A Flourishing Game.

"As to the cause of education," said the Montana man, "I am glad to say that it is flourishing with us."

"Plenty of schools, eh?" was queried.

"Well, one every few miles or so, but I was referring more to the school-ma'ams than the schools."

"In what way?"

"Why, we've had fourteen in our district in the last two years, and every one of 'em has got married and is living as happy as a clam. We are behind in some things, but when it comes to the cause of education we give a schoolma'am her pick of a dozen candidates, and if she can't find one to suit her as a husband we know she ain't up on geography and arithmetic and let her go."

JOSH BILLINGS' PHILOSOPHY.

God made woman superior to man—superior in her sphere only.

We hav to win what we git, and what we don't win ain't hardly worth having.

If I hav to prove everything that I think or say, I am redly to quit now, and let life go bi default.

Error iz very nimble at the start, but the staying qualitys of truth all-wuss wins the race at last.

Like master, ilke dog, iz a truism; I never knu a hatefull, malishus kur but what waz half-brother to hiz owner.

Don't forgit this, mi sweet boy—the world is all watching to see yu miss the bull's-eye. Beat them, mi sweet boy, if yu kan.

The strongest intimacys seem to exist, not between two hartes, but whare the hed ov one controls the harte ov the other.

What I write cums to me like the flight ov a wild pigeun; if I don't seize it and write it down, it is gone forever; and too often, in grasping for it, I only git a sorry bunch of tale feathers.

Eruptions

The only way to get rid of pimples and other eruptions is to cleanse the blood, improve the digestion, stimulate the kidneys, liver and skin. The medicine to take is **Hood's Sarsaparilla** Which has cured thousands.

After the Honeymoon.

Youngwed—Er—what kind of cake is this, my dear?

Mrs. Youngwed—Why, it's marble cake. I baked it myself.

Youngwed—I wish you would bake a few more just like it.

Mrs. Youngwed—I'm so glad you are fond of it, dear; but why do you want so many?

Youngwed—I—er—think it would be a good idea to replace those old wood steps at the front door with marble.

Condition vs. Theory.

"Shay," began the loquacious party who had been trying to assume more than his share of liquid trouble, "I've (hic) got a the'ry 'bout (hic) whazzer matter—"

"To the station house with your theory," interrupted the policeman, as he gathered him in, "it's your conduct that confronts me."

SISTERS OF CHARITY

Uses Pe-ru-na for Coughs, Colds, Grip and Catarrh---A Congressman's Letter.

In every country of the civilized world Sisters of Charity are known. Not only do they minister to the spiritual and intellectual needs of the charges committed to their care, but they also minister to their bodily needs.

With so many children to take care of and to protect from climate and disease, these wise and prudent Sisters have found Peruna a never failing safeguard.

Dr. Hartman receives many letters from Catholic Sisters from all over the United States. A recommend recently received from a Catholic institution in Detroit, Mich., reads as follows:

Dr. S. B. Hartman, Columbus, Ohio: Dear Sir: "The young girl who used the Peruna was suffering from laryngitis and loss of voice. The result of the treatment was most satisfactory. She found great relief, and after further use of the medicine we hope to be able to say she is entirely cured." —Sisters of Charity.

The young girl was under the care of the Sisters of Charity and used Peruna for catarrh of the throat with good results as the above letter testifies.

The following letter is from Congressman Meekison, of Napoleon, Ohio:

The Peruna Medicine Co., Columbus, O.:

Gentlemen: "I have used several bottles of Peruna and feel greatly benefited thereby from my catarrh of the head, and feel encouraged to believe that its continued use will fully eradicate a disease of thirty years' standing."—David Meekison.

David Meekison.

Dr. Hartman, one of the best known physicians and surgeons in the United States, was the first man to formulate Peruna. It was through his genius and perseverance that it was introduced to the medical profession of this country.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

A Good Head.

Sub-Editor—A correspondent sends us a full account of a cock fight, with photographs of the steel spurs used, the cock pit, spectators, birds in battle, etc., with every round described.

Great Editor—Glorious! Get it all in. Sub-Editor (doubtfully)—But this is a family paper.

Great Editor—Y-e-s—I—know. Head it "A Brutal Sport—Where Were the Police?"

He Could See It.

Wife—According to the program, this play has a moral, but I fail to see it.

Husband (who paid \$5 for seats)—Oh, it's plain enough. A fool and his money are soon parted.

Reason for It.

"What on earth possessed you to bite Miss Ethel's beau last evening?" asked the house cat.

"Well," replied the bulldog, "I heard her telling him he was nice enough to eat."

How Celluloid is Made.

Celluloid, the chemical compound which bears so close a resemblance to ivory, is a mixture of collodion and camphor, invented in 1855 by Parkesine, of Birmingham, whose name for a time it bore. The process of manufacture is as follows: Cigarette paper is soaked in a mixture of nitric and sulphuric acids until it becomes nitro-cellulose. After thorough washing, to free it from the acids, this cellulose is dried, mixed with a certain quantity of camphor, and coloring matter if required, and then passed through a roller mill. It is next formed into thin sheets by hydraulic pressure and afterward broken up by toothed rollers and soaked for some hours in alcohol. A further pressure and a hot rolling process finish it, and results in ivory-like sheets half an inch thick.
