[illegible]she Orb man was able to meet W[illegible], president of the Cobre Grande company, and some [illegible]at large enterpri[illegible] promises to add [illegible]s prosperity of [illegible]. Greene stated [illegible]f the Cobre [illegible]rrying on t[illegible] mining a[illegible] and expect[illegible]s and output [illegible]icipate any litiga[illegible] change in man[illegible]al of Mr. Costello [illegible] of the company was simply in [illegible] stockholders having [illegible]ed at the conclusion that the best interests of the company would be served by such action. The present management has no desire or intent to interfere with the option held by Costello on stock of individual members of the company and now on deposit in a Phoenix bank." Mr. Greene further stated that a syndicate had been formed to take hold of and operate 108 pertenencias of valuable copper properties in the Puertacita district of the Cananea, upon which Mr. Greene holds a contract for purchase conforming to the requirements of the Mexican laws and mining regulations. For the working of this property a complete reduction works has already been ordered from Frazier & Chalmers, of Chicago, the largest manufacturers of and dealers in mining machinery in the world. Also, Mr. Greene, in connection with George Mitchell, now manager of the Cobre Grande company, is perfecting arrangements toward the formation of a company to take over and operate other copper properties lying between the Cobre Grande properties and those already referred to as being in the Puertacita district. Application has already been made to the Mexican government by Mr. Greene and his associates for a concession for the building of a railroad to Nacozari from the Cananea, a distance of thirty miles. "All roads lead to Rome," and it now looks as if from all directions business is pointing toward Bisbee.

A. G. Innes, of Columbus, Ohio, and D. D. Miller, of Westmoreland county, Pennsylvania, left for their eastern home this morning, after a few weeks stay in Bisbee in quest of opportunities for investment in mining properties. A day or two later we expect to publish the details of a sale of properties here, now understood to have been made to the gentlemen named.
