J. B. Mulcaby declared that the citizens may rest assured that the committee was organized for the campaign, and to clinch his statement he said that the rent of the rooms had been paid for another month. Confidentially he remarked that the people were dubious about the intentions of the committee because it had no ticket in the field, but he said the members were satisfied with some of the names indorsed by the Republican County Committee, and were content to wait until the time would come for taking further and decided action where dissatisfaction was felt. He apprehended treachery in the camp, although the belief was pretty general that harmony had been restored in the ranks, and he threatened that if any double game was played, the Republican County Committee "would be put in the sewer," to use the words of a friend of his. He pointed to the roll, which contained 3000 signatures, and then said that if there was any trouble he was certain the regular Democratic County Committee, the Federated Trades and his committee would unite to elect a citizens' ticket. He scouted the idea of the abolition of his committee, and said that the harmony now existing was produced by a higher power, but if decent men are not sent to the convention then the business men will make a

had come with the object of witnessing a wrangle. Mr. Chamberlain, Chairman of the committee, said, after the usual routine of the opening of the session: "I can state with almost absolute certainty that all differences between the Pioneers and Native Sons will be amicably settled before a week. Let me request you to make no allusion to the matter during this evening's session, and to act as a dignified body with a worthy

purpose in view." The committee appointed to thank Governor Waterman for having proclaimed an extra holiday was discharged, its work having been accomplished.

A CONFERENCE DESIRED. The Conference Committee reported that it would like to have a conference with the Pioneers to state to them why their support is wanted and needed. Such conference, the report added, has not yet been held. The committee asked that the Chairman of the Joint Committee, Mr. Chamberlain of the The Pacific Coast Amateur Athletic Association met in the parlors of the Olympic Club last evening. A good deal of talk was had regarding a programme of games which will be carried out at Sacramento during State fair week.

THE MASCULINE GIRLS.

The World Can Stand Most Anything They Do Nowadays. The woman of to-day is unique. Such a type was never known before. Now that she has decided to ride horseback manfashion, she aroused so much alarm that a society has been formed in England for the

purpose of checking her headlong career purpose of checking her headiong career toward masculinity. The world can stand the modern girl when she wears masculine shirts, collars, cuffs, cravats, gloves, boots, jackets, ulsters, hats, rings, umbrellas, waistcoats, and even a single glass; but when she proposes to straddle a horse there is a sudden jerk backward, writes Blakeley Hall to the Illustrated American. The American girl Backward, whites Diakeley Hall to the Hillustrated American. The American girl has the fad. For some inscrutable reason she has a rabid desire to lay hold of her beauty and compress it into the semblance of a brick. The purpose of her life is the abolition of the curve. The soft, graceful and symmetrical lines of the symbol of absolute beauty—the un-trammeled figure of a beautiful woman are squeezed and forced into the rigid and wooden form of men's attire. With the nasculine clothes has come a grenadierlike carriage and a manner that is every-

hing but feminine.
In England the desire of women to ride men fashion is not a half-hearted one at all. They claim that they are handicapped by the side-saddle in cross-country riding. They are lighter in weight and often more daring and skilful than men, but owing to the difficulty of riding a fractious or ugly horse with a pummel saddle, they are nearly always behind in the dangerous runs across country which the fox-hunters take.

Women forget the advantage of the opposite say in greater length of limb. Vet it is

I have seen plucky women in the hunting countries of England, and more notably in Ireland, who rode fiery and powerful 16-hand hunters over the stiffest country with perfect ease. They were often small women and they could not have clung on their horses' backs 10 minutes without a pummel to grip in the jumps .-

a fresque isic (sie.) school the other day to write names of five persons of whom they had read. The question was a poser for most of them, but one rose to the occasion and handed in a list. He was told to read it and did so as follows: "The Lord, George Washington, Buffalo Bill, Dr. Boone, Mrs. Willard." In answer to a question, he further explained that Dr. Boone was a man who went out West among the wild Indians.

The swift-running elevator is one of the curiosities of the present time. The competition of builders and experts has succeeded in accelerating the speed until in some instances it has reached 500 feet a minute. A few years ago 200 feet was considered very rapid traveling. It is encouraging to hear from an expert that there is not much actual danger in the modern swift-running elevator. If an accident should happen the advice is to keep cool and remain still until the car reaches the end of its journey. Then it will stop quietly of its own accord.

Attorney Alfred Clarke filed a petition for a writ of habeas corpus in the Supreme Court yesterday in the case of Ab Fong. who was convicted and fined in the Police Court for having a lottery ticket in his pos-Court for having a lottery ticket in his possession. The petition contains the usual grandiloquent allusions to the American Constitution and the Declaration of Rights generally quoted in the extraordinary legal documents of this very original attorney; but the chief reason alleged in the verbose petition appears to be that the order, No. 1857, under which Ah Fong was convicted, is invalid.

Society of Old Friends. The regular monthly meeting of the So ciety of Old Friends was held at Lafayette Hall, 508 Bush street, last evening. Charles H. Gough, President; J. H. Gilmore, Secretary.

Phil Hartman, Treasurer, offered his report, showing a balance in the General Fund of \$365 15, and in the Cemetery Fund \$195 65.

Addresses were delivered by President C.
H. Gough, Dennis Flynn, H. McCausland, Dr. F. F. Lord, Tom Sawyer, John H. Gilmore and others. James McKinley was elected a member of the Board of Directors.

Too Old to Go There. In view of the fact that a very large majority of the Pioneers are in favor of acting in conjunction with the Native Sons, and it being the wish of the Pioneers that the Native Sons and the public should know who the obstructionists are, the following list of names of the thirty-eight who voted against appointing a conference committee to meet with a similar committee from the

FEDERATED TRADES.

Investigating Violations of the Eight-Hour Law.

The Coopers Again Prefer Charges Against Fuhrman-A Change of Headquarters. Reports of Labor Unions.

At the meeting of the Council of Federated Trades last evening President A.

Fuhrman occupied the chair. In a communication the Federated Trades Assembly of Portland, Oregon, stated that it is heartily in favor of urging a renewal of the anti-Chinese agitation and in favor of pressing the Pacific Coast representatives in Congress to secure the passage of a law to enforce the national eight-hour system. The communication also stated that a telegraphic protest had been sent to Washington against the passage of the proposed Federal Election Bill. Messrs. Taylor and Deckard were seated

as delegates to the council from the Millhands' Association. A report was made by the committee ap-

pointed to visit the retail shoe-dealers, who have refused to join in the clerks' early closing movement. It was to the effect that some of the shoe-dealers are determined apparently to maintain their ground in holding out against early closing. FROM A SEWING GIRL. A communication was received, signed

'A Sewing Girl," requesting that the council use its influence to better the condition of hundreds of sewing women in the city, who, the writer claimed, are oppressed. It is set forth that the working girls are doing mostly piece-work, but they are never-theless called upon to work full hours. Those girls who run sewing-machines are assessed 25 cents for the power to run their machines, and they have to pay for all repairs, besides lose their time while the repairs are being made. The girls' wages are said to be as low as those paid Chinese. The average wages for the wonen are \$4 a week, while the men employed it the same work receive much higher pay. A telegram was next read from L. Craroft, the Secretary of the Salt Lake City Federation, stating that a strike is in prog-ress in that city among the plumbers, and warning all San Francisco plumbers to stay away from there.

FROM BRITISH COLUMBIA. A long communication was received from John Horribin, District Secretary of the Miners' and Mine-laborers' Association of Vancouver, B. C., stating that there is no change in the lock-out in the Wellington mines, owned by Dansmur & Co. The niners are still very quiet and firm. Duns-nuir & Co. have served summons on the muir & Co. have served summons on the miners living in their houses to appear before court on the 17th of July and show cause why they do not vacate their homes. "That company," says the writer, "is not satisfied with not allowing workingmen the privilege to organize, but wants to turn men, women and children out into the streets to freeze to death, for you must be aware that this is a very damp climate. aware that this is a very damp climate, raining as it does most of the time, and men, women and children cannot lay out on the wet and cold ground. We have also temperance lodge here and some of our est union men belong to it."

"The consequence is that Dunsmuir & Co. have given the lodge notice to quit the hall, which is owned by them, on the 31st of July. That will give you an idea of what a tyrannical company we are in conflict with. * * * Don't take any notice of any statements made through the papers without my signature or our President's." LABOR DAY PARADE.

On the recommendation of the committee appointed to arrange for a proper celebra-tion of Labor day on September 1st, it was unanimously decided to have a parade of an imposing nature, and to hold a celebra-tion in the evening in a suitable place. Delegate Gannon of the Tanners' and Curriers' Union reported the death of William Barry, a respected member of his ciation. In regard to the trouble with the Benicia factory, a committee had waited upon the union, and proper steps will be taken to have proofs made out and a committee appointed to wait upon the Benicia firm and request that the foreman, who objects to union men working in the place, be discharged. A delegate from the Bench Carpenters reported trade good and that a mass meet-ing would be held in Irish-American Hall next Tuesday night.

From the Boot and Shoe Makers' White Labor League prospects for trade during the fall months were reported exceptionally Delegate Ark of the Coast Seamen's

Union reported that the officers of the last term were re-elected and that everything on term were re-elected and that everything on the water front is flourishing.

E. W. Thurman of the Typographical Union reported that L. J. Ewell, the dairy-man, had refused to cease patronizing the boycotted firm of Bacon & Co., and that he refused to recognize the rights of the council to boycott Bacon & Co. The council was asked to take steps to see Mr. Ewell and argue the matter with him. The subject was referred to the Executive Committee and Thurman gave notice that at the next meeting he would move to have a boycott

placed on the dairy. NINE HOURS A DAY. Delegate Gunne of the Brewery Work-men reported that the boycott on Welling-ton coal had been indorsed. The union had also decided to aid the shoe clerks to obtain shorter hours.

It was reported by Delegate Springer of the Plasterers' Union that the union had purchased 100 tickets for the Iron Molders' all and entertainment to-night.
Attention was also called to the fact that there are men working on the new City Hall nine hours a day, in violation of the law which limits the working time to eight

hours. He moved that a special committee be appointed to investigate the matter.
Mr. Finnerty amended to refer it to the
Executive Committee.
Peter Roberts of the Plasterers' Union said that the bricklayers, painters, stone-cutters and carpenters are working nine ours a day and are violating the law. The plasterers employed at the hall are "scabs,"

Mr. Finnerty's amendment was lost and the original motion to appoint a committee of three was carried. Messrs. Pye, Bush-nell and Thurman were appointed to wait upon the New City Hall Commissioners in regard to it.

The retail shoe clerks reported that only

one dealer is holding out against early hours, and the delegate reporting the matter asked that the Executive Committee wait upon the firm. This dealer is trying to form a combination to break up the clerks' movement. A motion was carried that the matter be referred to the Executive Committee with power to levy a boycott against all dealers who refuse to assist the clerks.

It was resolved to remove the headquarters of the federation to the shoe makers' headquarters, corner of Second

and Mission streets. COOPERS' AGREEMENT. The Coopers' Union sent in a communication calling the attention of the council to a sworn affidavit, which was inclosed, and also setting forth that Mr. Fuhrman, the agent of the Employment Bureau, has not treated some coopers in a proper manner. It further states that there is an agreement between the council and the journey. ment between the council and the journey men coopers to the effect that the first on the employment list shall be entitled to the

first position if he is capable of filling it. This agreement, it is stated, has been violated, and the coopers desired the permission of the council to manage their own employment office or else have the council appoint another man, as Mr. Fuhrman is continually causing dissatisfaction among the coopers.

the coopers.

The affidavit is sworn to by Franz Herzog, who says that he went to the office of the Brewery Workmen's Union to obtain employment as a cooper in the Fredericks-burg Brewery in San Jose, and that Mr. Fuhrman gave him no satisfaction, saying that for certain reasons the applicant could not have the position at San Jose. President Fuhrman in explanation of the matter said that Herzog was not first on the matter said that Herzog was not first on the list and that he had told Herzog that he better not go to San Jose, as there is a prejudice against him there, because he had spoken favorably of a "scab" named Walz. Herzog then said he was glad that Mr. Fuhrman had told him of the matter. Mr. Fuhrman had refused to tell Herzog who the men were that had told him about the Walz matter.

Walz matter.

A special committee of five was appointed to look after the matter and investigate it thoroughly. Messrs. Mullen, Meanwell, Phillips, Pye and Schmitz were so appointed.

Molders' Union.
At a meeting of the Molders' Union last night the chief subject of discussion was the ball. Favorable reports had been received from all sources. The following donations for the Strike Fund have been received during the week: Iron-molders' Union, Decatur, Ala.; Coast Seamen, San Union, Decatur, Ala.; Coast Seamen, San Francisco; Journeymen Butchers, San Francisco; Fulton Foundry, Virginia, Nev., Hod-carrier, Seattle, Typographical Union, San Francisco, \$600; from the Ironmolders' ball fund of Sacramento; Ironmolders of Portland; Tanners and Curriers, San Francisco; St. Louis Pattern-makers.

The union has beard encouraging news The union has heard encouraging news from Detroit, and is anxious to fight the strike to a winning. Friends abroad are supporting the strike in every way possible

Carpenters and Joiners. The carpenters and joiners had a largely attended meeting at Odd Fellows' Hall last night. There were fourteen initiations and twenty-three applications for membership. The union bought 600 tickets to the ship. The union bought door tickets to the molders' ball at 50 cents each and destroyed them at once. They will attend individually, each member buying his own ticket. A proposition was made to assess every member \$1 a month for the benefit of the striking molders. It will lie on the table for a week. Delegate P. M. Wellin will start for the Chicago convention on Wednesday. A communication was drawn by the Secretary notifying the Chief of Police that many carpenters' tools are being stolen.

Molders' Ball. The Joint Ball Committee met on Second and Mission streets last night. They report that everything pertaining to the ball is favorable. Provisions and liquors in abundance have been donated. They have heard from enough unions to insure the sale of 15,000 tickets to the ball. The committees will meet at the Pavilion at 7 o'clock to-night.

Longshoremen.

John Cooney, a member of the Longshoremen's Union, has been missing for four days. The matter was brought to the attention of the union at Drew's Hall last night, but facts about his last acts are mea-ger. His wife is almost distracted. Two hundred tickets were bought to the molders' balt.

Upholsterers' High Jinks. The Upholsterers' Union held high jinks at their meeting-rooms in Music Hall last night, in commemoration of the installation of officers, which took place early in the evening. Songs, speeches, instrumental music and general jollification were the order of the evenings. der of the exercises.

Steamship Stevedores. The steamship stevedores met at Irish-American Hall last night and donated \$100 to the molders. They say they will attend the molders' ball 400 strong. On August 31st they give a picnic at Badger's Park.

GOOD FOR WINE MEN.

The Rosy Liquor and Raisins of Califo J. B. J. Portal of San Jose and George Husman of Napa have been chosen delegates from the Grape-growers' and Wine makers' Association to the State World's Fair Convention. Regular monthly meetings of the association will be suspended during the next three months, as the wine men will be very busy during that time.
The present outlook for the wine industry is reported to be good.
A cargo of about 209,000 gallons of California wine was quite lately shipped to New York by the vessel M. P. Grace. The wine shipments East so far this year have been estimated at nearly 3,000,000 gallons, which is a large increase over that of the

previous season. Dried wine-grapes are in great demand East, and good prices are expected this season. One commission man says he will willingly pay at least 3 cents a pound for the crop. The highest price last season for the crop. The highest price last season for this cheap raisin product was half a cent less than this offer. One local firm has orders for nearly 100 car-loads.

NOT TO BE TEMPTED.

Ah Guy Tries to Bribe a Policeman and Finds He Is Not in It. Another Chinaman finds himself in trouble for trying to do things "alle same Melican man." An Guy, and he seems to be a guy in fact as well as name, was arrested yesterday morning by Officer J. F. O'Shea for peddling without a license. The Mongolian had heard that money or a "pull" would help a man out of almost any scrape. As he lacked the necessary vote to give him any show at a "pull" he tried the money dodge, but Officer O'Shea happened not to be that kind of a policeman and now Ah Guy's name ornaments the big ledger of the Southern Police Station oppo-site two charges instead of one.

In the case of I. N. Choynski, editor of the Public Opinion, who was convicted of attempting to blackmail Obadiah Livermore, bail was set yesterday at \$5000. During the day Choynski received his friends at the County Jail and said confidently that his bonds would be ready by the evening and that he would then no longer accept of Sheriff Laumeister's hospitality. Choynski's premises were correct, for at 10:30 o'clock last night he was released on bonds in the stated amount, accepted by Superior Judge Rearden.

A Savage Husband. Timothy Godsil and Margaret, his wite, jointly keep a little grocery at 2911 Harrison street. Although in business and connubial partnership Timothy and Margaret frequently have savage family quarrels. The climax was reached yesterday when Godsil assaulted her with a knife The better half escaped injury by running away and last night the liege lord was resting himself behind the bars of the Seventeenth-street Police Station.

On Duty Again. Chief Deputy Surveyor Varney W. Gaskill reappeared at his desk yesterday in the Custom-house and was warmly greeted by the boys in the office," who have been much concerned at his illness. A huge bunch of flowers ornamented the top of his desk, placed there by his friends to show their satisfaction at his recovery.

How can I relieve this distressing muscular rheumatism?

DOCTOR. By being regular in your habits, eating and drinking only what you need. If the intestinal action is sluggish take a course of cathartics or some form of diuretic water to carry off the wastes of the body through the kidneys.

Can I apply nothing to the painful muscles themselves? DOCTOR. Yes, have them rubbed thoroughly, frequently, and fervently, using some soothing lotion. I like POND'S EXTRACT for such conditions, and it will

promptly take out the soreness. Pond's Extract is ALWAYS sold in bottles with BUFF wrapper. Accept no substitute. Made only by Pond's Extract Co., New York and London. Beware of imitations. MISCELLANEOUS.
