Manila, Aug. 10.—After a fierce fight, lasting five hours, 4,000 of General McArthur's men put 6,000 rebels to flight, just outside of San Fernando yesterday morning. McArthur's scouts learned that the rebels were massing and intended to march upon San Fernando, but the general anticipated this move by sending his men after the rebels. The enemy prepared for battle when the Americans appeared and contested every inch of advance. The firing was heavy on both sides, the Americans, as usual, doing the most effective work. The enemy was finally put to rout, leaving many dead and wounded on the field. The Americans forced the insurgents back five miles before the rout was abandoned. A late report from the battle says the American loss was ten killed and eighteen wounded.

St. Louis, Mo., Aug. 10.—Mayor Zeigler announces that ample arrangements will be made for the anti-trust meeting of governors and attorney-generals to be held in this city on September 20. A meeting was called some time ago by Governor Sayers of Texas. He extended a general invitation to all the governors and attorney-generals in the United States to be present. Replies have been received from many of them indicating they will attend, and it is believed more than three-fourths of the states will be represented. The gathering will be non-partisan.

Washington, Aug. 10.—Meagre details of the West Indian cyclone began to reach the navy and war department late this afternoon in the shape of the following messages: "San Juan de Porto Rico, Aug. 9.—Adjutant General, Washington, D. C. A terrible hurricane, caused by heavy winds, destroyed storeshouses and other buildings damaged, loss of money and human life."

San Juan, Porto Rico, Aug. 10.—Signal Officer Washington—Cyclone just passed over island; prostrated telegraph and telephone lines; several killed. My quarters wrecked and signal barracks partially demolished. Many other public buildings likewise. Hundreds of native houses destroyed. GLASSFORD.

San Francisco, Aug. 10.—The First Nebraska regiment has been ordered mustered out here August 23rd, and the Tenth Pennsylvania on the following day.

San Francisco, Aug. 10.—The transport Warren with the Colorado regiment on board, is expected to arrive this week from Manila, and preparations are being made to give the returning soldiers a fitting welcome.

Omaha, Neb., Aug. 10.—Four firemen lost their lives last night in a blaze on the upper floor of the Meyer Chemical company's building on Eleventh and Harney streets. The fire itself was small, the fatalities resulting from contact with a live wire.

Denver, Aug. 10.—Kid Parker, of Denver, put out Billy Ott of California, in the fifth round tonight.

Denver, Colo., Aug. 10.—The Denver Smelting and Mining Company was incorporated today. It is said the company will build a smelter in Denver to compete with the trust.

Valparaiso, Aug. 10.—A tidal wave burst into the bay yesterday evening tearing down the embankment and sweeping off a number of cars, locomotives and tons of merchandise. The loss is estimated at one million dollars.

Newport, R. I., Aug. 10.—Columbia defeated the Defender today by 22 minutes and 18 seconds in a 43 mile race off wind from Gardiner's Bay to Newport.

Puerto Plata, Aug. 10.—The Haytian government seized at Port Liberty arms and ammunition destined for the Dominican insurgents. Several Dominicans in Hayti have been arrested for violating the neutrality laws.

The Price of Success.

The more we observe the great fight for life that goes constantly on in the world, the more we come to think that what the average individual needs is not so much more wealth as more leisure. Time is more than money. Now, a man to earn that tangible success by which the world judges merit, must sink all his finer aspirations in the slavish routine of money getting. Whether you observe a great railroad, a prosperous store, a successful newspaper, or any other thriving institution be assured it stands for immense personal sacrifice by the men that have made it what it is. Constant and indefatigable work, through the long days and often far into the night, with no let up on holidays—mental strain to the breaking point; neglect of family and friends; constant depression of mind that leaves no thought of recreation, and absence of all opportunity to breathe out by cultivating the liberal side—this is part of the price a man must pay for success, whether it is his own personal success or the success of some institution for which he stands sponsor. The fearful demands made by our condition of society keep individuals in a very devil's dance to avoid extinction. Few men ever have any leisure. "Can't get away from business," is the universal excuse, and the result is, men become machines—and poor machines—they get rusty and crusty and barnacles; they slave themselves to death to work to the pattern set by their neighbors; they wear out rapidly and they feel too poor to get out and give some one else a change. Enlightenment is going to be the liberator of our race, and for enlightenment we must have more leisure. Socrates and Robert Lewis Stevenson rebelled at drudgery and spoke boldly for leisure, as few men have done. But we will continue to go on in our self-destructive career, until, in due course of evolution, we have run our course and a new society, with new standards, and new aspirations have succeeded ours.—E.W.

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and the oldest a great deal of experience with medicine. I had a daughter who had the dysentery of the bowels form. We thought she would die. I tried everything I could think of but nothing seemed to do her good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended, and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. I had known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. Burdick, Liberty, R. I. For sale at Bisbee Drug store.

Kodol Dyspepsia Cure cures dyspepsia because its ingredients are such that it can't help doing so. "The public can rely upon it as a master remedy for all disorders arising from imperfect digestion."—James M. Thomas, M. D., in American Journal of Health, N. Y. Copper Queen store.
