Strange But True

It is claimed by the American that if present increases in that in present increases in traffic accidents continue one out of every three children born in this country is destined to be killed or seriously injured in traffic.

It is estimated that approximately one billion of our two billion acres of land is in pasture.

There are now 2,299,000 Boy Scouts in the world.

In Connecticut there is a 45-acre farm that has been in the possession of one family since 1676.

Of the 200,000 autos stolen in this country last year very few of them were recovered.

Approximately one-eighth of the school children in the United States live in districts without sufficient funds to operate for the customary term.

A Vet Could Tell

One of our exchanges states that during one of the fights in the House of Representatives in Washington, one of the members called another an "ass." The offended man objected, and the chair ruled that the use of the expression constituted unparliamentary language, and that it must be withdrawn.

Civil Service Examinations

The United States Civil Service Commission has announced open competitive examinations as follows:

Bindery operative (hand operators), bindery operative (machine operations), 66 cents an hour, Government Printing Office, Washington, D. C.

Farm loan registrar, \$4,600 a year, deputy farm loan registrar, \$3,500 a year, Farm Credit Administration.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners at the post office or customhouse in any city which has a post office of the first or second class, or from the United States Civil Service Commission, Washington, D. C.

BANKERS' ASSOCIATION STIMULATES ADVERTISING

The American Bankers Association's Advertising Department reports rapid progress of the use by banks of the informative bank newspaper advertising prepared by it for members to assist them in rebuilding public confidence and good will in their communities.

The central theme of this advertising service deals with the "essential line of economic and social service that all sound banking inherently renders the depositor and the public," the report says, showing that "it is not banking laws which make banking useful and safe, but that it is honesty and skill in management under private initiative."

The Advertising Department is supplying about a thousand members of the association with news paper and other advertising material. The newspaper material totals about 50,000 advertisements annually. The growth of the work of the department is shown by the following figures: On September 1, 1934, the number of banks being served regularly each month was 623. The total number on April 1, 1935, was 924, an increase of 301 regular subscribers, or 49 per cent.

"I withdraw the language," said the offender, "but I insist that the gentleman from Missouri is out of order."

"How am I out of order?" yelled the other member. "Probably a veterinary surgeon could tell," came the answer.
