## **CHURCHES FIGHT** RED MENACE

Allied With Attorney General to Enemy Peril Within.

AMERICANISM GREAT ISSUE.

God-Fearing Veters Covenant to Put at the Head of This Government a Man of Proved Capacity and Firmness Who Will Suppress the Preachers and Practicers of Discord and Violence.

Washington.-The greatest indorsement ever given to the outstanding Americanism of a living official in public life is the forward movement represented by the powerful among more than a score of large church denominational organizations which has just been effected in this country to combat the "Red menace."

Twenty-five million persons, representing more than 70 per cent of the membership of all Protestant church organizations in the United States, are now lending their strength to the alliance which will carry on to its logical conclusion the work of Attorney General Mitchell Palmer in awakening the people of the nation to a realization of their peril from the enemy within and protecting the government with a firm hand from those who sought to overthrow it by force and violence.

Americanism and Americanization is to be the watchword of the churches, and the Christian people of the country, who have caught the note from the reveille sounded by Mr. Palmer, will see to it that a man alive to the great question and of proved capacity to carry on the great work that is being launched is put at the head of affairs of government in this country.

To these millions of earnest people who see in the safety of the country, home and fireside the overshadowing issue of the future, regardless of politics or politicians, there can be no step backward now that the forward movement is on, and the man who appeals to them most strongly as measuring up to the highest standard of Americanism and whose deeds are test-proof of his high purpose to bring his whole country to a realization of the loftiest ideals of citizenship will receive their undivided support in primary, election and in the administration of his high

Before the great campaign of Amerfeanism to be under aken by the Protestant church o mizations is well

under way it would not be surprising to find the percentage in the alliance grow to a round 100 per cent, representing 100 per cent Americanism.

The great hierarchy of the Roman Catholic Church in the United States is heart and soul with the movement for Americanization and will lend its Score of Large Denominations full strength to the promotion through the far-reaching channels of the church of the preaching and teaching of staunch Americanism to the many Palmer in Awakening Nation millions of its congregation within the United States.

> A pastoral letter, the first issued by the heads of the Catholic Church in the United States in thirty-five years, has recently gone to all its people, in which the following paragraph is not the least in importance of the declarations of the letter:

"Whatever may be the industrial and social remedies which will approve themselves to the American people, there is one that, we feel confident, they will never adopt. That is the method of revolution. For it there is neither justification nor excuse under our form of government. Through the ment 2 per cent bonds, which in times ordinary and orderly processes of education, organization and legislation all social wrongs can be righted. While these processes at times may seem distressingly slow, they will achieve more in the final result than violence or revolution. The radicalism and worse than radicalism of the labor movement in some of the countries of June 3, 1784, is to celebrate its 136th Europe has no lesson for the workers of the United States except as an example of methods to be detested and avoided."

Thus the churches and their people future security of the government of their country and the peace and hapmany similar movements which have written history, it is more a question of the man than the measure.

The formation of the powerful alliance in the interchurch world movement to campaign against red radicalism with American san is but another proof that the Auverlenn people have made the issue of the day for the government, for the sourch and for the nation. It is stard that the interchurch world movement is serving as a clearing house for speedy and cooperative action to cope with the evils of radicalism, which have been made public as the result of a nation-wide survey. On their own account the representatives of these 25,000,000 people of the country have found that "Americanism" is the one and great isssue now before the people and have called upon the churches to expend from their emergency funds several millions of dollars in immediate effort to raise the standard of Americanism.

A Canadian Industries Exhibition is to be opened in London today with view to bringing before the chief importers of Great Britain and Europe some of the industrial products of Canada

The bonds of the United States are the safest securities in the world and the present market price, which is very much under their real value, offers an extraordinary opportunity to make an absolutely safe investment at a high rate of return upon the money paid for the securities.

These bonds are the best in the

world because:

This is the greatest, richest and the most powerful nation in the world. It has never failed to pay promptly the interest and principal of its obligations.

It has less debt per capita than any other great nation.

Its resources are the richest and its people produce more and earn more than any other people.

Money is cheap now, but will almost certainly be scarcer and dearer when these bends mature. Consequently it will buy more then than

Your money invested in these bonds bonds now has three great advantages: low cost, high rate of return and higher purchasing power of the dollar you will get back.

Hon. John Skelton Williams, comptroller of the currency; in a statement issued on May 26th, has this to say about government bonds as an investment:

"For the first time in half a cen tury, those who have money to invest have now the opportunity of buying the safest security on earth, on a basis which will yield, during the life of the investment, an average income of more than 6 per cent per annum. This is three times as much as the interest paid on United States governpast have sold above par."

You can buy these bonds in such sums as you desire through your bank or trust company.

This Miller Cord Tire has run 22,000 Miles On a Heavy Truck

## 22,000-Mile Tread And Why They Are Exceptions

With 3-Ton Loads

ler Cord Tires were tested by Ray C.

Worn Miller Tires are often exhibited with some sign like above.

Countless letters also reach us telling such mileage tales.

These are very pleasing. But we don't want users in general to expect miracles from

Millers.

#### Service to Expect

Expect from Millers greater service than from any like-type tire. And 19 times in 20 you will get it.

Expect it to outserve any tire you put opposite, and it almost invariably will. Expect twice the mileage tires gave a few years ago, and they will doubtless do still better.

Expect tread wear 25 per cent better than from others and you'll not be disappointed.

But don't expect that Millers, under all conditions, can match some exceptional mileage.

#### Why Mileage Varies

A Cord Tire gives vastly greater service than a Fabric Tire.

An oversize tire will vastly excel z tire that is undersize. Care, load and roads affect tire service greatly.

Millers are uniform tires. That is a major reason for their supremacy. But uniform tires will vary with conditions.

#### Tread Patented

Center Tread smooth with suction cup, for firm hold on wet asphalt. Geared-to-the-Road side treads, mesh like cogs in dirt.

### What Our Tests Show

We run tires at our factory ten million miles a year to make these service tests.

These are radical tests. Tires are run constantly, night and day, and under heavy load. We want quick comparisons.

On our testing machines Miller Cords average 15,000 miles, and Fabrics about half that.

But these are not mileage records. We

are running Miller Tires against high-grade rivals to prove that Millers last best.

#### Be Satisfied With This

You will get on a Miller an exceptional tread. It is by 25 per cent the best tread made.

Not one Miller Tire, made under present methods, has ever come back with the tread gone.

You will get uniform tires. Every Miller Tire is signed, both by maker and inspector. Every man knows that a faulty tire means a penalty for him. And faults are extremely rare. You will get greater mileage than from

any tire you put on the opposite wheel. That is so nearly universal that we will stake your favor on any single test. But you will get the best tire built to-

day. There are hundreds of thousands who know that.

When you buy a new car insist on Miller Tires. Twenty car makers now supply them and there is no extra charge.
