More Cyclones.

Prairie Home, Mo., June 9, 1917.

To the Editor:
I would like to inform my friends in Winslow through your paper, of the narrow escape I had in a Missouri tornado. About 9 a. m. Tuesday, June 5th, a terrible cyclone raged through this (Cooper) and adjoining counties, stripping bare a strip varying from one to five hundred yards wide, taking everything in its course. A new \$10,000 Presbyterian church was lifted from its foundations, and portions of it carried eight miles. A piece of 2x4 pine lumber was driven through the trunk of a tree a short distance from where the church stood. Farm houses, hay barns, forest trees, automobiles, farm machinery, cattle, horses, etc, were carried miles from where they stood.

I am visiting at the home of my brother-in-law, C H. Barnhart, formerly a machinist in the Winslow shops, but who is now a licensed embalmer and undertaker here. Their town was just outside the storm district. Mr. Barnhart worked for three days caring for and burying the dead. Many were injured, some seriously, and others only slightly. In some homes two or three were killed while others escaped injury entirely. A trip through the storm course the following day convinced me that Arizona was much to be preferred to Missouri as a place for my abode.

MRS. JOHN L. SWEENEY.

Patriotic Poultry.

Before the world's war was six months old, Great Britain, through government sources, was strongly advising a great increase in poultry keeping, and in the production of eggs and poultry meat. D. F. Houston, secretary of agriculture of our country, has likewise taken up the subject, and has submitted an open letter to the poultry journals of the country, with the request that they publicly take up the matter of increased poultry and egg production.

For our own city of Winslow the need of this extension of poultry raising is particularly great, judging by the price of eggs at time season. Even with poultry feed as high as it is, the person who has a flock of laying hens is almost as fortunate as the one who owned the goose that laid the golden eggs. If eggs bring 50c at this time of the year, in December \$1.00 a dozen will be cheap.

The waste from the table, some tables, will go a long way toward egg production. The person producing food is helping the nation in a time of need. The person who wastes food or wastes the opportunity to produce food, is giving assistance to the enemy. No man liveth to himself alone in these serious times, and some will awake to the fact when they have failed to respond to the President's request, and the advise of such men as Secretary Houston. W. B. COLE.

THE PRESIDENT Says:--

WHITE HOUSE, May 10, 1917. "I have today created within the Red Cross a War Council to which will be entrusted the duty of responding to the extraordinary demands which the present war will make upon the services of the Red Cross both in the field and in civilian relief, and I hereby earnestly call upon all those who can contribute either great sums or small to the alleviation of the suffering and distress which must inevitably arise out of this fight for humanity and democracy, to contribute to the Red Cross.

Now, Therefore, by virtue of my authority as President of the United States and president of the American Red Cross, I, Woodrow Wilson, do hereby proclaim the week ending June 25, 1917, as Red Cross Week, during which the people of the United States will be called upon to give generously and in a spirit of patriotic sacrifice for the support and maintenance of this work of national need.

WOODROW WILSON.

Road Bonds Sold.

The \$160,000 road bonds recently voted on Navajo were sold Tuesday to a bond firm at a discount of \$10,000. The law requires that all county bonds must bring at least par value, and to evade the plain provision of the law the supervisors made the sale at par and then allowed the buyers \$10,000 for attorney's fees. One would suppose pride in the financial rating of the county would have prompted the supervisors to have rejected any such bid, but in their zeal to get hold of the money and spend it right away overcome their business judgment. With ten per cent trimmed off as a starter, with the increased cost of material and labor on account of the war, and the notorious fact that all public work gives not more than sixty per cent value for every dollar expended, the tax-payers can gain some idea of the actual value the county will receive from the bond burden that has been voted upon them.

Not one of the supervisors would think of selling his personal note at a ten per cent discount, and if he would guard his own personal interest in financial matters, why should he not exercise the same zeal in guarding the interests of the county? Why the rush to crowd through the bond sale at such a ridiculous bid? There was no pressing emergency, and the deal does

not look good on its face, no matter how honest may be the motives of the supervisors.

Navajo county was the first in the state to file its registration list with the state officers, which demonstrates that Sheriff Newman had a competent force of registrars doing duty.

A Russian religious sect known as Molokans, who have a colony near Phoenix, have persistently refused to register under the selective conscription, and are now confined in the Maricopa county jail, awaiting the action of the court. Thirty-seven men are under arrest. The Molokans are religious fanatics on the order of Holy-Rollers, who believe in manifestations and revelations from the Lord. It is our individual judgment that if given the choice of signing the conscription or being returned to Russia as undesirable citizens, they will receive a hurry-up manifestation from the Lord to register as the law requires. They are a sect that delight in being persecuted for their religious belief, as they firmly believe the greater martyrs they have been the greater the glory that awaits them hereafter.

Old Furniture.

Why let old furniture go to waste, when you can get cash for it by calling at Amen's Second-hand Store. He is always in the market for any kind of old furniture.

EDISON'S New Invention is a Human Instrument

So faithful, so startlingly identical with the original is Edison's Re-Creation of the human voice that audiences of musicians and music-lovers in every corner of the United States have expressed their astonishment at the human qualities of Edison's new invention, the Diamond Disc Phonograph.

It is a wonderful thing to realize that you are listening to the actual Re-Creation of a voice instead of only an approximate reproduction as given by talking machines.

Don't be deceived. There is but one instrument which actually Re-Creates music. Wherever and whenever you buy, look for Edison's name in the cabinet. Insist on the Diamond Disc.

ONE SEED

If a farmer desired to raise a crop of corn and planted but one seed--what would you think of him? Speaking mildly you would think he was foolish--wouldn't you.

If a man desired to acquire a fortune and deposited \$1 and never added to it--what would you think about him?

Yet lots and lots of people begin an account and never follow it up. Start your Account at the Arizona State Bank with \$1. That is well. Add to it each week. That's better. Do not draw it out for ten years. That is best.
