THE POWER WITHIN PLEASURE OF HOME MEALS

There has been a great advance in science during the past few years and many old-fashioned ideas have been discarded for the new results that have been obtained.

Your spine is the index of health. Here emit the nerves that serve every part of the body. The nerves are the live wires of the body. If they are impinged because of a subluxated vertebra there will be caused a lack of nerve force to the organ which they supply. As a result the nerves lose their function and lack of function means diseased organs.

The work of the chiropractor is to correct dislocations (misaligned vertebra) found in the spinal column. This is done by an adjusting move performed with bare hand in a scientific manner, which in time returns the bony segments to their normal articular relation and releases the pressure their former deviations caused on the nerves affected. When such an adjustment is complete mental impulses flow unretarded and health will return naturally.

Chiropractic teaches that the body does not move itself, but is moved from a "power within," which they call "life forces" (mental impulses). It teaches that the power within moves the body by means of functional impulses sent over the nerves and that when a nerve is impinged or pressed upon, you will have an abnormal expression of the motor function in the organ or part supplied by that nerve.

Dr. V. E. Powley is very keen in analysis and quick to see the cause of disease, offering personal consultation free, and can tell by talking to you a few minutes just what will bring you to the front. His adjustment is very accurate and his success since arriving here a few months past has been very marked.

We are glad to compliment Dr. V. E. Powley upon his success.

Everybody is hearing of Mrs. Nowlin's Dining Room, located in the Damron Hotel. Coolidge is indeed fortunate in having a lady of so much experience in the cooking field, who is rapidly making of her dining room one of the leading dining places in this section of Arizona.

This popular place is a center of autoists, the local and the traveling public, and has taken a prominent place in the business life of this section.

The cuisine of this dining room is the talk of the countryside and people from every walk of life have found that refreshment here adds a new charm to life.

Mother Nowlin specializes in home cooking, and only the best supplies are secured and prepared in a manner that shows the highest skill in cooking.

At this place is offered complete service and only the best of help is employed. In addition to providing always the best grade of food it is served at the lowest possible price. You are courteously waited upon, whether your order is large or small.

The Nowlin dining room is popular and justly so.

VALLEY HELP FIRST

(Continued from page 1)
crop this year and expect as soon as local labor is placed in the valley to begin bringing in outside help. Some of the people will undoubtedly come without any help or direction from the association but will be placed where they are needed in the valley as soon as they show up at the points of distribution. Others will be directed

here by men working for the association at different points where labor is available as El Paso and other points in Western Texas, Oklahoma, New Mexico and Central California. These will be sent into the valley and distributed to people who need them as fast as they come in. Hoping this will make the situation clear regarding the intentions of the Arizona Cotton Growers' association, I am

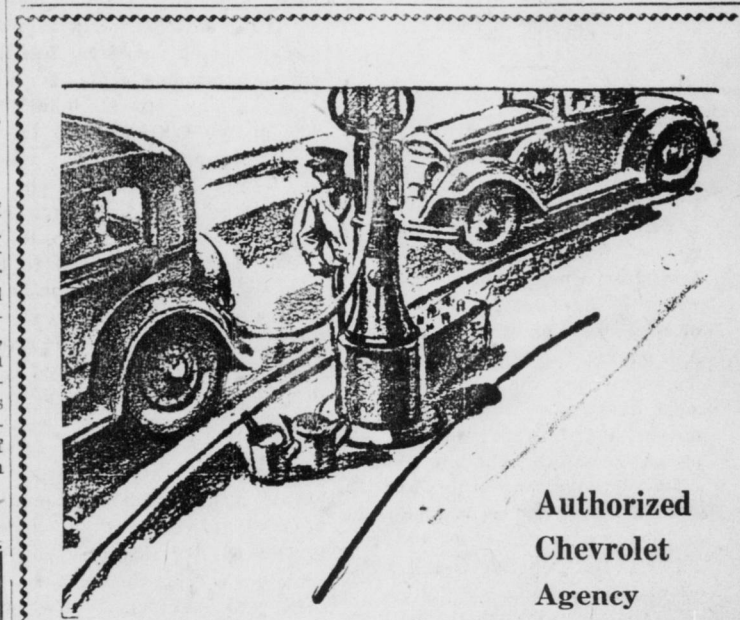

"Yours respectfully,
"FRED RATHBUN,
"Director for Casa Grande Valley."

A. J. Fine, a brother-in-law of Chas. Colm, of the Popular store, was a business visitor here Thursday. Mr. Fine is an ardent booster of Coolidge and sees a substantial growth for this town with the advancement of the tributary country, as the waters from Coolidge Dam bring the fertile acreage under cultivation and more farms are thus created. The gentleman is connected with the Popular stores of Tucson, of which the local concern is an expanding branch.
