A NEW LINE TO OPEN MAY 1.

The Southern Pacific Will Not Grant the Petition of the Unemployed for Free Transportation.

Times will be lively from now on until the 1st of May down about San Luis Obispo, where the Southern Pacific Company is extending its road from Santa Margarita. H. E. Huntington said yesterday that the company will prosecute the completion of the work with vigor, it being expected that 2000 men would be given employment in order to finish the work by the time mentioned.

There are only sixteen miles of unfinshed road between Santa Margarita and San Luis Obispo, but the road to be completed is a difficult piece of work. There railed, and the grading alone of the line railway company has under discussion a will cost about \$1,500,000. Some weeks proposition to build a number of new cars, ago a large decrease was made in the force of men employed, the cause being a scarcity of money; but now it appears that difficulty has been supposed a large decrease was made in the regard to the matter.

W. A. Bissell, general passenger and freight agent of the Atlantic and Pacific difficulty has been surmounted, and many of the now large army of unemployed about the city may be able to secure em-

ployment.

Every effort will be made to have the work done by May 1, and in the event of success a celebration is to be held in San Luis Obispo in honor of the achievement. From Elwood, the present terminus of the Southern Pacific, northern division, to San Luis Obispo work will probably finished will form one of the most delightful routes on the coast. It will follow the ocean line for almost the entire distance between the points named, and will protected. ably become the most popular route to Los Angeles and the south from this city.

The body of 100 or more of the unemployed who, through the Salvation Army, have sought to obtain free transportation to New Orleans or other southern points, will not succed in their effort. It may seem hard-hearted in a railroad corporation to refuse giving a ride to an honest man who is out of work. but when you recollect that it is not on man alone but thousands of them who are in this position you may in a measure realize the predicament a company would be in which gave way to sentiment."

Some complaint having been made about an insufficiency of cars on the Haight-street line Sunday, coupled with the state-ment that there were not as many in ser-vice as usual, H. E. He stated that just as many cars were run on Sunday as ever were run and that although travel might have been somewhat congested at one or two points for short intervals during the day the company was able to handle the crowds in a successful and satisfactory manner. ALL WANT A CLEAN PRESS.

A Mass-Meeting That Will Overflow Into the Street-Speeches of Five Minutes.

"Signatures to the petitions are pouring in," said a lady prominent in the women's movement for a purer press, when asked yesterday by a CALL reporter how the work of the committees was progressing. "It is perfectly wonderful how women of every church and nationality, I may say, have come forward to help. All the women's organizations and social societies seem willing and glad to give the movement their support. The way in which champions seem to have sprung out of the earth, so to speak, really reminds one of the old fable of Cadmus and his armed

warriors.

"You can say if you like," added the lady laughing, "that the papers which furnished sensationalism sowed the dragon's teeth, and now, like Cadmus, they find in their place a mass of warriors. "You must not think though that our ladies want to fight. They are carrying their work forward in the most friendly and conciliatory spirit toward the press, but they are finding how much this reform was wanted. The enthusiastic way in

which women restond to the movement shows this. So far I have only heard of one signature being refused."

The ladies' energy is not only manifested in San Francisco. Committees visited near-ly every church in Oakland last Sunday. out they would find the ladies presiding over tables in the vestries, where the pe-titions were spread out all ready for signa-

A number of young girls were anxious to fortify the petitions with their names, but they were told that those under eighteen were not considered to have reached years of discretion, and were therefore refused the privilege.

The ladies reported on Sunday night that only twelve refusals had been met with in the whole of Oakland.

AS TO HIS MIND.

Dick Ward Is to Be Tried First for Insanity.

Richard Ward, the jockey accused of the murder of John Kelly at the Bay District murder of John Kelly at the Bay District track, was to have come up for trial in Judge Daingerfield's court yesterday.

However, when the case was called the defendant's attorney, James H. Long, adressed the court respecting the mental condition of his client. He maintained that Ward was insane and that the proper course would be for a jury to pass upon his sanity before proceeding to a trial on the serious charge pending against him. the serious charge pending against him.

Judge Daingerfield said that in order to proceed with such a case it would be necessary for some one to lodge a formal complaint against Ward, and for an affidavit to be filed. to be filed.
"I have filed such an affidavit, your Honor. I will myself testify," said Mr.

The Judge agreed to this, and Long, being sworn, said that since he had taken up the case he had been unable to get an answer from Ward to any question put to him. Ward would say, "Why am I locked up here?" and then lapse into sullen silence. It was noticeable in the courtroom that the lad had sat with his head bent almost to his knees all the time and appeared to

take no interest in the proceedings.

Judge Daingerfield thought the evidence sufficient, and ordered the trial on the insanity question to proceed without delay.

"I must ask for time," said Mr. Long. "I "I must ask for time," said Mr. Long. "I was not sure that the court would grant my motion and I am unprepared."
"You've had three months to prepare your case," said the Judge. "The trial must proceed at once."
"Then I withdraw from the case," said Mr. Long.

Mr. Long.
"All right, sir," returned the Judge. "I appoint Attorney J. T. Smith to undertake the defense.

Dr. Titus, superintendent of the hospital, was seen yesterday by a CALL re-porter and appeared to be at a loss as to what measures to take in his present pre-
