DA IGEROUS DRUGS

How to Control Eff ctually All Suit Horribie Habits.

Rochester, N. Y. Post-Express

A gentieman who has spent the suze mer abroad, said to our reporter, the the thing that impressed him most all was the number of holidays one ea counters abroad and the little anxiet the people display in the conduct of busi-ness affairs. "Men boast here," he said "that they work for years without a day off; in Europe that would be considered

a crime." Mr. H. H. Warner, who was precease at the time, said, "This is the first sum-mer in years that I have not spent on the water. Been too busy."

"Then, I suppose you have been ad vertising extensively ?"

"Not at all. We have always hereter fore closed our laboratory during July, August and September, but this summer we have kept it running day and night to supply the demand, which has been three times greater than over bo-fore in our history at this season." "How do you account for this?"

"The increase has come from the und the interface the constraint of the propagations. We have been nearly ten years before the public and the sales are constantly increasing while our newspaper advertising is constantly diminishing. Why, high scientific and metical authorities, now publicly concede that cor Warner's safe cure is the only scientific specific for kidney and liver diseases and for all the many diseases caused by them

"Have you evidence of this?"

"Abundance! Only a few weeks ago Dr. J. L. Stephens, of Lebanon, Ohio, 4 specialist for the cure of narcotic, etc. habits told me that a number of eminent scientific medical men had been experimenting for years, testing and mealyzing all known remedies for the kieneys and liver, for, as you may be aware the excessive use of all narcotics an until they can be restored to health the habits cannot be broken up! Among the investigators were such men as J. M. Hall, M. D., President of the State Board of Health of Iowa, and Alexander Neil, M. D., Professor of Surgery in the college of Physicians and Surgeons and president of the Academy of Medicine at Columbus, who, after exhaustive inquiry reported that there was no remedy known to schools or to scientific inquiry equal to Warner's safe cure !"

"Are many persons addicted to the use of deadly drugs?"

"There are forty millious of people in the world who use opium alone, and there are many hundreds of thousand in this country who are victims of mor-phine, opium, quinine and cocaine. They think they have no such habit about them—so many people are uncon-scious victims of these habits. They have pains and symptoms of what they have pains and symptoms of what they call malaria and other diseases, when in reality it is the demand in the system for these terrible drugs, a demand that is caused largely by physicians' prescrip-tions which contain so many dangerous drugs, and strong spirits, and one that must be answered or silenced in the kid-neys and liver by what Dr. Stephens says is the only kidney and liver specific. He also says that moderate orium and other drug eaters, if they sus ain the kidney and liver vigor with that great remedy, can keep up these habits in moderation." He also says that moderate opium and

"Well does not this discovery give you a new revelation of the power of sale

"No, sir; for years I have tried to convince the public that nearly all the dis-eases of the human system originate in some disorder of the kidneys or liver, and hence I have logically declared that if our specific were used, over ninety per cent, of these ailments would disap-pear. The liver and kidneys seem to absorb these poisons from the blood and become depraved and diseased." "When these eminent authorities thus publicly admit that there is no remedy like ours to enable the kidneys and liver to throw off the frightful effects of all deadly drugs and excessive use of stimulants it is an admission of its power as great as any one could desire; for if through its influence alone the oplum, morphine, quinine, cocaine and liquor habits can be overcome, what higher testimonial of its specific power sould be asked for ?' "You really believe then, Mr. Warner, that the majority of diseases come from kidney and fiver complaints?" "I do! When you see a person moping and groveling about, half dead and half alive, year after year, you may surely put him down as having some kidney and iver trouble." "The other day I was talking with Dr. Fowler, the eminent occulist of this city, who said that half the patients who came to him for eye treatment were affected by advanced kidney disease. Now many people wonder why in middle life their eye sight becomes so poor A thorough course of treatment with Warner's safe cure is what they need more than a pair of eye glasses. The kidney poison in the blood always attacks the weakest part of the body; with some it affects the eyes; with others the head; with others the head; with others the stomach or the lungs, or rheumatic disorders follows and neuralgia tears them in pieces, or they lose the powers of taste, smell or become impotent in other functions of the body. What man would not give his all to have the vigor of youth at command?" "The intelligent physician knows that these complaints are but symptoms; they are not the disorder, and they are symptoms not of disease of the head, the eye or stomach, or of virility, necessarily, but of the kidney poison in the blood and they may prevail and no pain occur in the kidneys." It is not strange that the enthusiasm which Mr. Warner displays in his ap-preciation of his own remedy, which re-stored him to health when the doctors said he could not live six months, should become injectious and that the entire world should pay tribute to its power. For as Mr. Warner says, the sales are constantly increasing, while the news paper advertising is constantly diminish ng. This speaks volumes in praise of the extraordinary merits of his preparations.

By virtue of an order of sale issued out of the
