The Mining Exchange hall looks

very attractive in its dress of bunting

and flags. The managers of the mas-

querade ball have left nothing undone

to make it as attractive as possible

and all who attend this evening can

rest assured of a pleasant time.

BAD ECZEMA ON BABY

Head one Solid Here. Itching Awful.

Had to Tie His Hands to Cradle.

Cured by CUTICURA.

Our little boy broke out on his head with a bad

form of eczema, when he was four months old.

We tried three doctors but they did not help him.

We then used your CUTICURA. He was

entirely well. When we began using it he had

been a solid here from the crown of his head down

to his feet. It was also all over his face, neck, arms

and legs. He was so itchy that he would

scratch himself all day long. We were

very anxious to get him cured. We

tried CUTICURA and found it was the

best thing for him. He is now well and

happy. We are very grateful to you for

your CUTICURA. It is a great blessing

to all who suffer from eczema. We

will be glad to recommend it to all

who suffer from eczema. We are

very grateful to you for your CUTICURA.

LEGISLATIVE DOINGS.

The bill known as "prescribing addi-

tional duties to boards of supervisors"

was lost in the council. The purport

was to pay cash and let warrant hold-

ers of 1890 warrants hold their evi-

dences of indebtedness until something

turned up.

The bill fixing the salary of the at-

torney general at \$1,000 passed the

council.

The vagrant bill passed the house

unanimously.

The hospital bill passed both houses.

The bill is the same as the old bill

with the objectionable feature of anti-

alienism eradicated.

The New Discovery.

You have heard your friends and

neighbors talking about it. You may

yourself be one of the many who

know from personal experience just

how good a thing it is. If you have

ever tried it, you are one of its staunch

friends, because the wonderful thing

about it is that when once given a

trial Dr. King's New Discovery ever

after holds a place in the house. If

you have never used it and should be

afflicted with a cough, cold or any

Throat, Lung or Chest trouble, secure

a bottle at once and give it a fair trial.

It is guaranteed every time or money

refunded. Trial Bottles Free at

Yonge's Drug store.

Allen English's bill is entangled in

a mesh of unfortunate circumstances,

and is being postponed from day to

day. It never seems to occur to those

solons that a fellow's pocket gets ill

sometimes, and Allen is no million-

aire.

Grover Cleveland has written a let-
ter to the Reform Club of New York,
strongly opposing the free coinage bill.

A Washington special to the Times
says: It is understood that the presi-
dent has ready for announcement a
proclamation of reciprocity with Ven-
ezuela similar to that just reached
with Brazil.

Matthew M. Allen has brought suit
against Senator Hearst to recover
\$9,595, alleged to be due as salary
and commissions on the winning of
Hearst's horses, last year.

Joe Goldard whipped Chynowski at
Sidney, N. S. W., in four rounds,
on last Wednesday.

The whiskey trust at Chicago claims
to have no knowledge of the scheming
of its secretary to blow up a rival dis-
tillery.

H. W. Hasselgren has opened a
butcher shop in the building recently
occupied by Bob Hennessy. He kills
his beef on the ranch and brings it to
Tombstone and asks a share of the
patronage of the citizens of Tomb-

stone.

One of the troubles of life is
the breaking of lamp-chimneys.

Needless. Macbeth's "pearl
top" and "pearl glass" are
tough against heat.

You will save nine-tenths of
your chimney-money by using
them.

"Pearl top" fits most of
the little lamps; "pearl glass"
is for "Rochester," "Pitts-

burgh," "Duplex," etc.

We make a great many sizes
and shapes, all of tough glass.
You can get the right ones.

Talk with your dealer about it.

A. Hittinger, of Tucson, made

Tombstone a flying visit last night.

The National bank of Mexico has

on hand \$13,000,000 of specie. If

this showing was made by an Ameri-

can bank it would be considered an

argument against free coinage.

When John Dunbar shall reach the
printers' heaven the recording angel
will overlook his misdeeds while a
resident of Cochise in giving him cre-
dit for his present stand in opposition
to the unholy alliance against her fu-
ture prosperity.

The argument in favor of excluding
foreign silver from the privileges
granted by the free coinage bill is not
well taken. One has but to take a
look at Mexico to see the fallacy of the
argument. Her country is not flooded,
neither has free coinage proved a fail-
ure.

An Iron Mountain.

Two English syndicates are said to
be competing for the property of the
Durango Steel and Iron company, of
Durango, Mexico, representing inter-
ests of not less than \$8,000,000. Di-
rector Gibson says of the Durango
property: "The supply of ore is un-
limited. It does not have to be mined,
but consists of an iron mountain. It
is called Cerro del Mercado, and is sit-
uated equidistant between Mexico
and El Paso. It is a solid mountain
of ore 500 feet high and three-quar-
ters of a mile long, or ninety-five
acres. It is the largest iron field in
the world. The output has been about
3,000,000 tons per year. Our great ob-
stacle now is the cost of fuel. The
nearest railroad is the Mexican Cen-
tral, 100 miles distant. In order to
overcome this a branch road will have
to be built, and we have not the money
for the project."

The Harrison act will interfere with
the proposed subsidy of Pima county
to the Tucson and Calabasas road.
The indebtedness of that county is al-
ready seven per cent on its assessed
valuation and the Harrison act limits
it to four per cent. Every county in
the territory is in the same fix and
will continue to be in that condition
until grandpa's hat is lifted from the
cranium of our industries.

A company has been founded in
Chicago with millions of capital be-
hind it, for the purpose of transport-
ing cattle from the great ranches of
Wyoming, Utah and Montana to Phil-
adelphia, where immense abattoirs
will be created. Capitalists in Lon-
don, New York, Philadelphia and Chi-
cago are interested, and it is intended
that their dressed beef shall supply
the European markets.

The initial number of Romance, a
magazine devoted to a reprint of the
best short stories of the day, has been
received and charms us with its at-
tractive appearance and spicy table
of contents. It hunts the columns of
the daily papers for whatever is worth
preservation in a literary way and dis-
seminates it up with a garnishment of
very appetizing head-notes. It is published
for The New York Story Club by C. A.
Watson, Fifth Ave. and Fourteenth
