

WILSON AND
THE TARRIFF

President-elect Wilson is reticent in regard to what action on the tariff is to be had when he enters the White House on March 4th.

Those that are close to him however are pretty well convinced that congress will be called in extra session soon after inauguration in March and that the tariff will be speedily revised downward. The Democrats have a majority in the House, and of the 93 members in the Senate, the Democrats are sure of 50 and possibly 51 which will give them absolute control in that body thus enabling them to shape legislation at their will.

The country seems to have unlimited confidence in the statesmanship patriotism and ability of Woodrow Wilson and the assurance that he has given the country that no honest and straight forward business enterprise need fear anything from him has had a very healthy effect on the business activity throughout the country.

Woodrow Wilson is a native of Virginia, and he is the eighth son of old Va., that has occupied the White House. The seven others being Washington, Jefferson, Madison, Monroe, William H. Harrison, Tyler and Zachry Taylor; this is a record that no state in the union can boast of.

Mrs. Woodrow Wilson was born in South Carolina and she will be the first Southern Lady to occupy the position of "First Lady of the Land" since Mrs. A. Johnson in 1865 to 1869. The most famous Lady who ever presided over the White House was a southerner, Mrs. Dolly Madison whose tact and grace has won for her a name that has secured a permanent place in history.

The amendment to the constitution providing for an Income Tax has been ratified by 34 states, and two others will ratify it in the next thirty days which will make the required 36 ratifications out of our 48 states thus congress will have the right to tax incomes as it sees fit.

Steeves—O'Niel

Last Sunday evening at the home of Mr. and Mrs. A. J. Henderson, of the Winslow Telephone Co., X. N. Steeves, one of the prominent lights of the legal profession residing at Williams, and Miss Katherine O'Niel of Winslow, were united in the holy bonds of wedlock, the Rev. Carl M. Ross, pastor of the M. E. Church, officiating.

The bride was assisted by Mrs. Henderson, while Attorney W. H. Burbage played the role of "best man."

After the ceremony an informal reception was held and a wedding supper was served a few friends, Mrs. Henderson acting as hostess.

After a short wedding trip the newly-weds will make their home in Williams, where Mr. Steeves is practicing law.

The club of the Ladies Society of the B. of L. F. & E. met with Mrs. Johnson and Sparks.

The latter was happily surprised with a shower of beautiful gifts. Those present were: Mesdames Thornton, Murphy, Burke, Recorden, Phillips, Dawson and Mrs. E. L. and S. L. Hosler. The next meeting will be held at the home of Mrs. E. L. Hosler Dec. the 10th.

SCHOOL NOTES

Thanksgiving holidays on Thursday and Friday were announced by the Board of School Trustees last Tuesday. School will open again Monday Dec. 2nd.

Basket Ball League season opened Friday night, with the aid of the Winslow Boy's Band. The Band gave a brief concert preceding the opening of the regular League schedule. The teams opened the years schedule as follows: H. S. vs City Team Santa Fe vs Ice Plant H. S. Girls vs H. S. Girls.

We are confident that the people of Winslow will find the League season to be the best series of Athletic events ever held in this city, but in order to make this League a success, liberal patronage must be had as the various teams are under heavy expense. The beautiful trophy cup is on exhibition at the Schaal Jewelry store in the Elk's building. Come out and get interested in the cleanest and best of American in-door sports, and help your favorite team to victory.

The Agriculture demonstration train from the University of Arizona, spent Wednesday morning in the city. Over 400 school children viewed the exhibits on the various cars as well as a couple of hundred of Winslow's citizens. The products of Arizona are well worthy the comparison with the best in the country. A short lecture was delivered in the H. S. Assembly room by the Director of the Agriculture Train at 11 o'clock. The train left at 1 for Tucson.

We are glad to announce that Prof. Chandler of the Extension Division and Prof. Grimes of the Department of Mathematics will be in this city under the auspices of the High School to deliver a series of the lectures, early in February. Both of these men have national reputation as speakers along their respective lines. Subjects and the exact date will be announced later.

U. S. Weather Observatory has recently been established on the roof of the High School Building. These instruments give the H. S. roof a peculiar appearance, but then it's all in the interest of science.

We are glad to welcome many of those who have been on the sick list, back to our midst. Attendance has improved greatly.

The Thanksgiving donation which was held in all rooms last Wednesday was a splendid tribute to the true Thanksgiving spirit of giving. Large quantities of provisions were distributed by the committee of ladies appointed for the task.

Total Enrollment for the third month 503, average enrollment 465, average attendance 431. Percent of attendance 93.

High School line up for the first game of the season was as follows: G. Drumm, l. g. George Sampson, r. g. L. Parke, c. J. Marley, r. f. R. Weber, l. f. C. LaPrade, s. k.

FRESHMAN CLASS NOTES

The talk given by Mayor LaPrade in Monday morning chapel was enjoyed by the students.

Some of English Class (I) decided to rest during class Monday morning but they were decidedly disappointed.

The advanced Botany Class have been experimenting with the improved elevator, it being the block and tackle. Sonny Beck's cat was the first volunteer to try it, and finding it worked all right

they used it to establish the weather observatory on the roof.

The Sophomore Ball which was given last Friday evening was pronounced by all who attended to be a great success. The hall was appropriately decorated with pennants and banners. Lovely refreshments were served.

The Sophomores don't have all the fun, because Algebra I had a delightful little test last Monday morning, and Ancient History Class are eagerly looking forward to monthly test to be given soon.

The High School furnace smoked Tuesday morning and we were unable to stay in the building. Of course we were reluctant to take the morning off and spend it in the sunshine which had been to us a temptation. Miss Snyder and Miss Powell took advantage of the half-holiday and visited the Grammar School.

Miss C. (In English.) "William where is your Lady of the Lake?" Wm. (Who had lost his book.) "Oh, she fell in."

Don't forget the basket ball games, and be prepared to root for the High School.

Why do they insist on having a holiday Friday after Thanksgiving? The only answer when asked why is "We won't be able to come."

The Charity Committee feels grateful and wish to thank the school children for their generous donations.

DEMANDS UPON NEW
PARTY LEADERS

Although a full session of Congress is to intervene before the national legislators elected this month come into office the interests that expect to benefit from the Democratic plan of legislation already are getting into action and are making plans to enforce their demands upon the party leaders. The chief interest centers of course in tariff legislation. While it is understood that some reduction of duties is inevitable, the question as to just how far the protection that has long been accorded to American farmers, wage-earners and manufacturers is to be sacrificed affords plenty of room for discussion and controversy. Those who are in a position to profit by the reduction or removal of duties are planning to force this movement as far as possible, regardless of the effect upon the business of the country. In the van of these interests are the sugar refiners who think that the opportunity is at least presented to them of carrying through their plan for the enactment of a free sugar bill which will put an end to the rapidly expanding business of growing sugar beets and manufacturing beet sugar. The refiners, the most influential being the so-called Sugar Trust, have been growing more and more uneasy over the rapid increase in the output of beet sugar under the protective tariff that has been in force. Within the past few years this competition has cut into their market to an alarming extent, has tended to keep down retail prices and threatened to put the refiners out of business entirely, in the course of time, as the Department of Agriculture has shown that the United States has ample land adapted to beet growing to produce all the sugar required by the American people.

As the Trust and its fellow refiners have practically unlimited resources at their command a big fight will be made to secure absolute free trade in this commodity, but it is doubtful if it can succeed because it can be carried through only by the votes of Senators representing states in which the beet sugar industry already has attained great importance and it is doubtful if these men will vote to destroy home industries on which the welfare of thousands of their own constituents depend. The wool and lumber schedules are others over which it is expected the strenuous fights will be waged.

Jeweler Geo. F. Schaal has this week moved his entire stock and fixtures into his new store in the Elks building from his old place in the Opera House building. Mr. Schaal has ordered a large supply of new goods for his Christmas trade and will hereafter carry a full and complete line of jewelry. A fine line of new fixtures have been added to replace some of the old fixtures and his store is now complete in every detail.

The man and woman who try to make their home the most interesting spot on earth for each other, and for their friends and those who are near and dear to them, have but occasional use for the club. It is to them, like the theatre, a pleasant place to enter now and then but not a spot to dwell in.

Harlow Yaeger of Flagstaff was a business visitor in town last Friday.

ED HAGERTY
SERIOUSLY ILL

Edw. Hagerty, a young man who recently came to Winslow from the coast, and is well known among the younger element of this city, was taken seriously ill this week and upon examination by one of the local physicians it was decided to send him to some hospital as quickly as possible for treatment. Acting under the instructions of the physician he made preparations accompanied by a nurse and left Thursday evening for the hospital at Albuquerque. Word was received here yesterday afternoon from the physicians at the hospital in Albuquerque that Mr. Hagerty had a severe attack of general peritonitis and that an operation was necessary and was performed and further stated that they had little hopes of his recovering, in fact believed that there was little hopes that he would live thru the night.

Mr. Hagerty is a brother of Chas. Hagerty who was a Winslow resident years ago employed by the Santa Fe out of here as brakeman and at present is engaged in the furniture business in Los Angeles. He was notified yesterday by friends of the serious illness of his brother.

CHAS. H. JENNINGS,
Acting Supervisor.

A farmer finds a one-dollar bill and appropriates it, by right of discovery, to himself. He goes to town and pays it to a newspaper man on what he owed him; the newspaper man hands it over to a merchant to settle his account; the merchant pays his meat bill with it, and the butcher pays it back to the original finder to finish paying for a calf he had purchased, after which the farmer takes it to the bank and discovers it to be a counterfeit, and on the ensuing Sunday puts it into the missionary collection. Query: Are all these debts cancelled with the spurious one dollar?

"Frisky" Gillard and wife had the assistance of Banker and Mrs. Kaufman and Yardmaster Folsom in disposing of the "National Bird" on Thursday.

Wm. J. Workman left Monday morning for San Diego, Cal., to visit with his mother and recuperate from his recent severe illness.

T. J. Bourne of "Mutual life fame" was a business visitor in town this week.

L. Fenton and Si Perkins arrived home Sunday morning from the mountains where they have been hunting the "big game" having bagged their share.

Born—To Mr. and Mrs. W. G. Kelly, a girl, Wednesday evening. Mother and baby doing well.

Messrs. J. H. Hopkins, L. B. Maxwell, forest ranger, and F. M. Kildare were initiated into the local lodge of Elks Thursday evening.

B. P. O. E. MEMO-
RIAL SERVICE

The Annual Memorial Exercises of Winslow Lodge No. 536, B. P. O. Elks, in memory of their departed brothers, will be held Sunday afternoon at three o'clock at the Winslow Opera House. Everybody is welcome to attend these exercises. The main address will be delivered by Secretary of State Mr. Sidney P. Osborn, member of the Phoenix Lodge of Elks. Everyone wishing to attend is urged to come on time so as not to disturb the exercises while it progresses.

Woodmen Masquerade

The Masquerade Ball given on Thanksgiving night by the local lodge of Modern Woodmen of America was well attended and was a success socially and financially. There were numerous beautiful and comic costumes displayed, many of the boys being dressed in feminine attire while a number of ladies donned the apparel of the sterner sex. The masqueraders removed their mask about ten o'clock and from that time on till one o'clock, the time the dance closed, the dancers enjoyed themselves to their heart's content.

Most men who own a watch think they know all about it. They have the number fixed in their memory in case it is stolen. They could probably pick it out from fifty other watches with their eyes shut. But how many men know that their watch is a compass and will tell north from south just as accurately as it will tell the time of day? Stanley, the explorer, did not know it until he had groped his way through a dark continent and met a Belgian sailor on the coast. Every watch is a compass. If you point the hour hand to the sun the south is exactly half way between the hour and the figure XII on the dial. Suppose, for instance, it is 4 o'clock. Point the hand indicating 4 to the sun and the IX on the watch is exactly south. If it is 8 o'clock point the hand indicating 8 to the sun and the figure X on the dial is due south. No man need get lost if he carries a watch.

Missouri is a funny place. Last week a lad from the backwoods came further north and seeing a young lady playing a piano, ran to his brother saying, "Oh, Bill, come and see this girl. She is knocking regular thunder out of a bureau." Two state senators were boasting of their qualifications one day at Jefferson City. One said, "I am a minister;" the other said, "I am a lawyer, and I'll bet \$10 you don't know the Lord's prayer." The money went up, and the Missouri clergyman began, "Now I lay me down to sleep, etc." "It is your money," said the lawyer. "I did not believe you knew it. I have not heard it all before in twenty years."

Mrs. Cline R. Asbury who has been quite sick for a number of weeks is reported as feeling somewhat better at the present writing.

J. A. Lyons of Babbitt Bros. Merc. Co., left this week on a visit with his family at Los Angeles.

Mr. and Mrs. A. J. Ratelle and son were dinner guests Thanksgiving of Mrs. Ratelle's parents, Mr. and Mrs. Wm. Daze.
