## S. O. S.

If Constipated, Bilious  
or Headachy, take  
"Cascarets"

Sick headache, biliousness, coated  
tongue, or sour, gassy stomach—always  
trace this to torpid liver; delayed, fer-  
menting food in the bowels.

Poisonous matter clogged in the in-  
testines, instead of being cast out of the  
system is re-absorbed into the blood.  
When this poison reaches the delicate  
brain-tissues it causes congestion and  
that dull, throbbing, sickening head-  
ache.

Cascarets immediately cleanse the  
stomach, remove the sour, undigested  
food and foul gases, take the excess  
bile from the liver and carry out all  
the constipated waste matter and poi-  
sons in the bowels.

A Cascaret tonight will surely  
straighten you out by morning. They  
work while you sleep.—Adv.

## He Knew Donkeys.

A teacher was instructing a class in  
English. She called on a small boy  
named Jimmy Brown.

"James," said she, "write on the  
board 'Richard can ride a donkey if  
he wants to.'"

Jimmy did so to the satisfaction of  
all concerned.

"Now," continued the teacher, when  
Jimmy had returned to his place,  
"can you find a better form for that  
sentence?"

"Yes, miss. 'Richard can ride the  
donkey if the donkey wants him to.'"

"CALIFORNIA FIG SYRUP"  
IS CHILD'S LAXATIVE

Look at tongue! Remove poisons  
from stomach, liver and  
Bowels.

Accept "California" Syrup of Figs  
only—look for the name California on  
the package, then you are sure your  
child is having the best and most harm-  
less laxative or physic for the little  
stomach, liver and bowels. Children  
love its delicious fruity taste. Full  
directions for child's dose on each bot-  
tle. Give it without fear.

Mother! You must say "California."

## GREEN'S AUGUST FLOWER.

Stop a minute and think what it  
means to say that "Green's August  
Flower has been a household remedy  
all over the civilized world for more  
than half a century." No higher praise  
is possible and no better remedy can  
be found for constipation, intestinal  
troubles, torpid liver and the depressed  
feeling that accompanies such dis-  
orders. It is most valuable for in-  
digestion or nervous dyspepsia and  
liver trouble, coming up of food, pal-  
pitation of heart, and many other  
symptoms. A few doses of August  
Flower will relieve you. It is a gentle  
laxative. Ask your druggist. Sold in  
all civilized countries.—Adv.

Albert of the Belgians has been  
deeply impressed with America's edu-  
cational system and attributes the  
ability of American soldiers to absorb  
military knowledge in a remarkably  
short time to the compulsory schooling  
they receive.

"Important depositions" are to be  
taken in Indianapolis by the prosecu-  
tion of Harry S. New, accused of mur-  
dering Frieda Lesser, his sweetheart,  
it was revealed following an order in  
the Superior Court continuing New's  
trial from Oct. 27 to Dec. 6 at Los An-  
geles.

Three beautiful young women in El  
Paso, Texas, hired a service car driven  
by James J. Nabham, held him up af-  
ter he had taken them a few blocks,  
relieved him of \$18, implanted kisses  
on his mouth, commanded him to hold  
up his hands and look the other way  
for three minutes and then made their  
escape.

All new policemen appointed at  
Omaha, in accordance with the recom-  
mendation of Major General Wood af-  
ter the riot of September 29th, will be  
given military training. The first thirty  
new policemen appointed received a  
three-hour drill under the guidance of  
Maj. C. M. White of Fort Omaha, de-  
tailed to the duty by General Wood.

The National Sheep and Wool  
Bureau has been notified by its presi-  
dent, Alexander Walker, at Washing-  
ton, that majority leaders in house and  
Senate would introduce into Congress  
at the December session the bureau's  
"Truth in Fabric" bill. The measure  
is purposed to compel labeling of wool-  
en fabrics and clothing to show the  
presence of shoddy and cotton.

Raymond A. Callander, of Sioux  
City, a former army flyer, was killed  
when his airplane went into a nose  
dive at an altitude of 400 feet and  
crashed to the ground. Other aviators  
who were on the field watching Callan-  
der are of the opinion that he fainted  
and when his body pitched forward  
held the controls in such a position  
as to direct the machine to the ground.

Plans are being made at Los An-  
geles by a local motion picture pro-  
ducer to make moving pictures of  
scenes in the Bible from cover to cover.  
The Bible will be filmed in 100 reels,  
two to be shown at a time. It is ex-  
pected the work will require two  
years, and that in some scenes the  
largest number of persons ever appear-  
ing in a motion picture, will be as-  
sembled.

## WASHINGTON

The Senate Military Committee vot-  
ed unanimously to recommend an ad-  
ditional appropriation of \$15,000,000 for  
army aircraft construction to carry out  
plans of the air service to establish re-  
routes to Panama, Alaska and even to  
Asia.

Eastern and Gulf refiners have been  
notified by the United States food ad-  
ministration that, effective October  
15th, and until further notice, they  
are not to ship or deliver sugar to any  
point west of Pittsburgh and Buffalo,  
and north and west of the Ohio river.  
The order was issued because of the  
scarcity of cane sugar.

Establishment of a national budget  
system, supplemented by other sweep-  
ing reforms in the methods of handling  
appropriations and governmental ex-  
penditures, was recommended to the  
House in legislation reported out by  
the select committee on the budget.

Maj. Gen. Joseph T. Dickman, former  
commander of the First Division at  
Chateau Thierry, but now ranking of-  
ficer of the Southern Department, and  
Maj. Gen. John Biddle, commander at  
Camp Travis, Texas, have been men-  
tioned in orders for demotion to the  
rank of brigadier general. The orders,  
it is stated, are in line with the War  
Department's plans of returning to the  
regular grades officers who were pro-  
moted during the war.

General Mitchell of the air service,  
appearing before the Senate Military  
Affairs Committee, said that a three-  
day flight to Alaska across Canada  
would be attempted this winter. If  
cold weather flying proves successful,  
he added, a regular route to Alaska  
would be established to be followed  
probably by a route to Asia, with only  
a twenty-one mile water span to be  
crossed. The Panama route, he said,  
would be via Florida and Cuba.

The country's enormous corn crop  
has "run unharmed the gamut of dan-  
gers that faced it during the doubtful  
days and nights of September and lays  
into the lap of mellow October 43,000-  
000 bushels more of ripened ears than  
it could promise at the beginning of  
that month," the Department of Agri-  
culture commented in issuing the Octo-  
ber crop report forecasting a yield of  
2,900,511,000 bushels. Practically all  
of the crop has or will, mature without  
frost damage, assuring high feeding  
value. Husking and cribbing has be-  
gun.

## FOREIGN

An intercepted Russian Bolshevik  
wireless message from Moscow con-  
firms the report that the Bolsheviks  
have been forced to abandon the town  
of Dvinsk, between Old Russia and Pol-  
and.

The Omsk government of Russia  
has directed a thorough inquiry into  
the recent reported arrest of American  
soldiers by Cossack troops and the  
flogging of one of them because the  
Americans did not have the proper  
identification papers.

General von der Goltz, commander of  
German forces in the Baltic provinces,  
whose activities there have recently  
led to sharp exchanges between the al-  
lied powers and Germany, has, with  
his staff, joined the Russian Bolshevik  
forces, according to a Berlin dis-  
patch.

The German reply to the allied note  
demanding the withdrawal of General  
von der Goltz's troops from the Baltic  
provinces was discussed by the Su-  
preme Council at the resumption of its  
meetings. It was considered unsatis-  
factory and Marshal Foch was in-  
structed to draw up a new note to send  
the Germans.

Capt. Andre Tardieu, member of the  
French Peace Commission, speaking at  
a meeting of the French-American  
Club at Paris, gave interesting figures  
on the reconstruction work accom-  
plished since the armistice. Sixty  
thousand of the 550,000 houses in the  
battle area wrecked by shell fire have  
been rebuilt; 2,016 kilometers of the  
3,246 kilometers of railway destroyed  
have been repaired and 700 of the  
1,675 kilometers of canals rendered  
useless in the course of the hostilities  
are again in commission. Of the 1,160  
plants destroyed by the enemy 588  
have been repaired. Equally remark-  
able progress is being made in restor-  
ing to civilization the vast areas in  
the devastated regions which, at the  
end of the war, embraced 4,500,000  
acres. Of this approximately 1,000,000  
acres have been returned to the farm-  
ers and 500,000 acres of it are ready  
for the seed.

home in New York after a long illness.  
He was 82 years old.

Race riots broke out at Chester, Pa.,  
and one man has been shot and killed  
and five others injured, some of them  
probably fatally. The dead and injured  
all are white. Mayor McDowell has  
asked the sheriff for assistance in con-  
trolling the situation.

Six men were reported killed and  
five are said by the police to be dying  
as the result of a boiler explosion on  
the oil steamer Chestnut Hill at Phila-  
delphia. The killed and injured were  
members of the crew. Several others  
were badly burned. The vessel was  
getting up steam to depart for Mexico  
when the accident occurred.

Heavily increased use of sugar in  
candy, soft drinks, ice cream and other  
luxuries in the United States during  
the first nine months of 1919, it was  
announced in New York, by the United  
States Sugar Equalization Board, means  
that such over indulgence in  
sweets "must now be curtailed in some  
sections of the East for the next three  
months."

The shriek of a French seventy-five  
shell calls Edinburgh, Ind., to its work,  
sounds lunch time and sends it home  
in the evening. It's a tame shell, how-  
ever, adapted to peaceful pursuits. Ernest  
Law, a returned soldier, converted the  
shell into a whistle for the French  
locomotive of which he was engineer.  
Then he brought it home and it now  
occupies a high place—on the canning  
factory roof.

William Warn, a farmer charged  
with being insane, stood off a sheriff's  
posse that attempted to arrest him at  
Denison, Iowa, by using his wife as a  
shield, while he fired forty shots.  
When his ammunition was exhausted,  
he used the last shell to kill himself.

An attempt was made to wreck the  
plant of the American Sheet and Tin-  
plate Company at McKeesport, when a  
missile believed to have been a bomb  
was thrown on the shipping depart-  
ment building. It exploded, tearing a  
large hole in the roof of the structure.

Two men lost their lives and another  
narrowly escaped death when he was  
cut off from land at the end of a  
burning pier, and property worth \$1-  
500,000 was destroyed in a fire that  
swept the plant of the Standard Guano  
Company at Curtis Bay, Md. The  
bodies of the dead men, both negro em-  
ployees, are buried in the debris. The  
man caught on the end of the pier was  
taken off by a tug, the master of  
which risked destruction of his craft  
by coming alongside the blazing pier.  
Several small schooners were damaged.  
A series of explosions shattered win-  
dows in houses several miles from the  
plant.

At the request of the Youngstown  
Aviation Club, the city council has  
ordered the solicitor to prepare an ordi-  
nance regulating air "traffic" over  
Youngstown, Ohio. The Aviation  
Club asks that all flying at less than  
1,500 feet be prohibited and that stunt  
fliers be required to stay at 3,000 feet.

Gustav Noske, German minister of  
defense, has decided to court-martial  
General Bischoff, commander of the  
Iron division in the Baltic provinces,  
for telling his troops to disobey the al-  
lies' order to withdraw, said a news  
agency dispatch from Berlin.

## HALEY'S COMET 61 YEARS AGO

Is Same Terrible Wanderer in Space  
That Has Appeared Down  
the Ages.

The world was up all night Septem-  
ber 12, 1910. Haley's comet blazed  
across the roof of the world. This  
"great comet," whose revolution oc-  
cupied 292 years, was first seen in Au-  
gust, 1835, by a gentleman in Altoona,  
but Haley's comet, named after the  
astronomer who calculated its progress,  
is the same terrible wanderer in  
depths of space that has appeared  
down the ages, and to which succe-  
sive names have been given—Bela's  
comet, Donati's comet, etc. From the  
records of history it seems that the  
comet appears to foretell some world  
disaster. It appeared before the fall  
of Jerusalem under Titus; in the reign  
of Louis the Debonair, 837, and the  
king died shortly after; it appeared  
before the death of Caesar, 43 B. C.  
Again it appeared three years after  
the capture of Constantinople by the  
Turks, 1456. It appeared in 1861, just  
before the Civil war, and in 1910, be-  
fore the great war.

What is a comet? It is a member  
of the solar republic—a hirsute star,  
a vagabond orb, that travels at almost  
incalculable speed, whose tail is fifty-  
five million miles long—who approach-  
es the sun, not to be consumed in it,  
but to draw from that radiant source  
the energy necessary for its future  
travels in the unknown abyss of the  
firmament. It has its own orbit which  
it follows. What mind dare follow  
that?

Anybody can make a fool of him-  
self, and we all get plenty of oppor-  
tunities.

## WAR RECORD OF LEVIATHAN

Monster Transport Carried Many  
Thousands of Soldiers to  
French Ports.

The giant transport Leviathan, fol-  
lowing her arrival in New York har-  
bor with Gen. Pershing and troops of  
the First division, brought to a close  
her important service in helping win  
the war. The big ship, after being  
refitted for passenger service, is to be  
turned back to the United States ship-  
ping board, the agency which seized  
it when the United States entered the  
war. While the future of the ship  
is uncertain, it is reported that she  
will be assigned to American passen-  
ger trade between New York and  
Liverpool, with possible extension in  
the future of a service to Hamburg.

The Leviathan, formerly the Vater-  
land, the second largest ship in the  
world, was interned in New York by  
the Germans in 1914. She was "wil-  
fully damaged" to the extent of more  
than \$1,000,000. After being recon-  
ditioned by American engineers, she  
was assigned as a transport, and  
during and since the war made 19  
round trips on the Atlantic, carrying  
a total of 185,500 soldiers, of whom  
98,321 were carried overseas through  
submarine infested seas. She was al-  
ways a mark for U-boats, but her  
speed and the armament with which  
she was equipped saved her.
