

Toots From The Round House

By Charles Erickson

Some real good dope! We are glad indeed to state that the month of June has eighty-six special passenger trains chartered for the Pacific coast, forty-six of which are Shrine trains headed for the big Shriner convention in Los Angeles.

It was all a big joke about Machinist H. I. Nomoto sailing for his home in Japan. H. I. is back at work, and merely accompanied his family to San Pedro, where they embarked without him.

On account of W. W. Sterling cleaning house in the machine shop the "private office" of the headlight men was moved to the basement of the power house.

We learn from Mark Smith that his son, Alvin, is improving steadily in the Los Angeles hospital.

If anyone doubts that the earth's radiator throws a strong heat wave in and around Keams Canyon, just look a certain shop timekeeper squarely in the face. It's no wonder the Hopi Indians dance with snakes; that sun would make a person do nearly anything.

On account of serious illness our roundhouse foreman, E. A. (Possum) Kuhn, was sent to the Los Angeles hospital, where it is understood he may have to submit to a major operation. He is greatly missed and we all wish him a speedy recovery.

R. K. (Musty) Mullins has taken over the day roundhouse foreman's position, while W. E. Brown is in full charge at night, with W. C. Fertig to assist him. And, say, fellows, the apprentice boys are "managed" by their colleague, Joe Hare, while Mr. Fertig is on night duty.

Assistant Electrical Engineer A. B. Young, of Los Angeles, paid Winslow a visit last week and went over the rewiring of the roundhouse with the local supervisor, O. H. Babcock.

Mrs. W. E. Brown and son, Jack, are visiting her folks in San Bernardino and now Brownie is his own "chief cook and bottle washer."

The Ranson P. P. extension gang has been finishing up around the shops the last week and will leave for Williams shortly, where they will be engaged for several weeks.

Machinist's Helper Juan (Kewpie) Aragon is off duty on account of sickness.

Oh you new auto! It's a bran' new Overland and, being a coupe, has just room enough for TWO. Machinist Joe Carey is the proud owner.

Several Winslow apprentices will attend the big apprentice ball in San Bernardino this evening and incidentally will get acquainted with some of Californias' fair damsels.

Plumber Wm. Duffey is a happy man again. His three children are paying him a short visit from San Bernardino.

Several trainloads of the delicious Phoenix lettuce have started east, which stirs business up somewhat.

Everyone from the mechanical department who has attended the first plays of the Ellison-White Chautauqua give out very favorable statements as to its programs.

Because C. B. Ennis has entered the Santa Fe hospital for an appendicitis operation, Oren Oare has been added to the payroll as extra turntable operator. We hope for Clyde's quick recovery.

There must be an epidemic in Kansas City. The other evening a "ho" told Mr. Thompson, proprietor of the excellent West End boarding house, that he was going to his sick mother in K. C. and was about starved. The gag worked and within the next hour three other tramps informed Mr. Thompson of the serious illness of their mothers in Kansas City.

J. B. New was in Winslow last Saturday with his official weight test car from Los Angeles and weighed engine 2240 (the roundhouse spotter). While this locomotive bears the A. T. & S. F. brand it is known as the "Les Hughes Express" engine.

Mrs. Gus Miller, wife of the master mechanic of the Sweetwater division, with headquarters at Slaton, Texas, is visiting the W. D. Hitchcock family. Mr. Miller was formerly general foreman here and Mrs. Miller the store department chief clerk at Gallup.

Camp Fire Notes

By JACLYN KAUFMAN.

Twenty-seven Camp Fire girls spent last Saturday picnicking at Cottonwood wash, east of Winslow. Four cars, loaded to the limit with girls and eats, made the trip. Four mothers of Camp Fire girls were present to help enjoy the affair.

No business meeting of the camp will be held this week, on account of the Chautauqua.

A candy sale and Easter flower sale will be conducted by the girls tomorrow, the candy sale to be held under the direction of Mrs. Roy Brennan on the space in front of the Trimble home on Second street, and the flower sale from a booth in front of the Central News company, with Mrs. George Jackson in charge.

church have offered the use of Guild Hall to the Camp Fire Girls for their meeting place. The interior will be decorated to suit the fancy of the young ladies, and equipment for their various tests and studies added. The girls extend their thanks to the ladies of the church for their kindness.

The King's Cruise

It is accepted, it is stated, that the king will go to the Riviera during his cruise on the royal yacht the Victoria and Albert

Food Economy

It is true food economy to have a refrigerator that actually maintains a temperature that will preserve food. The Rhinelander Refrigerator will—and it is economical with ice.
