LABORS DEMAND FOR RECOGNITION

The Workingmen of London to Hold a Mass-Meeting in Hyde Park.

BARCELONA OVERRUN BY MOBS.

German Employers to Form a Protective Society-The Situation in the United States-Strikes Compromised and Inaugurated in Chicago-New York Carpenters Succeed in Their Fight.

Special by the California Associated Press.

LONDON, May 3 .- To-morrow there will be a demonstration at Hyde Park in favor of eight hours as a legal working The manifesto calling the meeting sets forth that all intelligent working people are convinced of the necessity of limiting the working day to eight hours. They know this can only be done effectively by legislation, as the masters always take back at the earliest opportunity any concessions they have been forced to give by the mere combination of work-

The manifesto is authenticated by the signa tures of responsible representatives of nearly all the trade and labor organizations in London and

"The enemies of the working classes declare that the workers do not desire an eight hours' working day by legislation. Give them the lie by attending to your tens of thousands and hundreds of thousands on May 4:h in Hyde Park."

The prospects indicate an imposing demonstration. Ample police preparations have been made for the maintenance of order. Arrangements for the mass-meeting are perfect.

The friction between the Socialists and trade-unionists has been removed by a compromise. The leaders of the two factions have agreed that there shall be two processions, which shall be kept separate at all points. The Socialist and the labor orators will speak from platforms as far distant as possible from one another. The processions will enter the park from opposite sides. The speak-rs comprise all the well-known labor and Socialist agitators.

MADRID.

MADRID, May 3.—In Valencia the striking workmen continue their attempts to intimidate non-strikers. They tried to force the employes of the Government tobacco factory to leave work, but the civic guards prevented them. BARCELONA.

BARCELONA, May 3.—Notwithstanding the fear that further trouble was imminent, the public markets opened to-day as usual and a number of workmen went back to their employment. The authorities are confident that they will be able to put down any disorder and have recommended the proprietors or manufactories and shops to keep their establishments open, promising to protect them.

MORES RELEASED. PARIS, May 3.—The Marquis Mores has been liberated, not having been found dangerous, as supposed, his arrest immediately before the 1st of May having served the purpose of the Government.
Thirty immigrants, presumably from Russia, have been arrested in Belgrade on a charge of attempting to create a revolution.

CHICAGO, April 3.—The labor situation con CHICAGO, APRIL 3.—The labor situation con-tinues to create uneasiness. No sooner is one strike over before another commences. Sum-ning the matter up, the situation is about as follows: The carpetters have made a settlement with the new Bosses' Association and the men with the new Bosses' Association and the men will return to work Monday.

The sash, door and blind factory men have been granted a small concession, and on Monday next the employers will give their ultimatum as to their demand for eight hours.

The maileable-fron works are all shut down except McCo-mick's, and the demands of the men have been refused.

The employes of the Gas Trust will on Monday demand eight hours, and as there is little hope of the demand being grapted a strike will result affecting 800 men.

A waiters' strike will not take place at the big establishments in Chicago, as the demands of the men were granted to-day by all the large concerns. the marble-cutters in the city went out on a strike for eight hours this morning. Several bosses have conceded to the demands of the men and it is probable that the balance will do likewise. At noon all the bosses in the tailoring shops in the northwest section of the city were presented with a demand for an increase in wages of 10 per cent. The workers are men, women and children. The bosses will give an answer Monday. The paper-hangers are still out, with little chance of a settlement.

At McCormick's reaper works the men say the reason they went back to work is that they were not organized. It is possible that they will make an effort to organize to-day and go on a strike Monday. strike Monday. Wells, French & Co's Car and Bridge Works Wells, French & Co's Car and Bridge Works will accede to the demands of the strikers, providing the Pullman Car Company and similar other firms will do the same. A delegation went to Pullman, and will get the men to strike if the demands to be made are not acceded to.

At the Ajax Forge Company it is believed the strike will be settled and work resumed on Monday. lay.
A delegation waiting upon the Malleable Iron Works Company this morning have received a written reply that the business of the company at this time will not warrant the advance in wages.

The molders will all go out. They are in for a

NEW YORK.

NEW YORK, May 3.—The expected strike of housesniths in this city and Brooklyn, it is reported, has been averted by a Conference Committee of men and employers this morning.

The strike of carpenters and joiners at Brooklyn next Monday will embrace 15,000 workmen. The programme is for the carpenters to appear at their respective places of employment at 8 o'clock, instead of 7 o'clock, to begin the eighthour day. If the employers refuse to accept their services, then the strike will occur.

The striking carpenters and New Boss Carpenters' Association came to an agreement to-day, giving 5000 men employment on Monday morning. The wages and apprentice systems are held in abeyznee for future settlement.

DROPPED PICK AND SHOVEL. NEW YORK.

DROPPED PICK AND SHOVEL. BUTTE (Mont.), May 3.—There is likely to be a general movement among the laborers in this town to advance wages from \$2.50 to \$3 a day. The first overt signs of it were made apparent today, when the laborers digging a foundation on East Broadway made a stand for that advance, and, not receiving it, quit work. They sent a delegation to another gang digging a foundation at the gas works in South Butte and persuaded them to quit on the relusal of a similar demand. A good deal of building is projected for the coming season, and it this movement among the laborers becomes general it may retard a good deal of building. It is understood that the Knights of Labor are at the back of the movement, and as they are affiliated with the Miners' Union, which is invincible in this town, the result is a foregone conclusion.

DETROIT. DETROIT, May 3.—Two hundred sash, door and blind hands struck this morning, and now 1800 hands are out. If necessary to enforce the carpenters' demands the trades, being strongly allied, will call 8000 men out.

TERRE HAUTE. TERRE HAUTE, May 3.—The miners' strike was settled this morning at 70 cents. The scale assigned does not apply to the Ayeshire and Washington mines.

BOSTON. Boston, May 3 .- The condition of the strike Mother and Daughter Murdered.

70, and her daughter Caroline, aged 45 years, were found dead in bed this morning with their skulls crushed and bodies badly mutilated. A grandson, William Blaney, was arrested. The cause of the murder is supposed to be robbery. Nine hundred dollars is missing.

A THROUGH LINE.

Rumored Valuable Acquisition to the North- Victoria All Upset by ern Pacific System.

CHICAGO, May 3 .- It is rumored that the North-

ern Pacific has completed the purchase of the Chicago and Great Western Railroad and the Calumet Terminal Company of Chicago. The Great Western is simply a terminal company with lines inside of the city limits and valuable terminal facilities in the business center. Over this company's tracks the Wisconsin Central secured an entrance to the city, and the Northern Pacific will come in over the Wisconsin Central line. The Calumet Terminal Company has docks on the lake shore at Calumet, just south of the city, and the belt line connects them with the Great Western tracks. The Chicago and Great Western road controls 140 acres of land in

Great Western tracks. The Chicago and Great Western road controls 140 acres of land in Cleero and Chicago worth \$10,000,000. The company also owns a depot valued at \$1,000,000 here. The Northern Pacific will, it is said, issue a new series of bonds to the amount of \$30,000,000 on these properties. Indications point strongly to a close alliance between this system and the Baltimore and Ohio, thus realizing Henry Villard's dream of a great route from ocean to ocean. It is believed that Villard will personally acquire considerable interest in the property in and around East Chicago.

The Western railroad situation caused by the sweeping reduction in rates of the Great Northern, it is believed, will be satisfactorily adjusted at the Western Presidents' meeting next Monday. Vice-President Goddard could not be seen to-day regarding the rumor of his resignation.

WINNIPEG, May 3.—The Manitoba and Northwestern Railway Company, which has not been in a very good financial position for years, has concluded the sale of its entire land grant, consisting of \$400,000 acres, for a trifle over \$2 an acre. The land was taken by a syndicate of English and Scotch capitalists and a company will be formed for colonization purposes.

Vice-President Goddard of the Atchison will not only remain with that road, in spite of his reported resignation, but he can remain with any increased or changed authority he wishes. Said President Manuel this afternoon: "I heard of the rumored resignation only a few moments ago. It was complete news to me and consequently I judge there was a stretching of the imagination when the rumor started. Seriously, my relations with Mr. Goddard are of the most cordial nature. We have never yet differed and he has only to mention any change or increase in authority he wishes to have it granted. He

cordial nature. We have never yet differed and he has only to mention any change or increase in authority he wishes to have it granted. He knows this and he also knows that I esteem him very highly and would under no circumstances agree to his resignation."

Vice-President Goddard did not consider the rumor worth denial, apparently, and contented himself with saying: "You see I haven't quit work. As far as there being any serious friction between me and Traffic Manager Hanley it is pue bosh." between me and Traine Manager Hanley it is pure bosh."

NEW YOEK, May 3.—It is reported that the object of Gorld's visit to Mexico was to ascertain if it would pay to connect the Texas and Pacific with the City of Mexico by building a connecting line from a point 200 miles west of Fort Worth to the terminus of the Mexican Central.

A suit for the recovery of \$100,000 commissions from the Oregon Improvement Company is threatened. Frederick W. Gade went to Europe in December with what was practically an option on \$10,000,000 consolidated mortgage bonds at \$95. Before the privilege expired the price was reduced to \$90. At this price Gade was not able to complete negotiations, and no bonds were sold under the agreement. The officers of the improvement Company had not received. cers of the Improvement Company had not re-ceived notice of the suit to-day. Fresid n Smith said that Gade had sent a letter to the company threatening to bring the suit, added after reading the original contract: Gade thinks he can recover commissions cause he had an option on bonds which he c

not exercise he is welcome to my money. I do not think a suit has been begun." COLORADO MORMONS.

The San Luis Valley to Be Converted Into a

"Zion." PUEBLO (Colo.), May 3.—A rumor is being cir-culated in the San Luis Valley that "the Mormons have captured La Jara." The Mormons have for years had settlements there, which have been gradually becoming more and more populous. Usually when a train-load of new emigrants for Salt Lake arrive here one or two caroads are switched off for La Jaia, From that point they go to the country in the east part of the valley, their town of Richfield being situated one mile east of La Jara, Sanford three miles east, Manassa nine miles southeast and Morgan six miles northwest. The Colorado Mormons puretend to be proposed to be a proposed t six miles northwest. The Colo rado Mormons pretend to be monogamists and opposed to polygamy, but it is generally understood among their Gentile neighbors that they have a good many women around and when two of the superfluous women hanging about the residence of the chief apostle had a free fight and halr-pulling match not long ago the matter gave rise to a good deal of t.ik. The rumor now affoat is to the effect that the Mormons will convert this Colorado nucleus into a "Zion" or Salt Lake City of the San Louis Valley. Real estate at La Jara has advanced a notch or two in consequence. It is said the Mormons intend to buy up all the business houses, with the town site, if possible, and that they will build up the town with capital from Salt Lake, and people it with a large influx from the same place. H. Schiffer & Co., one of the largest general merchandise firms in that portion of the valley, recently sold out to J. B. Forbes, a Mormon of Sanford, and an unfinished brick notel is under negotiation.

THE NEW YORK SCANDAL.

Mayor Grant Makes a General Denial of Mc-Cann's Damaging Charges. NEW YORK, May 3.-McCann, the keeper of the Central Park Restaurant, who made the accusation of corruption against Mayor Grant of this city, Boss Crocker of Tammany and other prominent members of Tammany a few days since, continued his testimony before the Fassett Committee to-day. New allegations were made, Committee to-day. New allegations were made, of which the substance is that Crocker had a scheme to receive 10 cents per barrel on every barrel of cement to be used in the acqueduct and public works construction, if he could corrupt the Aldermen with his \$180,000 into a ratification of Grant as Supervisor; also, that he made a confession that he would have taken the Broadway-surface bribes had he not been restrained by Crocker. The witness expressed the opinion that Mayor Grant was a disgrace to the city. There is great excitement among politicians of all classes over the allegations. In satternoon Mayor Grant and ex-Mayor Edson testified. Grant contradicted McCann on all essential points and Edson denied any knowledge of the proposed deal to make Grant Commissioner of Public Works during his (Edson's) administration as Mayor.

STRUCK OIL.

Celebration in Terre Haute Over the Discovery of Another Gusher. TERRE HAUTE, May 3 .- The city is wild to night with excitement, and the streets are crowded with people to witness the parades and fireworks display and listen to the music of several bands. The occasion is a jolification over an oil well guster which was struck this after-noon. No estimate has yet been given of the flow by the owners. Pipe lines are being laid and tankage built to take care of the product. The well promises to be the most important yet well promises to be the most important yestruck in Indiana. The original gusher is a yes old to-morrow, and has flowed without cessation during the year.

THE SEIZED SCHOONER.

The Captain Fined and the Vessel and Cargo Confiscated. GLOUCESTER (Mass.), May 3.-The excitemen and indignation over the seizure of the schooner Howard Holbrook by Newfoundland officials was increased this afternoon by the receipt of a telegram that, despite all protests, the captain had been dragged into court and all hands found guilty, the captain being fined \$500 and the vessel and cargo, valued at \$7000, confis-

THE EXPECTED DUEL.

Editor Harper's Reasons for Declining to Meet His Challenger. AUGUSTA (Ga.), May 3.—The expected duel between Editor Harper and Phil Davis of Elberton has not yet occurred, Harper declining to meet the man he horsewhipped on the ground that Davis' conduct debarred him from recognition. One of Davis' friends will now probably challenge Harper. It is probable that the trouble will only be settled by the death of one of the men.

Destructive Fire. CHICAGO, May 3.—Morgan Park, a suburb of this city, was visited by a disastrous fire this morning. An entire block occupied by the Postoffice, a grocery, a harness-shop and others was completely destroyed. The total loss is estimated at \$60,000.

Drunken Woman.

An Incident of Her Return to England From the Continent.

Murder of a Prominent Politician of Ecuador by a Gang of Masked Ruffians. French Threats.

Special by the California Associated Press.

LONDON, May 3 .- Queen Victoria has returned to Windsor Castle much improved in health by her Continental holiday. Her nerves are much shaken by an unusual incident on the evening of

She was being driven from the railway station to the castle when an elderly woman broke through the police cordon and rushed after the carriage, shrieking that she must speak to the old woman.

Such an uncourteous method of seeking an audience upset the Queen and sent the policemen into fits of ultra royal rage. The woman was seized and roughly hurried off to a police cell, where it was ascertained that the trouble was due to drink.

Yesterday the Queen was sufficiently restored to enable her to act as sponsor at the christening of the Duke of Portland's infant daughter. It was named Victoria Dorothy Winifred, and looked as any baby would look in a superb robe of Honiton lace, with sash and shoulder knots of white satin and a headgear of lace. It has just been learned that the Duke's landed property in one district of London alone is worth \$4,250,000.

AN ULTIMATUM.

The King of Dahomey Must Surrender His European Prisoners or Be Bombarded. London, May 3 .- An ultimatum has been sen to the King of Dahomey to the effect that unless he surrenders the French merchants and other Europeans whom he holds prisoner the bombard-ment will be resumed on the 5th and kept up un-til the town is destroyed. This has caused a panic among the troops of the King, who quit the river and encamped near Porto Novo.

CLAYTON'S DEATH.

Investigating Committee.

LITTLE ROCK, May 3.-The principal testi-

mony taken by the Investigating Committee to-day was that of Jered Sater of Jeffersonville, on

hose statement the story was sent out to the effect that in 1888 he knew a man named Tom Hooper, near Los Angeles, who threatened that if the opportunity ever arrived he would kill John M. Ciayton, who had helped to hang his John M. Ciayton, who had helped to hang his father soon after the late war. After the assassination in January, 1888, Sater claims to have visited Hooper at his home near Los Angeles and while there Hooper confessed that he was the assassin. He afterward died before any arrest was made.

Sater corroborated this story when put on the stand, going into details. He described Mrs. Hooper, the wife of Tom Hooper, and told of his acquaintance with the family for a period of several months. Mrs. Hooper, who has recently removed here from California, was before the committee Thursday.

When asked about Sater's story, she denied having seen such a man and denounced the story as a falsehood. She will be brought here again from Morrillton Monday and confronted by Sater.

The general hellef is that she will be forced to The general belief is that she will be forced acknowledge his acquaintance and the forced acknowledge his acquaintance, and that her de-nial was to shield her son, who was, it is claimed, implicated with his father in the assassination. The feeling here is that the mystery which sur-rounded the terrible crime is about to be solved. The theory certainly is the most plausible ever advanced.

KNOCKED OUT.

Jim Fell Put to Sleep by Bill Keogh at Virginia City. Virginia, May 4.—A fight between Bill Keogh and James Fell, for \$500 a side, took place in the Opera House to-night. The men entered the ring at 11:20 o'clock and time was called at 11:30. D. Briden was chosen referee. The first three rounds were without incident, the men sparring cautiously. In the fourth round Fell got in several blows on Keogh's wind, and the latter returned on Fell's neck. Keogh got in another on Fell's ear and sent him to his got in another on Fell's ear and sent him to his knees. When Fell arose to his feet Keogh got in two heavy blows on his neck.

This was the only knock-down until the twenty-seventh round, which ended the fight, Keogh knocking Felt through the ropes. The latter rose to his feet, but was knocked under the ropes twice, and failing to rise at the call of time the fight was awarded to Keogh.

Neither man received severe punishment. The fight lasted two hours and was witnessed by 1500 people. The gate receipts amounted to fully \$2500, of which Keogh sets 75 per cent. It is estimated that fully \$20,000 changed hands on the result.

OLD FRIENDS.

A Magn ficent Night and an Enjoyable Anniversary.

The Society of Old Friends had a glorious time last night. The full moon shone down upon the seene in all its splendor, and the crowds in atscene in all its spiendor, and the crowds in attendance and all the surroundings made the occasion one of unalloyed enjoyment.

It was the celebration of their twenty-seventh
anniversary, and the place selected was the
Ocean Beach Pavilion, on the Cliff House beach.
The cars ran all night, and every train that went
down was loaded. Until 10:30 o'clock the people enjoyed themselves out of doors, watching
the tide coming in, it being high tide, and although the air was calm there was a magnificent
surf rolling in.

The programme consisted of an introductory now above the high-water mark of 1866, and is still rising. Numerous plantations are flooded. The Iron Mountain Railroad has abandoned all its trains north of here.

JAMES B. BECK'S LAST JOURNEY.

Sater Reiterates His Story Before the The Kentucky Senator Drops Dead in Washington.

> Stricken With Heart Failure While Alighting From a Train.

> Immediate Adjournment of Both Branches of Congress as a Tribute of Respect.

Special by the California Associated Press.

WASHINGTON, May 3 .- Senator J. B. Beck of Kentucky dropped dead at the Baltimore and Potomac Depot in this city, a few minutes after 4 o'clock this afternoon. Beck was returning from New York and had just stepped from the cars when he fell to the

Death probably resulted from heart failure. Immediately upon receipt of the news of Senator Beck's death, both the Senate and House adjourned as a mark of respect.

James B. Beck was born in Dumfriesshire, Scotland, February 13, 1822. He received an academic education in Scotland; graduated as a lawyer at Transylvania College, Lexington, Ky., in March, 1846, and practiced there, never holding any office until he was elected a Representative to the Fortleth, Forty-first, Forty-second and Forty-third Congresses. He declined a re-election as Representative, and was elected to the United States Senate as a Democrat to succeed John W. Stevenson. He took his seat March 5, 1877, and was re-elected in 1882 and 1888. He was one of the most popular members of that body.

TO PROTECT THE BUFFALO. A Bill Setting Apart Certain Lands for Their

Propagation. WASHINGTON, May 3 .- The House Public Lands Committee has tayorably reported a bill for the protection of the American bison or buffalo. The report accompanying the bill says that in 1871 there was in existence a single herd of 4,000,000, but by wanton and cruel treatment the buffalo has been almost exterminated, so that now there are scarcely 200 in the country. By the terms of the bill a part of "No Man's Land," and Stansbury, Dolph, Gunnison and Carrington islands in Great Sait Lake, are set aside and reserved from sale for twenty years for the purpose of propagating the buffalo and for the purpose of experimenting in crossing the same with domestic cattle. For this purpose these lands are leased to J. C. Jones of Garden City, Kans., with the provision that his buffalo herd of eighty head and cross breeds be placed thereon. The sum of \$30,000 is appropriated for the purpose of fitting up the reservation. alo. The report accompanying the bill says that

THE SILVER QUESTION.

A Mesting of the Senate Caucus Committee Adjourns Without Result. WASHINGTON. May 3 .- The Republican Senate silver Caucus Committee neld a conference this afternoon and tried to reach some agreement on behalf of the Silver Bill, to be reported as a subbehalf of the Silver Bill, to be reported as a substitute for the Jones bill, which comes up Westnesday. The discussion hinged on the question of the legal tenders or lawful money at the discretion of the Secretary of the Treasury. After two hours' discussion it was evident that no agreement could be reached and the committee adjourned.

ORDERED TO BRAZIL. Admiral Walker to Proceed With Three of His Fleet to Relieve Gillis. WASHINGTON, May 3 .- Admiral Walker, commanding the squadron of evolution, now at Malta, has been ordered by cable to proceed at once with three ships of that squadron to Brazil, where he will relieve Admiral Gillis, in command of the South Atlantic Squadron. Admiral Gillis will return home. The squadron of evolution will probably remain some time in South American water.

THE TARIFF DEBATE.

Democratic Leaders of the House Want to Limit It to Ten Days. Wilson of Washington introduced a bill grant-ing the right of way to the Northern Pacific and Yakima Irrigation Company through the Yakima Indian Reservation in Washington. Referred to

the Committee on Indian Affairs.

Frye from the Committee on Commerce reported the Tonnage Bill, and made a speech advocating it. He also reported the original Ocean vocating it. He also reported the original Ocean Mail Bill, and explained it. In respect to this bill he said he knew that if the bill passed, within three years first-class vessels would be plying between New York and Liverpool, New York and the River La Platte in South America, and that two lines would be established between the Pacific Coast and China, Japan and Australia. He said they would be the finest lines of vessels in the world, and would be built by Americans, owned by Americans, and would carry the American flag.

Vest and Coke, from the same committee, announced their opposition to the bill.

WARRING PIONEERS.

the Boston Heraid is significant, but loses much of its weight in view of the fact that Captain Thomes, the President of the visiting society, is one of the earliest and best known of the California Pioneers, he having arrived here in Jauuary, 1843, by the ship Admittance.

The California Pioneers of New England, who started on an excursion to the Pacific Coast from Boston last week, 140 strong, were in Chicago Saturday, 11 had been bianned to spend six hours in the windy city, and "forty-niners" and "fiftiers" of that place had prepared to give them a royal welcome, but the train was four hours late and the "stop-off" was, therefore, curtailed to two hours. This merely gave time for a visit to the Auditorium, where verbal courtesies were interchanged. The tourists spent a few hours in Kansas City, Sunday, and then continued on their way to the Golden Gate via La Junta, Łas Vegas and San Bernardino. They will return to Boston about May 15th.

Referring to this party, a member of the New England Associated California Pioneers of '49 writes to the Herald under date Boston, April 12th: "The grand excursion to the Pacific Coast, under the auspices of the California Pioneers of New England, can scarcely be called a success, since only ten forty-niners went out with the party. If you add to these the thirteen names of those who went out to California in the fifties, you have got down to the bottom upon which the fame of this experiment rests to-day. Of the 150 ladies and gentlemen comprising the party, only twenty-three went to California during the gold-fever days, say from '48 to '54, the balance being "raw retruits" visiting the country for the first time in their lives. There are not far from 170 forty-niners now living in Boston and vicinity, and about twice that number who arrived in the country during the fifties, and yet out of this grand total of 500 names, only twenty-three could be induced to join the party and go out with it. To my mind these facts ought to be made known, if for no other reason than to pr made known, if for no other reason than to prevent the public from being misled, and the abuse of a name now too sacred to be trified with."

Then again the Secretary of the Associated Pioneers lashes himself into a fury, and, with a great deal of frony, unburdens his feelings in the following manner:

Associate: That portion of the above statement, claiming to have been written by a member of this society, was most likely based upon the published list which was issued by Raymond & Whitcomb on the day of its departure. As an excursion of California pioneers, it has turned out a fizzle and a sham.

sham.

Personally we do not care, neither does Boston care, whether this intensely advertised excursion was a misrepresention from the beginning or not, but we do care for the open-hearted people of the Golden State, who are making such efforts to entertian these hours 149 ares. but we do care for the open-hearted people of the Golden State, who are making such efforts to entertain these — bogus '49ers! Well, my dear boy, there is lots of fun in this world, and heaps of fine music, but for effective work give me the horn that sells the fish. Faithfully yours,

The soclety of which Mr. Spurr is Secretary.

The soclety of which Mr. Spurr is Secretary and of which Samuel F. Snow is President presents a roster of its membership, showing the names of forty-six persons, with the date of their arrival in California and their places of present residence. Heading the list is the name of Mrs. M. Sinclair, who lives in Boston, and who came overland to California, arriving here in December, 1843. The other names are given in the order of their coming, and close with that of Alexis Torrey, who weathered Cape Horn in the ship Boston and landed here in November, 1849. It is evident from this that they are what they claim for themselves—genuine Argonauts—but it is also clear that the society beaded by Captain Thomes is similarly constituted, and this renders it a little difficult to understand the nature of the touble existing between the two bodies. bodies.

Captain Thomes stated a few days ago that In his party were sixty-five ploneers, and it is not within the bounds of probability that he erred at all in his statement. Further developments will be watched with interest.

The Visiting Pioneers Have Departed for San Jose.
The visiting Pioneers left for San Jose at 9:30 o'clock yesterday morning, after a stay of a little more than four days in this city, and will turn their faces homeward to-morrow. During their visit here they have taken a thorough inspection of the city and its many beautiful suburbs, and expressed themselves as highly pleased with what they had seen. The wonderful improvements which had been made during their absence struck them with wonder, and they will return to their homes with minds filled with the wonders and beauties of San Francisco.

FIRE IN STRAW.

Water and Smoke Play Havoc in a Market-Street Bazaar. At 11 o'clock last night Police Officer Janes saw a heavy volume of smoke pouring up in front of Henry H. Pinkiert's bazaar, at 937 to 941 Market street, and he turned in an alarm The street was blocked for over one hour, until the fire was under the control of the de-partment. The fire was confined to the base-ment, which was filled principally with crockery and straw for packing.

The damage to the goods in the upper floors by smoke and water is believed to be very great.

That loss is estimated by Mr. Plukiert at \$25,000, but is covered by insurance. The building is owned by Mrs. Donahue.

THEY FINALLY BROKE THE ICE.

Senators Win Their First Game in This City.

Stockton Was Unable to Hit Cobb and Lost to the Colonels.

Games of the National and Players' Leagues and the American Association on Eastern Fields.

Special by the California Associated Press.

The Sacramento team yesterday won its first game this season on the Haight-street grounds, and although the home players opposed the Senators the majority of the spectators were pleased to see the victory go as it did. It was a case of sympathizing with the under party in the fight. and the crowd yelled with delight when the tailenders took the lead. Hard hitting, however, did not give the game to the visitors. They seldom found Lookabaugh's curves safely and earned only one of their seven runs. Their fielding was better than that of the Friscos, although the latter have two errors less, and the work of the team was of a very high order.

Reitz, the young second baseman of the nine. showed a wonderful talent for blocking everything that came near his cushion, and in one instance stopped a hit within fifteen feet of first base. The ball was too hot for him to hold and the better reached first, but the "block" prevented a run from being scored. The style in which he handled the catcher's throwing was simply faultless. When a steal was attempted Reitz ran down to the base, secured the ball as It traveled toward center, and then with a quick. graceful motion brought it down lightly on the runner. Four times did this scene occur, and before the cloud of dust around the bag had cleared away the stentorian toned umpire called "You're out." And Sheridan yelled in such an emphatic way that the discomfited player knew there was no chance for a "kick." Bowman's throwing was splendid. He would have preferred to play on the bench yesterday on account of illness, but acceded to the wish of his manager and went behind the bat. He has a deceptive way of putting the ball down to second. There appears to be little force in the impetus he gives the ball and it seems to get through space slowly, yet all the time the sphere goes at a rapid rate. Two base-runners were fooled yesterday after getting a good start on the ball, and endeavored, when too late, to make up for time lost in checking their pace on the

Two New England Societies Who

Set Up Rival Claims.

The recent visit of the New England Society of California Pioneers has brought to light the fact that they have a rival in a body known as the New England Associated Pioneers of '49, and it is evident from a perusal of several documents received in this city that the two societies are not on the most friendly terms. The reason for this is not quite plain, but the organization of the excursion seems to have provoked a wordy opposition on the part of the officers of the rival society. The following from a recent issue of the Boston Herald is significant, but loses much of its weight in view of the fact that Captain Thomes, the President of the visiting society, is one of the earliest and best known of the California Pioneers, he having arrived here in Jaunary, 1843, by the ship Admittance.

makes its stronghold. Once established, it eats into the very vitals, and renders life but a long-drawn breath of misery and disease, dulling the sense of hearing, trammeling the power of speech, destroying the faculty of smell, tainting the breath, and killing the refined pleasures of taste. Insidiously, by creeping on from a simple cold in the head, it assaults the membranous lining and envelopes the bones, eating through the delicate coats and causing bones, eating through the delicate coats and causing inflammation, sloughing and death. Nothing short of total eradication will secure health to the patient, and all alleviatives are simply procrastinated sufferings, leading to a fatal termination.
