Oracle Items.

Oracle, Ariz., Oct. 8.—The new school at Oracle, which should have begun about the middle of last month, has not opened yet. Miss Anna Road, who came from the east to take charge, reached Florence too late to take the school examination and the authorities at Phoenix refused to give her a certificate on the strength of her diploma from an eastern college. The law makes it the duty of clerk of each school district, not later than twenty days after the commencement of each school term, to furnish a deputy sheriff, constable, city marshal or other peace officer with a list of names of all children between eight and fourteen years of age not in attendance at school.

A failure to furnish such list subjects the clerk to a fine not to exceed ten dollars. It is the duty of said sheriff, constable, city marshal, or other peace officer of the precinct in which said school district is located, to inquire into all such cases of neglect, and if there be no legal excuse shown shall forthwith proceed to secure the prosecution of any offense occurring under this act, and a neglect to secure a prosecution of such offense within ten days after receiving the list subjects the officers to a fine not exceeding fifty dollars.

Governor Murphy has issued a call for a statehood convention, to meet in Phoenix on Saturday, October 20. He calls on citizens to unite in asking congress to give us statehood, saying: "Individual interests and personal ambitions should not be considered. Statehood is not a political question. We should all work together as one man, democrats and republicans alike. Farmers, miners, graziers, corporations large and small, and all territorial interests of whatsoever nature should be united on this most important measure for the public good."

The El Paso Herald says that the people of the territories of Arizona and New Mexico, irrespective of politics, look upon President Roosevelt as a friend who will not refuse to hear them in their prayers for statehood. And it is well known that the president is a great admirer of the citizenship of both territories as represented in his regiment of Rough Riders, which took such a conspicuous part in the Spanish American war. A petition from the territorial Rough Riders praying for the stars of statehood would never be ignored.

Hewie Hewitt this morning returned from a four months' sojourn at Agua Caliente. His numerous friends will be delighted to know that his health has been greatly benefited by the springs.—(Tempe News).

Two car loads of almonds from the Tripple orchard are on the switch at the Mesa depot and will be shipped tomorrow. This year's almonds are of fine proportions and of superior flavor.—(Free Press).

Value of Man's Life.

The Supreme Courts have decided that the life of the average man is worth just what he is able to earn. A man's earnings depend to a great extent upon his health, and it is always his power to improve his condition. The stomach is the measure of health and strength. Every man may be bright, active and happy, if his digestion is normal. If it is not, Hostetter's Stomach Bitters will make it so. It puts the digestive organs in condition to properly digest and assimilate food. Try it for constipation, liver and kidney troubles. It has cured stomach ailments for the past fifty years, and to-day there is nothing just as good.
