### NOTICE OF SHERIFF'S SALE

Under and by virtue of an execution issued out of and under the seal of the circuit court of Polk county, State of Florida, under date of April 7th, 1919, wherein First National Bank of Lakeland, a corporation, is plaintiff and C. B. Horr, Florida and Georgia Land Co., a corporation, and J. B. Metton, are defendants, I have levied upon and will offer for sale and sell to the highest and best bidder for cash, at the front door of the court house at Bartow, Polk county, Florida, on the first Monday of June, 1919, the same being the second day of said month and a legal sales day, and between the hours of eleven o'clock a. m. and two o'clock p. m. of said day, the following described real estate as the property of the defendant, C. B. Horr, to satisfy said execution and costs, to-wit: Undivided half interest in the E½ of SW¼ and W½ of SE¼ and NE¼ of NW¼ of section 32, township 27 south, range 25 east, containing 217 acres more or less.

JOHN LOGAN,  
Sheriff of Polk County, Florida.

### SHERIFF'S SALE

Under and by virtue of an execution issued out of and from the circuit court in and for Polk county, Florida in favor of Mabel W. Cozart and against S. W. Cozart, in a certain cause therein pending wherein Mabel W. Cozart is complainant and S. W. Cozart is defendant, and in the judgment and decree of said circuit court rendered therein on the 6th day of April, A. D. 1918, I have levied on the following real estate situated in Polk county, to-wit, the southeast quarter of the southwest quarter of section thirteen in township thirty, south, of range twenty-three, east, as the property of the said S. W. Cozart, and will offer the same for sale at public outcry for cash to the highest and best bidder in front of the court house door in Bartow, Florida, between the hours of 11 o'clock a. m. and 2 o'clock p. m. on Monday, the second day of June, 1919, said land to be sold subject to any valid mortgage thereon of record prior to the date of the aforesaid judgment and decree.

Also I have levied the aforesaid execution on the following personal property as the property of the said S. W. Cozart, to-wit: Six grade Jersey cows, named Maud, Daisy, Nannie, Blue Bell, Pink and Millie, and thirty-seven head of other cattle, mostly milk cows, and one Ford truck, engine No. 2871, one horse, one lot of milk bottles and all other paraphernalia connected with the dairy business now conducted on the above described real estate, and the household furnishings now in the residence, consisting of one walnut top bed room set, one heavy iron bed, golden enameled chairs, tables, etc. The aforesaid personal property will be sold on the premises at the above described real estate, subject to any valid chattel mortgage of record on this 3rd day of May, 1919.

The said real estate will be sold as stated above before the court house door in Bartow and the cattle as they run in the pasture, the other property at the residence. All said property to be sold to satisfy the aforesaid judgment and decree, with costs, charges and expenses.

Dated at Bartow, Florida, the third day of May, A. D. 1919.

JOHN LOGAN,  
Sheriff Polk County, Florida.

### NOTICE OF SHERIFF'S SALE

Under and by virtue of two executions issued out of and under the seal of the county court of Polk county, State of Florida, under date of Sept. 5, 1918, and Jan. 9, 1919, wherein Morris G. Munn is plaintiff and John F. Cox is defendant, I have levied upon and will offer for sale and sell to the highest and best bidder for cash, at No. 210 South Kentucky avenue, Lakeland, Polk county, Florida, on the first Monday of June, 1919, the same being the second day of said month and a legal sales day, and between the hours of eleven o'clock a. m. and two o'clock p. m. of said day the following described real estate as the property of the defendant, John F. Cox, to satisfy said executions and costs, to-wit: One large office iron safe, located at No. 210 South Kentucky avenue, Lakeland, Polk county, Florida.

JOHN LOGAN,  
Sheriff of Polk County.

IN THE CIRCUIT COURT OF THE TENTH JUDICIAL CIRCUIT OF THE STATE OF FLORIDA, IN AND FOR POLK COUNTY.

In the Matter of the Adoption of Mabel Ethel Stutts.

Notice is hereby given that I will apply to the Honorable John S. Edwards, Judge of the Circuit Court, at his office in Lakeland, Florida, on the 16th day of June, A. D. 1919, at ten o'clock a. m., for an order authorizing me to adopt infant child, nine years of age named Mabel Ethel Stutts.

Done this 16th day of May, A. D. 1919.

ROBERT J. RYALLS,  
Petitioner.

WILSON & BOSWELL,  
Attorneys for Petitioner.

## Facts About Florida

(Compiled by the State Marketing Bureau.)

There are only twenty states in the Union with more daily papers than Florida has and our state is only thirty-third in population.

Florida has some of the largest and most beautiful springs in the world. Several of them flow at the rate of 200,000 to 300,000 gallons a minute, large enough to float steamboats. Silver Springs, near Ocala, flows 575,000 gallons a minute. It is believed to be the largest spring on earth.

Tourists spend \$30,000,000 in this state every year.

There is \$30,000,000 invested in hotels in Florida. The Royal Poincianna at Palm Beach is the largest frame hotel in the world.

Florida has 6,500 miles of railroads operated by thirty different companies.

Florida has the lowest death rate of any state in the Union.

The population of Florida has increased 30 per cent within the last five years.

Florida has a local option compulsory school law.

Florida has several fine institutions for higher education.

Key West is nearly 300 miles nearer the Panama canal than is any other American seaport.

The tarpon, the world's most noted game fish, abounds in the seas contiguous to Florida. Catching it is one of the most exciting sports known to fishermen.

Shad, pompano, Spanish mackerel, sheephead, trout, redfish and mullet are among the many fine food fish of Florida. Fishing is one of the great industries of the state.

There are large deposits of peat in nearly all parts of Florida.

Flowing artesian wells, some forcing water as high as twenty feet above the surface, are found in many sections of the state.

Florida has the only sponge fisheries in the Union. Tarpon Springs shipped more than \$1,000,000 worth in 1917.

Coquina rock, made up mostly of shells, is found along the east coast. It was the first stone used in America for building purposes. Limestone exists in nearly all parts of the state.

The manufactured products of Florida aggregate \$100,000,000 a year.

The manatee or sea cow, weighing up to 1,000 pounds and turtles weighing up to 200 pounds still are found in Florida waters.

More than 3,000 different species of trees, shrubs, etc., grow in Florida.

Florida leads all other states in producing fuller's earth and ten times as many.

Florida reported 50,016 farms in 1910. The state could contain ten times as many.

Florida ranks first among all the states in the Union in the production of turpentine.

There are seventy ice factories in Florida. We have no ice unless we make it. The discoverer of the process of making artificial ice was a Florida man.

Ninety per cent of the original forests of Florida still are wooded, the many acres are being thinned annually.

Florida has spent more per capita in recent years for road improvements than has any other state.

Florida produces the finest of pineapples and has shipped as many as 1,000,000 crates of them a year. The most exclusive pineapple plantations along the east coast and in sand so pure and white that a handkerchief can be dragged over it without discoloration.

Florida annually produces 15,000,000 gallons of milk. This state is better adapted to dairying than is any other state in the Union.

Florida has about 500 sawmills, producing yearly 1,250,000 feet of lumber, not counting cross-ties, poles, staves, veneers, tanbark, etc.

Andrew Jackson, seventh president of the United States, was the first governor of Florida.

Florida clay makes good bricks.

Severe windstorms are rare in Florida. Hurricanes originating in the southern seas swing around the west end of Cuba, cross the Gulf of Mexico and usually strike the coast above the mouth of the Mississippi river.

Florida has a climate that allows the growing of food crops in every month.

Florida has sea beaches as extensive and as fine as any in the world.

National automobile races are frequently conducted on them in the winter.

Florida mines \$10,000,000 worth of phosphate per annum, or 80 per cent of the total output of the United States.

Florida is destined to become important, very important in raising livestock. There is no long cold winters to test the vitality of the animals. Feed can be grown every month.

The mild climate of Florida offers farming opportunities not equaled elsewhere in the Union. Orchids, the rare and expensive beauties of the northern greenhouses grow wild in the forests of Florida.

Florida contains four agricultural experiment stations established by the federal government for use in the warmer sections of the Union for testing many kinds of useful products (not native) brought from other continents.

Florida can be made to produce enough sugar to supply the needs of all America, and more. Sugar cane grows in every county. Drained land will yield twenty tons to an acre, the potential equivalent of 3,000 pounds of granulated sugar.

Florida has more surface water in rivers and lakes and also available underground, besides the heaviest annual rainfall, than any other state in the United States.

No state in the Union has such access to the oceans and the world by water as has Florida.

Look at a map of the world and you will find Florida is more favorably located relative to facility of access to water and world traffic than any other American state.

When the waters of the north are covered with thick ice, you can go fishing and boating in Florida waters and pick strawberries and flowers in Florida gardens.

The fig, one of the earth's best known fruits, is right at home in Florida.

Florida has more than 40,000,000 of tropical fruit trees of bearing age; in all, more than 75,000,000 fruit trees.

Florida produces 12,000,000 to 15,000,000 bushels of corn a year, and of a quality as fine as that of any corn on earth.

Florida produces winter grown tomatoes and ships 5,000 carloads of them, a total larger than that of all other states combined.

Florida produces 16,000,000 dozen eggs annually; and no state can produce better poultry. Its abundance of wild birds is evidence of its adaptability to domestic fowls.

Do not get "skeered" about snake and alligator stories that may be told you before you come to Florida. Tourists visit here year after year and never see anything more startling than the commercial article made from the skins and placed on sale in the curiosity stores.

Florida produces more long staple cotton, the kind used to make thread than any state. It was worth in 1917 more than 75 cents a pound.
