### Same Old Story But a Good One

Mrs. Mahala Burns, Savanna, Mo., relates an experience, the like of which has happened in almost every neighborhood in this country, and has been told and related by thousands of others, as follows: "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint three or four years ago and a few doses of this remedy cured me. I have recommended it to dozens of people since I first used it and shall continue to do so for I know it is a quick and positive cure for bowel troubles. adv.

LOOSE CHANGE

Overtowering the tallest building in the world, The Woolworth, a monument to nickels and dimes, is a phantom structure of 1c. pieces which shows the might of pennies, if we will all but pause, think, act.

A great international banker estimates that the United States carries fortunes around in its work pockets every day, year in and year out. The average is \$3.50 each for every soul of our 105 million population. That means 315 million dollars, idle dollars, which should be earning \$12,600,000 annually or 1,260,000,000 pennies, which would pile higher than the Woolworth Building. That great sum represents only the normal 4% earnings

of money we carry in our pockets as loose change. Think of the wheels of industry the principal would turn if deposited in banks and put to work.

You owe it to the nation, to your own prosperity, to put all loose change to work.

It will create a reserve fund of surprising strength for you in a very short while, if you make deposits regularly.

Then comes intelligent investment and financial independence.
