The DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year; \$2.50 six months; \$1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

UNIVERSITY DISCUSSION.

For the sake of getting its name before the people The Citizen-Reporter of Lake City hopes to be lifted out of its obscurity by attacking The Sun and the people of Gainesville regarding the motives of our people in securing the location of the University of Florida in this city. The paper says it is a "real estate scheme," and desires the names of the interested parties. As to the sum Gainesville will realize out of the "scheme" we publish a part of the statement of Chairman Bryan of the Board of Control, to show how much it cost the State:

"The statement that members of the Board of Control will begin the erection of buildings at Gainesville is correct. At a joint meeting of the State Board of Education and the Board of Control the funds available were apportioned according to the needs of the four institutions. The sum of \$75,000 was appropriated for the construction of buildings for the University at Gainesville. Of this amount public spirited citizens of Gainesville donated \$40,000 in cash and bought the old East Florida Seminary property from the State for \$30,000, which, in the opinion of the joint boards, was 50 per cent more than it was worth, and besides donated a beautiful site containing 512 acres of land. So that of the appropriation made by the Legislature only \$5,000 will be used for University buildings."

Let the man of figures take his slat and pencil and figure out how much the State will lose by the transaction. Continuing, the statement of Chairman Bryan goes on to state:

"It is the expressed purpose of the board not to exceed the amounts appropriated by the State Board of Education and Board of Control in joint session in the erection of buildings at Gainesville, and if the article quoted from, as it seems a fair reading of it would lead one to believe, means that the Board of Control will begin the erection of buildings to cost \$1,500,000 before the Legislature of 1907 convenes, or if it means that the Legislature at its next session will be asked to make an appropriation of \$1,500,000, it has an exceedingly small foundation in fact. The Board of Control in August declined to accept a loan of \$100,000 tendered by Mayor Thomas of Gainesville and others.

"It is our purpose to stay within the appropriation, and how it could be gathered from anything that was said at the meeting of the board that an expenditure of this amount was contemplated I cannot conceive."

The land on which the University is to be located does not cost the State one farthing. Gainesville has paid the State for the old buildings it owned; has made a present to the State of \$40,000 in cash, and proffered a loan of \$100,000 to go ahead with the work.

As to the mercenary motives of those engaged in securing the University in Gainesville, the proposition is too silly for a person possessing a spoonful of gray matter in the top of his cranium to propound. The statement that the location of the University in Gainesville would enhance the value of property is a fact. The people of Gainesville expected when they secured the site for this institution of learning in our midst that it would be

so conducted as to prove worthy of the good people of our city and the State as well, and not a menace to the State as has been stated of its past record by a member of the Board of Trustees.

The idea was to have an institution in Gainesville that would induce people to come here to reside that their children might receive a thorough education, and as they must have homes in which to live, it would naturally enhance the value of real estate; and as the property in the immediate vicinity of the new University grounds would be most desired, on account of the moral and educational atmosphere of that locality, the owners must either refuse to sell or enter into "a real estate scheme."

The Buckman bill has made our public school the best it ever was, and the Buckman bill, with the wise judgment of the State Board of Educational Control, will make the State University located at Gainesville the best in the South. It is needless to waste time or space in The Sun to set forth the advantages of Gainesville—in every way superior as a city for a refined educational center. We will save our pearls.

But since our interrogator has proven himself so apt in asking questions, we wonder if he can answer a few as well:

When the Buckman bill came up in the Legislature, how much did Lake City do to aid the measure?

How much did the men who pushed the measure expect to realize out of the new University under the Buckman bill located at Lake City?

How much do the promoters of the measure claim Lake City has lost by failing to secure the new University in that city?

Was the University ever a success as an educational institution at Lake City?

Was the value of the real estate purchased at that point enhanced in the least when the State purchased the land at an exorbitant price?

To ease the top-piece of the inquisitive editor at Lake City, we will state that the University has as fine a site as could be found in Florida without, money and without price, and if any people desire to locate in Gainesville for the purpose of educating their children—preferring a healthy location and good schools, that is a legitimate transaction of their own—should they buy real estate, and, judging from the lively movements along this line, it would be a hard matter to stem the tide at the present time.

Gainesville will always be known as an educational center, a city of business men, and you cannot deprive them of legitimate business methods or down "the Gainesville spirit."

SUNSTROKES.

The stores being kept open in the evening makes the streets have a more cheerful appearance, even if the clerks do wear a frown.

"What's your business?" he asked. "Trying to save enough money during the month to meet my obligations the first of the next one," was the reply.

"Do you drink coffee?" a lady asked a gentleman whom her husband had invited to dinner. "No mam, I board," was the response.

It is very easy to give way to temptation, but it takes a man of some stamina to say no, when he is being tempted.

There will be more sunshine in Florida this winter than usual according to all the signs of the times. This will be good news to Northern visitors.

Throw a bunch of thistles down to the editor of The Citizen-Reporter at Lake City, and see if that will not quiet him.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.

A new weekly paper will make its appearance at St. Augustine on or about November 17th. The St. Augustine Meteor is the name of the new aspirant for public honors, and Senator E. W. Zim of that city will be the man at the wheel. Senator Zim is a man of sterling worth and his prospectus announces that "The Meteor will reflect pure and undefiled Democratic doctrine and will ever menace antagonism of whatever character to a government—National, State or Municipal—of, for and by the people." Those who are acquainted with Senator Zim will know that they "have nothing to fear for its uprightness and honesty in dealing with men and measures."

Major George Butler, who has been local editor of The Suwannee Democrat, has been secured on The Herald at Perry. Major Butler is a hustling local news gatherer and a very clever writer, and The Herald could not find a better man.

President Roosevelt has declared Thursday, November 30th, as Thanksgiving Day.

If you can't build don't buck. There is little gained in butting against a brick wall.

There is going to be a big rush to Florida. Get that itch-string out.

SOFTNESS OF SEALSKIN.

Is Rivalled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 30c. in stamps to The Herpicide Co., Detroit, Mich.
