He thought that the enthusiasm manifested showed that the Twenty-second Senatorial District was prepared to give Boss Burns the hardest kind of a fight.

Mr. Lewis eulogized Mr. Estee and the rest of the State ticket. He thought it was a strong one and ought to win, providing Dan Burns would keep his face out of politics until electin day.

The next speaker was Adolph Sutro, candidate for Mayor, who said:

Five weeks from now the people of San Francisco will be called upon to decide whether we shall hereafter be slaves or freemen, whether we shall elect a set of officials who wear the collar of the octopus or such men as are patriotic citizens who have the welfare of the commonwealth at heart.

there were no other candidates in the field
Mr. Firebaugh's nomination was made

Mr. Firebaugh thanked the convention

but, unfortunately, the Non-Partisans divide the people's strength with the Populists. Let a last effort be made to favor a fusion of the two parties and present but one ficket so far as the municipal election is concerned. That would unite the people against the common enemy and a good, honest, unright local government would in all probability be secured. Drop petty jealousies and rivairies. Let your patriotism rise above private interests and the good to the country will be the result.

Many people say they and their fathers have always voted the Democratic or Republican tickets, and they are going to vote it this time. Such men do not reflect. Both these parties are simply used by the common enemy as stoolpigeous to carry their ends.

What have the national principles to do with our local Government? The question to be decided is, Are we to be slaves or free men? Are we to be robbed or have a good honest Government? Those are the questions which affect our welfare and our very existence.

If we carry this election it will go a long ways toward defeating the funding bill next winter. C. P. Now, as long as I am a candidate I will say something about myself. I have lived in California forty-four years and have employed thousands of men, but I have never yet employed a Chinama.
