treated daily.

DONALDSON COPPER COMPANY.

Mr. Fleming said that the Donaldson Copper company, composed of Philadelphia capitalists, own twelve fine copper claims on Pinto creek adjoining the Old Dominion and Centennial Copper companies' mines. A considerable amount of development work has been done on these properties and the companies are thinking of placing smelting works on the properties. Speaking of the Old Dominion company, he said that they were turning out from fifteen to twenty tons of bullion a day. Arrangements have been made whereby the Globe & Gila Valley road will begin in the very near future the extending of its tracks to the Black Warrior and Continental mines, a distance of fifteen miles. Mr. Fleming says that Globe is progressing very satisfactorily. A number of substantial buildings are being erected and the town is enjoying a substantial growth.

IS IT RIGHT?

For an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.:—It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by all druggists.

THE UNION MUTUAL LIFE INSURANCE COMPANY OF PORTLAND, MAINE.

(INCORPORATED 1843.)

After 3 years extended insurance secured automatically by the operation of a statute of the State of Maine. The only company in the world doing business under such a legal provision. I pays more proportionately to living policy holders in settlement of policies than any other company. It's insurance is gilt edge in every way.

G. H. ADAMS, N. W. CHASE, Manager, Resident Agent, Phoenix, Bisbee, Arizona.

THE COPPER QUEEN STORE.

It's "betwixt and between" here now. In the interim between the final out-going of the summery goods and the advance on-coming of the new season's merchandise little prices on lingering lots of present-need goods prevail. For instance:

Shirt Waists—well made and of good material, reduced from 65c, 75c and 85c to 50c. This is a thrice-told tale, but it bears repeating.

Shirt Waists—that were \$1.25, 1.35, 1.50 and 1.75. \$1.00 and \$1.25. If you've need of a waist these few words are important

Low Priced Lawns—to our regular 8c assortment have been added a lot of 10c colored lawns and dimities. This means greater choice and an added element of cheapness. 8c yard.

Womens' Umbrellas—natural wood crooked handles, 75c; steel rods 85c and \$1.25.

Colored Underskirts—two ruffles at bottom, together with dust ruffle. \$1.25.

White Pique—with welts running across the goods instead of horizontally. In stock again at 20c yard.

Womens' Low Shoes—the odds and ends of sizes and kinds. The little prices marked on them will make it worth your while to look for your size.

Mens' Wool Pants—a small lot of only 71 pairs left. Former prices were from \$1.50 to \$4.50; now \$1.00 to \$3.00 a pair.

Mens' Work Pants—not wool, but wear—resisting cotton made in dark, dirt-proof colors from \$1.25 a pair to \$1.00.

Little Weight Underwear for Men—the fancy sorts. Broken assortments make prices much less than usual.

Negilee Shirts—soft or stiff bosom, collars and cuffs attached or detached; every desirable style and kind 85c to \$4.00.

Mens' Straw Hats—smooth or rough braids; soft or flat brim. Reduced from \$1.75 and \$2.50 to \$1.50.

Mens' Linen Crash and Covert Suits have had a collar knocked off their price. Regularly \$5.00, now \$4.00 a suit.

Boys' Wash Suits—the \$2.50, \$2.75 and \$3.00 sorts, all now \$2.00.

The Copper Queen Consolidated Mining Co.
