Don't Use a Scarecrow

To Drive Away the Mail Order Wolf

You can drive him out quickly if you use the mail order houses' own weapon—advertising. Mail order concerns are spending thousands of dollars every week in order to get trade from the home merchants. Do you think for a minute they would keep it up if they didn't get the business? Don't take it for granted that every one within a radius of 25 miles knows what you have to sell, and what your prices are. Nine times out of ten your prices are lower, but the customer is influenced by the up-to-date advertising of the mail order house. Every article you advertise should be described and priced. You must tell your story in an interesting way, and when you want to reach the buyers of this community use the columns of this paper.
