The annual millinery opening of G. A. Dreka & Co. is always an event of great interest to the ladies of DeLand and surrounding country. This year the opening will take place on St. Patrick's day—March 17. THE NEWS is not allowed to tell of the many fine creations to be shown—but this we may say: The ladies will find them in large quantity, in most excellent quality, and at reasonable prices. There are hats that even your worst-half must admire and the bill for which, contrary to the general rule, will bring smiles to his face. Call at Dreka's on the 17th and Miss Peden and her assistants will tell you the rest of this interesting story.

One of the largest meteors which has visited this section in several years was seen Monday night about eight o'clock. Starting from a point about thirty degrees above the eastern horizon, it passed directly overhead and descended nearly to the western horizon, leaving behind it a brilliant trail which lasted several seconds after the meteor had vanished. The aerolite did not explode, so far as could be seen, but faded out as it approached the west.

The most popular phone today is No. 33—which connects the outside world with Agent Powe at the depot. The A. C. L. officials were petitioned by DeLand people to install this phone, and very promptly complied with the request.

Mr. E. B. Solomon left yesterday for his home in Dayton, O., and will spend a few days in Jacksonville and Thomasville en route. Mr. Solomon spent several weeks in DeLand, and passed the time very pleasantly in our balmy sunshine. Mrs. Solomon remains here a few weeks more before returning home.

At this writing she is doing as well as can be expected, and if her old age is not too much of a handicap, she will get over the fall and shock.

Death of Dr. Porter.

Rev. J. C. Porter died at his home in Ocala the first of the week, after years of suffering from consumption. Mr. Porter was one of the best known and most generally respected Baptist ministers in the state. As owner and editor of the Baptist Witness, he made a success of the paper and increased his acquaintances throughout the state. While a great sufferer from disease, and bed-ridden, the past year of his life was embittered by vile, false attacks made on him by one or two of the state papers. His friends now hope that he is in heaven, where his traducers will never bother him again.

He has traveled in China, Japan, Corea, Mexico and Brazil, and though a man of great learning, his chief distinction is that he loves to preach the "Gospel of the Kingdom." His present superintendency includes the Florida Annual Conference which was held in December at Lake City. He has recently returned from Cuba.

Stetson University**Brief News Notes**

Miss Edith Merry was the hostess Friday evening at a charming little party given at the Blue Lake club house. As the weather was a little inclement supper was served inside the house, which was made very cheerful by a big fire in the fireplace. After supper the piano and other musical instruments were kept busy, and the room rang with college songs and cheers for the hostess until only two soon the bus arrived to carry the party back to town. Those present were Mr. and Mrs. Sears; Misses Ashley, Ingals, Louise and Ivy Brown, Emery, Spaulding; Messrs. Buck, Walker, Oates, Wickersham, Lyons, Cheeseboro and Colton.

Miss Bessie Porter was suddenly called home on Saturday by a telegram announcing the illness of her father. Before she could reach home, however, Mr. Porter had died, having been in a more critical condition than was supposed. Mr. Porter had been ill some time and his friends really did not expect him to get better, yet the blow was no less sudden nor will his loss be less felt. He has been for some time field agent of the university, and in this capacity has done good work in getting students. As students we wish to extend our hearty sympathy to his bereaved family, and to express our appreciation of the good and lasting work Mr. Porter has done in this state.

Miss Caroline Gregg of Cincinnati, who was professor of short-hand here last year, arrived in DeLand on Saturday with her name changed to Mrs. Murray, and with her husband spent Sunday at the College Arms. Mr. Murray is a prominent business man of Daytona, and the newly married couple will make that city their home.

Owing to the fact that the seniors ate too much at the banquet Friday night, and thus were not able to appear Saturday morning, the ball game between the two law classes had to be postponed. Several unkind persons have insinuated that the seniors had no intention of playing and were only bluffing, but we feel that this is doing them an injustice and that they will come out and play even if they have no chance of winning.

Miss Edith Merry was the guest of Miss Catharine Cochran at dinner at the College Arms Sunday evening.

Miss Pearl Spaulding is now a resident of Chaudron Hall.

The college play, "Prince Otto," for the benefit of the Athletic Association, will be given in the auditorium next Friday night. Those taking part have been rehearsing every day, and from the ability of the performers this number will probably be the best of the course.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case they fail to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & Co., Toledo, O., sold by all druggists. The Hall's Family Pills are the best.

CLEVELAND BUILDING, DeLAND, FLORIDA.**Tendencies of the Time.**

Personal luxury—vulgar, ostentatious, unesthetic—is rampant. Our men wear diamonds, sapphires, rubies in their ties, in their sleeve links, in their gold cigarette cases, in their matchboxes. Brutal ostentation is near to being the good form of today. Our women clothe themselves with reckless profusion. Life is murdered in every quarter of the globe to provide them with furs, with feathers, with the hundred and one gewgaws that have come to be considered essential.—Today

Roman Baths.

Every Roman had the use of the public baths on payment of about half a farthing. These were not such structures as we call public baths, but superb buildings lined with Egyptian granite and Nubian marble. Warm water was poured into the capacious basins through wide mouths of bright and massive silver. The most magnificent baths were those of Caracalla, which had seats of marble for more than 1,000 people, and those of Diocletian, which had seats for 3,000 people.
