CITY OFFICIAL PAPER

THE Manhattan elevated railroad carries 525,000 passengers per day, while the Fairbank stage line pulls out one hundred thousandth part of that number. Come west, young men, come west.

THE endeavor of some of the sporting fraternity to make a match between Sullivan and Kilrain is resulting in a great deal of useless braggadocio. If they were both put to work on the 600 level of the Emerald they would be of some use to the community.

THE letter received by the Frederick Douglas Association from President elect Harrison has been construed to mean that he will not appoint a colored man to a Cabinet position. The wonderful imagination of the reporter is only exceeded by the good sense of the colored folk, who never expected anything of the kind.

THE advertising patronage enjoyed by the press of Tombstone is something of which her citizens might feel proud. A glance at the columns of the PROSPECTOR will reveal to the eyes of the stranger the fact that Tombstone is a live business centre. Every business house of any importance always advertises in the daily paper of the city in which it does business, and the large array of houses represented in the columns of the daily PROSPECTOR is proof that we still have energetic business men, if the bottom has dropped out of the political cauldron.

THE PROSPECTOR has been requested by a gentleman of Phenix to take a hand in circulating petitions to the Legislature to meet this winter, praying for the suppression of gambling, and the refusal to longer license the liquor traffic, and the closing of all places of business on the sabbath day. Such a wholesale slaughter in Tombstone would depopulate it, and we are anxious to increase our subscription list next month; the fact is that we are in favor of keeping the churches open and on a good financial footing. And as the gamblers, which we term speculators in this camp, and the saloon men contribute largely toward the support of the ministers, we can see no benefit to be derived from making the onslaught—just at present. Beside these objections, we have had a fight on our hands for the past year trying to reform the county Democracy, and do not care to enter into another crusade until we have had time to catch our breath.

RAILWAY BUILDING IN 1888

Kansas Lends and California is Second.

The railway Age says: The railway mileage of the year just past has increased by no less than 7,120 miles of main track. While this is much less than the phenomenal mileage for 1881, 1882, 1886 and 1887, the record exceeds that of every other year with the exception of 1871, when 7,378 miles were added, Kansas still leads in the extent of new mileage, as she has done for several years. California comes next. The most striking characteristic of the work is the large number of separate lines of which it is composed and the correspondingly small average for each line. The building of great competitive lines has practically ceased for the present, and the year's work is devoted chiefly to the construction of short independent lines or branches.

The statement issued in the Department of the Interior shows that the amount of public land surveyed and as yet undisposed of in Wisconsin is 12,387,051 acres; in Minnesota, 8,383,948; in Nebraska, 12,857,543.

SEPCIAL DISPATCHES TO PROSPICTOR

In Maine.

AUGUSTA, Jan. 3.—Governor Burleigh was inaugurated at noon.

In Massachusetts.

BOSTON, Jan. 3.—Governor Ames was inaugurated at noon.

Frye Renominated.

AUGUSTA, ME., Jan. 3.—A joint Republican caucus to-night, renominated Wm. P. Frye for United States Senator by acclamation.

Way Up Marriage.

BOSTON, Jan. 3.—The marriage of Gertrude Barrett, daughter of Lawrence Barrett, and Joseph Anderson, Mary Anderson's brother, was solemnized at the Cathedral this morning.

Hanged.

MAYS LANDING, N. J., Jan. 3.—Robt. Eldred, Jr., was hanged at noon today for the murder of his father. The killing resulted from the ill treatment of Robert's mother and brother by his father.

In Michigan.

LANSING, Jan. 3.—Governor Luce was inaugurated at 2 o'clock this afternoon. A considerable portion of his annual address is devoted to the temperance question. He recommended the passage of a local option law.

Harrison's Callers.

INDIANAPOLIS, Jan. 3.—General Harrison's callers were but few to-day. Rev. David T. Cornehan of Port Townsend, W. T., called in the evening. He stated afterwards that the purpose of his visit was not a political one, but admitted that he urged upon the President-elect, to remember the Pacific coast, and especially asked him to urge upon Congress the early admission into the union of Washington Territory.

Another Bluff.

NEW YORK, Jan. 3.—The following was received this morning: "St. Louis, Jan. 3.—Kilrain will sign articles to fight John L. Sullivan for $20,000 and championship of the world, at either Toronto, Ottowa, or Montreal. Both Mitchell and Kilrain emphatically deny that they have any misunderstanding with Fox.

Anti-Liquor.

BOSTON, Jan. 3.—Governor Ames sent his annual message to the legislature to-day. He advised an early submission to the people of a prohibition amendment, and advocates an increase in penalties for advocating the liquor law. He thinks it will be wise to substitute imprisonment for a fine in such cases.

Senate.

WASHINGTON, Jan. 3.—The senate resolution heretofore offered by Voorhees calling on the Secretary of the Interior for a list of all homestead timber, culture and pre-emption entries to public land, cancelled after the issuance of a final receipt and certificate, during the present administration, for causes other than voluntary relinquishment, was agreed to. Mitchell offered a resolution which was agreed to, calling on the Secretaries of War and Interior Departments for copies and records of all papers relative to the service of volunteers in Washington and Idaho Territories in the Nez Perces war of 1877. The senate then resumed consideration of the tariff bill.

Anniversary.

WASHINGTON, Jan. 3.—At the celebration of the twenty-sixth anniversary of emancipation proclamation in Alexadria last night, by the Frederick Douglas Library Association, letters were read from Harrison and Morton, both conveying congratulations and encouraging the negro element to constant upward effort. There is in Indianapolis a letter, however, a passage which seems to have thrown cold water on the hopes of those counting on the election of the colored man for cabinet positions. He says: "You have shown great patience under severe trials, and there may be yet further calls for the exercise of this homely virtue. It is quite possible that the high expectations of our friends may not be realized, but we can at least keep things moving in the right direction."

Not Worth Reading.

WASHINGTON, Jan. 3.—On motion by Toole, of Montana, the Senate amendment was concurred in to the House bill appropriating $33,000 to enable the Secretary of War to issue to the Governor of Montana military stores for the use of the militia of that Territory.

Reed, of Maine, reported the resolution providing that during the remainder of the session there shall be no call of States and Territories on the first and third Mondays of each month. These Mondays are known as "suspension days," and the object of the resolution is to prevent the opponents of the Union Pacific funding measure and the Oklahoma bill from filibustering against any attempt to pass these measures under suspension of the rules, introducing voluminous bills under the call of States and consuming the day by a demand for their reading in full. The question of the adoption of the resolution called forth a vigorous protest from Anderson, of Kansas, who has been one of the chief antagonists of the Union Pacific bill. The yeas and nays were ordered, and it was discovered that no quorum had voted. A call of the House was ordered. The call showed the presence of 171 members, eight more than a quorum, but the margin was too narrow and proceedings under the call were not suspended. The Sergeant-at-Arms was dispatched to arrest absentees, and the house drowsily awaited his report. As this was not forthcoming at three o'clock the House adjourned.

A Salt Palace.

The people of Salt Lake City are contemplating the erection of a great "Salt Palace." It would be a structure that would lay in the shade all ice and corn palaces ever constructed. The main part of the structure could be of the finest specimens of rock salt to be found in the quarries, chiseled, carved and artistically arranged, while the interior fittings should be of chrystallized work from the lake on a grand scale. Such a palace should be permanent if properly protected from the rains; it could be made of the most unique and striking style of architecture; it could be made one of the wonders of the world. When lighted by electricity the structure would have all the sparkle and diamond glitter of the great ice palace, and with the difference in the salt palace's favor that heat would not melt or dim its glories in the least.—Exchange.

Great Feats of Memory.

Idiots have been known whose memory for names and words was so retentive that they could repeat a sermon verbatim and indicate where the preacher blew his nose and coughed while delivering it.

Cardinal Mazzofanti, the linguist, who is said to have known a hundred languages, declared that he never forgot a word he had once learned.

To a friend who congratulated Leyden on his remarkable memory he replied that he often found it a source of great inconvenience. On the friend expressing surprise he exclaimed that he had often wished to recollect a particular expression in something he had read, but could not do it until he had repeated the whole passage from the beginning to the expression he desired to recall.

An English clergyman mentions a man who could remember the day of the burial of every person who had died in the parish during thirty-five years, and could also repeat the name and age of each deceased person and the names of the mourners at the funeral. But so weak was he intellectually that he could not be trusted to feed himself.

Dr. Moffat, the distinguished African missionary, and the father-in-law of Dr. Livingtone, once preached a long sermon to a crowd of negroes. Soon after he had finished he saw a number of negroes gathered about a simple-minded young savage. He went to them and discovered that the savage was preaching his sermon over again. Not only was he reproducing the precise words, but imitating the manner and gestures of the white preacher.

Scrofula

Is one of the most fatal scourges which afflict mankind. It is often inherited, but may be the result of improper vaccination, mercurial poison, uncleanliness, and various other causes. Chronic Sores, Ulcers, Abscesses, Cancerous Humors, and, in some cases, Emaciation and Consumption, result from a scrofulous condition of the blood. This disease can be cured by the use of Ayer's Sarsaparilla.

I inherited a scrofulous condition of the blood, which caused a derangement of my whole system. After taking less than four bottles of Ayer's Sarsaparilla I am

Entirely Cured

and, for the past year, have not found it necessary to use any medicine whatever. I am now in better health, and stronger, than ever before.—O. A. Willard, 218 Tremont st., Boston, Mass.

I was troubled with Scrofulous Sores for five years; but, after using a few bottles of Ayer's Sarsaparilla, the sores healed, and I have now good health.—Elizabeth Warnock, 54 Appleton street, Lowell, Mass.

Some months ago I was troubled with Scrofulous Sores on my leg. The limb was badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy failed until I used Ayer's Sarsaparilla. By taking three bottles of this medicine the sores have been healed, and my health is restored. I am grateful for the good it has done me.—Mrs. Ann O'Brian, 158 Sullivan st., New York. ††

Epoch.

The transition from long, lingering and painful sickness to robust health is an epoch in the life of the individual. Such a remarkable event is treasured in the memory, and the story whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health, to the use of this Great Alterative and Tonic. If you are troubled with any disease of Kidneys, Liver or Stomach or long or short standing, you will surely find relief by use of Electric Bitters. Sold at J. Youngs's drug store. $1 00 per bottle

The Verdict Unanimous.

W. P. Sult, Druggist, Elgin, Ind., testifies, "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every instance. One man took six bottles, and was cured of Rheumatism of ten years's standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood.
