Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excesses of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty cent and one-dollar sizes.

You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Heartburn.

When the quantity of food taken is too large or the quality too rich, heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicate that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by Anderson Drug Co.; Shorter, Darlington Heights.

IMPROVING THE FLOCK.

How to Introduce New Blood Without Going to an Unnecessarily Heavy Expense.

In buying new blood one needs to use judgment. For instance, if one intends buying cockerels they should be purchased early in the fall, when poultry breeders have a surplus of male birds and can sell cockerels for grading purposes very reasonable, says a writer in the Poultry Herald. Then, it has a large flock of common hens and does not intend to separate them in the breeding season, enough cockerels can be purchased to mate with the entire flock, for if there are any mixed roosters kept in the flock there is more liability of the hens mating with them than the strange males. As an example, a case just recently brought to our attention, where a farmer bought two pure-bred males to run with his farm flock and kept also two of his own roosters in the flock. His two males fought the pure-bred ones so that they would not stay among the hens.

Care for Cholera Infantum—Never Known to Fail.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child was more vigorous and healthy. I have recommended this remedy frequently and have never failed to fail it.—Mrs. CURTIS BAKER, Bookwalter, Ohio. For sale by Anderson Drug Co., Shorter, Darlington Heights.

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat trouble, give it a trial for it is certain to prove beneficial.

Coughs that have resisted all other treatment for years, have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that the elixir of famous health resorts failed to benefit, have been permanently cured by its use. Bear in mind that every bottle will contain the best possible medicine.

Cuts and bruises are healed by Chamberlain's Pain Balm in about one-third the time any other treatment would require because of its antiseptic qualities which cause the parts to heal without maturation. For sale by Anderson Drug Co.; Shorter, Darlington Heights.

Buzzings from BEEDOM.

Extracted honey will lose flavor quicker than honey left longer on the hives.

If the queen bee be clipped or kept in the hive by an entrance guard, the workers will kill her.

Clipped wings will not prevent swarms from going to the woods. Neither will entrance guards prevent it.

Grafting or inoculating larvae in the queen cells was practiced first by a German apiculturist, Meierling, in 1866. He was first, also, to use comb foundation.

Moth eggs call for sulphur or bisulphide of carbon. The sulphur will not kill the eggs, but the bisulphide will. Either will be effective after the moth passes the egg stage.

Alfalfa, alsike and buckwheat may be considered standard crops for bees. Sweet clover is also a good crop for honey. These crops are valuable for forage, and thus ought to increase their planting. Surely, every farmer, who has a number of colonies of bees, will find these crops double yielders, giving both honey for the bees and forage or grain for other uses.—Ella Heaton, N. Y. Farmer.

No apiculturist has yet come to earth who can make his sections average just a pound of honey. Last season I weighed every section I sold, and not a single one in all the number weighed just a pound. They are sized to average a pound in weight, but the bees do not care for accuracy in this matter. When they get through with them they leave it, whether the unfilled cells are one, or five, or 20.—Rural World.

Boy's Essay on the Hen.

A hen is an animal made by the Creator of the universe, which is covered with feathers, and has a bill. The hen stands on two feet, except when she is tired, and then she stands on one, and eats corn with her bill. When the hen sits, she sits down to lay, and when she lays down she lays down to set. The hen's eggs are good to eat unless they have been set on.—American Farmer.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogan, of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by White & Co.; R. J. Carter, of Prospect, druggist.

It doesn't do you any good to kick if somebody else is going to get the benefit of it.
