CITY COUNCIL.

Regular meeting of the Mayor and Common Council of the city of Tombstone, held September 20, 1889.

Present—Campbell, Prindiville and Mayor Thomas.

Minutes read and on motion approved.

Reports of officers for the month of August were read, accepted and placed on file.

The bill of the Tombstone Gas Company for August, for \$30.50, was referred to the finance committee.

The following bills were approved and warrants ordered drawn on the various funds for the amounts:

Frank Flanagan	\$23.32
Huachuca Water Co	2.00
S. C. Bagg	5.00
J. H. Slaughter	80
Huachuca W. Co., for August	14.00
S. Hill	2.00
Jos. Curby	2.00
T. A. Atchison	13.85
Cochise H. & T. Co.	5.45
Mary Tack	1.00
J. Lawrence	5.00

The building committee reported that the moving of the old Resene hose house had been completed according to contract. The report was accepted and a warrant was ordered drawn in favor of W. W. Woolman for \$187 on the contingent fund.

The clerk announced that he had written to J. L. Melgren, also to the secretary of the Silver Convention, which is to meet at St. Louis. His report was accepted.

The bill of J. H. Slaughter for 80 cents was stricken out, it appearing that it was a duplicate.

A committee from Protection hose company appeared before the Council and asked for aid to get water, gas, etc., in its new building. Referred to the building committee with full power to act. On motion Prindiville was appointed as substitute for Dardward on the building committee.

The Mayor reported that the janitor had gone to California to reside and the position was declared vacant. On motion Mrs. P. B. Holland was elected to the position.

H. B. Mason appeared before the Council and stated that his taxes for this year was \$235 too much, and asked for a rebate of that amount, which was granted.

Council adjourned till October 4, 1889.

NAT HAWKE, Clerk.

Serious Accident.

Shortly after dark last evening the team of C. S. Robertson, the milk man, became frightened and dashed up Allen street. The team was stopped after running a few blocks when it was discovered that the owner was seriously injured. Mr. Robertson was conveyed to the residence of Mayor Thomas and Dr. Willis summoned, who discovered that the injured man had two ribs broken and was otherwise seriously bruised. It seems that while delivering milk the team had started and Mr. Robertson jumped in front of it to stop it but missed his hold and was trampled under the feet of the horses, the wagon passing over his body. Mr. Robertson has had several runaways previous to this one but has heretofore escaped injury. He is now resting easy, but it will be several weeks before he will be able to be around again.

The Maricopa Plan.

A meeting of the Republican and Democratic central committees of Maricopa county, to consider a plan of action in regard to holding a constitutional convention, was held in Phenix on Wednesday. Following is the result of their deliberations, which is clipped from the Phenix Gazette:

Pursuant to adjournment the Republican and Democratic county committees met yesterday in the court house for the purpose of consulting as to the proper methods to adopt in reference to the constitutional convention. A large number of committees, both Democratic and Republican, being present, with T. W. Hine in the chair.

After an amicable discussion, upon motion of District Attorney Cox a committee of four was appointed to draft and submit resolutions expressing the sense of the meeting on the proposition before the house. Messrs. Cox, Fowler, Peck and Smith were appointed, and after a recess of fifteen minutes submitted the following resolutions, which were unanimously adopted by the meeting:

Whereas, The 15th legislative assembly of Arizona did, on the 21st day of March, 1889, pass an act entitled, "An act to provide for the holding of a convention for the purpose of framing a state constitution to be submitted to the people for their approval or rejection"; and

Whereas, It was in said act made the duty of the Governor of this Territory to issue a proclamation calling a special election for delegates to a constitutional convention; and

Whereas, Said proclamation has not been issued and the time has elapsed for issuing the same, and

Whereas, The statute makes it the duty of the various boards of supervisors, in the different counties of Arizona, at their regular meeting next preceding the 5th day of November, to appoint election officers in the various precincts of their several counties. Therefore be it

Resolved, By the Democratic and Republican central committee of Maricopa county in joint session assembled that we believe the law calling for said constitutional convention should be executed, and that said convention should be held in pursuance of said law; that all honorable and legal methods should be resorted to by both the political parties in Arizona for the purpose of obtaining a form of state constitution with a view to the speedy admission of our territory as a state, and we do earnestly request the early action on the part of both the Democratic and Republican central committees of all the counties in the matter of the election of delegates to the constitutional convention; and be it further

Resolved, That as the law makes it the duty of the boards of supervisors to provide for holding the election of delegates to said convention, that such action be taken by them as will fully insure the enforcement of its provisions.

MINING NOTES.

While silver is down the object of the mining companies in Southeastern Arizona seems to be to keep a few men at work prospecting and developing the mines and extracting only sufficient ore to pay running expenses. Consequently no strikes are announced although large ore bodies may be encountered. Should the silver convention, which meets at St. Louis next month, cause silver to go up there is no doubt that many mines in this district, and other districts also, would start up. With silver at par, or even 97, mines that are now idle and practically abandoned would pour forth thousands of tons of ore on which a good profit would be made. An advance in silver means more to Arizona at present than anything else.

In mining matters in this district there is no change of importance to note. Several mines remain in a state of practical inactivity and others are only taking out enough ore to pay expenses.

Work is being continued on the Herschel and the usual amount of first-class ore is being extracted.

The Blue Monday, leased by Daves and son, is producing some fine ore. But little work has been done on this property and the indications for striking a large body of ore are good.

Work is progressing on the Townsite. The lessee has a good vein of ore in sight that assays well.

The Wedge has been leased and is showing up good ore.

The Stonewall seems to have an unlimited amount of manganese ore, which is being sent to El Paso for flux.

The ore body recently struck in the Sunset pinched very small but is opening out as sinking progresses.

The Old Guard remains quiet.

The Tombstone M. & M. company is working only three of its numerous claims at present—the Lucky Cross, Westside and northwest shaft of the Toughnut. About sixty men are employed by the company in prospecting and development work, only sufficient ore being extracted to pay running expenses.

Work is being done on the lower levels of the State of Maine, ten men being employed. A winze is being sunk from the sixth to the seventh level in which good ore has been encountered.

The old hoist of the Bunker Hill is being removed to Stein's Pass by Ham Light. It will be put into operation in that district.

Work has not yet started on the Nicholas.

The Ground Hog continues to demonstrate its value to its owners. Ore is being steadily shipped to the mill.

The stopes and drifts in the Vizima are being cleaned out and the mine put in good shape. There is considerable low grade ore in the drifts that was extracted years ago but never hoisted. When this mine is cleaned out the diamond drill will be started.

The stamps of the Sterling Silver mill are kept steadily at work on Vizima and Ground Hog ores. Bullion is being steadily shipped and several thousand dollars distributed every month. Good progress is being made in the drift at the bottom of the well. When the water that was struck by the diamond drill is tapped by the drift the boulders will be started and Superintendent Fisher will be enabled to work ores to a much higher percentage than now.

The latest strike reported is that by Mr. Bentley and George Monroe, in the White Picach hills, sixty miles northwest of Phenix. The Herald says they were tunneling an old claim

for silver and copper, and were about to throw the really rich stuff over the dump. Monroe noticed free gold in it and Mr. Bentley brought in thirteen ounces of gold, which he got by pulverizing and panning twenty-one pounds of neatly rejected rock. It was measured up and exhibited at Kirkland's cigar factory.

Harshaw district is quite lively and contains over 300 people, nearly all of whom are at work, many of them chloriding. One disadvantage to this district is that water is struck at a depth of about 150 feet. Ore below the water level is of good grade, however, and pays the extra expense of pumping.

Fatal Shooting in Prescott.

Charles W. Beach was shot and killed in Prescott on the 17th instant by a man named George Young, who is under arrest. Mr. Beach was one of the pioneers of the Territory, was a printer by trade and for several years was proprietor of the Prescott Miner. The following is given as the cause:

George Young leased property of Beach, had separated from his wife and blamed Beach for interfering, and, it is said, had threatened Beach's life on several occasions.
