

SPECIAL MEETING TOWN COUNCIL

A special meeting of the Town Council was held Monday evening which was called for the sole purpose of discussing a certain bill for steel furnished by contractors in building the addition to the city Jail. It was at first thought by the Council that the bill was excessive, but upon thoroughly looking into the matter they found the same reasonable and ordered the bill paid. At this meeting Geo. H. Keyes, Jr., of the Bank of Winslow, was appointed a member of the Council in place of E. F. Tarr, who resigned recently on account of not being able to attend regularly.

FLAGSTAFF ASKS FREE DELIVERY

W. P. Geary, chairman of the State Corporation Commission and Clerk Jack Gavin arrived in town Tuesday coming from Flagstaff where a hearing was called by the commission of the Wells Fargo Express Company regarding a free express delivery in Flagstaff such as we have in Winslow. The representatives for the express company were J. M. Williams and C. E. Blaine the agent for the company at Flagstaff. The representative men in behalf of the free delivery were J. W. Francis and Prof. R. H. Bloome of the Flagstaff Normal. After a rather lengthy hearing it was decided that the matter would have to be put before all the members of the Corporation Commission for final decision, which will no doubt result in a free delivery of express in Flagstaff.

Mayor F. T. LaPrade received a communication this week from Immigration Commissioner W. H. Clark to the effect that Prof. A. M. McOmie of the Agricultural Experiment Station of the University of Arizona accompanied by other Professors of that institution will give lectures to the people of Holbrook and vicinity on various methods of farming on the 26th of this month. The program as outlined for Holbrook is a good one and should be very interesting to all who are engaged in farming of whatever nature. The Professors are travelling in a special car and when they leave Holbrook it is their intention to return to Tucson. In order that the Winslowites may get an opportunity to hear some of these instructive lectures it was decided to have these men give a lecture for two hours between train time in their car on the morning of the 27th if suitable arrangements can be made here in Winslow. More information regarding this matter will be given in our next week's issue.

Next meeting will be held at Mrs. A. Tanner's Dec. 5th.

Miss Jessie Crossen of Kenova, West Virginia, sister of Mrs. Alex. Sutherland arrived in Winslow Thursday morning and will visit here indefinitely with her sister.

NEW ENTERPRISE FOR WINSLOW

F. M. Erench of this city informs us that he has recently incorporated his gypsum claims of which he had some 4,000 acres located under the mining laws of this state, the new company to be known as the "Navajo Gypsum and Fertilizer Co." with a capitalization of \$100,000.00 at \$1.00 per share. None of the stock will be offered for sale. The men interested in the company are F. M. French and Martin Dadey of this city, C. N. Cotton of Gallup and Leo D. Daze of Los Angeles, a relative of the local Daze's.

Mr. French has been working on these claims since spring building roads and houses and shipping gypsum to Los Angeles and vicinity until now their output of that material is about two carloads daily. A spur was put in on the claims, also narrow-gauge and dump cars are used in handling the commodity to transfer it directly into the cars. Large crushers and screeners of 100 ton capacity have been installed to grind and screen the gypsum which is put into sacks to be used for plaster and fertilizer.

Considering the large holdings of the company and the unlimited amount of Gypsum it contains it will surely be a big thing for the men interested and for the good of Winslow in particular. The market for gypsum is getting better every year and the demand is increasing wonderfully and the company may at some later date be obliged to put up large mills and work a large force of men to meet the demand for their commodity.

COMMERCIAL CLASS

It is our intention to purchase some toys for Jessie Butner and Pauline Woods because they played with their pencil-rubber all during class making rubber dolls.

The girls basket-ball teams are progressing wonderfully and they will soon be ready to begin the series of games.

The speeches given us Tuesday afternoon by Mr. Adkinson and Rev. Ross were enjoyed by all members of the Commercial Class.

Since they have added a new row of seats in the back of the Assembly room the teachers have been very bothered by the students. They all seem to want the back seats.

The next term of school Irene Dadey will be ready to take Miss Snyder's place as Commercial teacher.

Miss Cavanaugh our English teacher has not been to school for a while on account of a severe cold, but was able to continue teaching Wednesday.

Miss Snyder wishes that the text "Smile" had been "Whistle" as it is easier for her to smile than whistle.

The Commercial Class wish to thank those who helped to make their "Takie Parte" a success.

G. B. CLASS EDITOR

PROVERBS

Judge, not Ralph by his action in History Class.

It is better to please (Miss Cavanaugh) than anger her.

Wm. Wrights policy is. Let us enjoy the present we shall have troubles enough hereafter.

Lloyd Park thinks that your looking glass will tell you what none of your friends will.

The clock stopped last Wednesday just before noon, but we soon found that we did not need the clock to tell us it was noon

as Grace Butners appetite spoke up.

FRESHMAN CLASS NOTES

Miss Snyder tries to make ancient history class now interesting by planing little surprises such as unexpected written lesson. We try to appreciate her attempt to be kind but alas it is usually such a shock to us that it does not have the desired effect.

The Freshman class enjoyed the addresses given by Dr. Merritt, Rev. Radey, Dr. Atkinson and Rev. Ross and some of us have adopted the motto, "Smile" which the latter suggested.

One of the speakers who formerly knew Miss Snyder in Bisbee excited our curiosity by saying that he used to think Miss Snyder was hopeless. "What could he have meant?"

Francis Parks is thinking of taking up the study of astronomy since the last basket ball practice when she fell and knocked her head.

Freshie: What's the difference between the death of a hairdresser and the death of a sculptor?

Soph: Now as I can see both sad I suppose.

Freshie: Yes very sad, a hair dresser curls up and dyes and a sculptor makes faces and busts.

The party given by the Commercial Class was a huge success. The Freshmen extend their thanks for the nice time which they were given. The farce (Mrs. Okley Telephone) which given by Misses Brown, Scanlon, White and Hudlow, helped make the evening a success and the glimpse of the Sophomore future which was given by Grace Butner was very interesting. Sunny Beck also took a great part in the evenings fun.

The Womens Christian Temperance Union will meet Thursday afternoon at 2:30, Nov. 21st., with Mrs. Penrod. Evangelistic meeting to be led by Mrs. C. B. See. All ladies are cordially invited.

Dr. R. W. Wilkes was a visitor in town this week with his many friends.
