THE CITY.

THE DAILY ASTORIAN will be sent by mail at 75 cents a month, free of postage. Readers who contemplate absence from the city can have THE ASTORIAN follow them, DAILY or WEEKLY, without any post-office with-out additional expense. Addresses may be changed as often as desired. Leave orders at the counting room.

The Ivy got out to sea yesterday.

The Kirkwood and Springpatan have arrived out.

George's majority for congress will be over 3,500.

The excursion to Fort Clatsop on the Fleetwood has been indefinitely postponed.

Capt. M. M. Gilman and wife have returned from a visit to W. D. Hare, of Forest Grove.

No. 2's of Portland, have signified their intention to be present with their engine on the Fourth.

F. H. Page, recently of this city, is down from Portland on a three weeks sojourn among seaside friends.

Parties down from Snake river report six feet of snow in the mountains. This means continued high water.

Messrs. Wersley, Charters and Selig were around again yesterday. They think the prospect is good to make it an even thousand.

The Gen. Canby was suggestive of nothing so much yesterday as a spunky little baby upon the arrival of a new brother who puts its nose out of joint.

The California Republicans are plucking up courage since they heard from Oregon. They have a tough row to hoe this fall without Dennis Kearney to help them.

California and Oregon fruit and vegetables are in abundance; the festive green apple gets in its work on the small boy, and any youngster with a bit can get his money's worth.

P. J. Ribbell was buried yesterday from Franklin's undertaking rooms. Max Wagner charitably defrayed the funeral expenses and saw that he was accorded a decent burial.

The Lanrigg Hall and Wanlock have gone to sea; both vessels were loaded at this place. The Wallace-town, which will also take on all her cargo here, is now loading with salmon.

The Doophunnies, Antiques, Horribles, Salmon Moonshiners, Calathumpians, and Ancient-and-dishonorable order of fire worshippers are getting out a massive programme for the fifth coming fourth.

Every week we get postal cards, the substance of which is, "Why don't you exchange?" We get nearly all the leading papers now, and don't care to increase our list. These little staving patent outsiders never have an item in them from June till January, anyhow.

The leading parties in the late Portland murder trial have achieved invidious immortality by the production of their pictures in a flash week published in New York. Judge Stott is credited with being "counsel for the murderers."

The Republican central committee of Washington Territory, met at Vancouver last Wednesday, and fixed on Vancouver, Sep. 20, 1882, as the time and place for holding the Republican territorial convention. There will be 114 delegates, of which Chehalis sends 2, Pacific 2, and Wahkium 2.

A dispatch has been received from Washington, announcing the passage through both houses of congress of the bill providing for the payment of claims incurred by the state of Oregon for expenses arising out of the war of the rebellion, and also for the Unatilla Indian war in 1877 and 1878. The amounts aggregate about \$75,000.

The Gen. Miles.
At nine o'clock yesterday morning the new steamer of the I. S. N. Co., the Gen. Miles, which was so successfully launched a few days ago, blew her whistle and started down the river on her trial trip. The fact that Mr. Jones, the builder of the machinery, wishes to leave for his home in Wilmington, and wants to turn the boat over to its owners, started the boat out a little sooner than was anticipated, but she worked admirably and excited the anticipations of the builders. The run from Gray's dock to Ilwaco was made in good time, and after a brief stay at Fort Canby, she started back, running on a very steady keel, and acting as any well behaved sea-going craft should. With 82 pounds of steam the propeller made 90 revolutions per minute, and it is believed that with a pressure of 100 pounds, 110 revolutions per minute can be secured, which will give the vessel great power. She has a length over all of 110 feet; breadth of beam 22 feet, depth of hold 9 feet. Her engines are compound surface condensing of the heaviest model and most approved pattern, made by the Pacey, Jones & Co. manufactory; the high pressure is 16 inches with a 28 inch stroke, the low 32 inches, with the same stroke. The propeller is 8 feet 6 inches, with a 14 foot pitch. The machinery was put in under the supervision of Joseph Jones, of the firm above mentioned, assisted by W. H. Clough, who will take charge as engineer. The hull was built at the company's yard in this place, of Oregon fir, finished in eastern oak, under the superintendence of F. Whalen, and is universally admired for its beauty of finish and strength of construction. H. P. Whitcomb, the popular master of the Canby will have charge of the craft. The vessel is a credit to her builders and will, no doubt, be equally satisfactory in a financial point of view.

Drowning of Sam'l Henderson.
Samuel Henderson, of boat No. 18, of the West Coast Packing company, was drowned off Sand Island last Wednesday afternoon. The tug Columbia was rounding to behind the Langrigg Hall which was being towed to sea by the Brenham, and the boat unseen by those on board the tug was run into and capsized. The boat pulled up. Henderson came up once, held up both hands and sank. He was a fine young fellow, and a great favorite at the cannery. His death has caused general regret; from what we can learn, it was one of those unfortunate occurrences that happens to the most careful.

El Perkins on Astoria.
"By the way," continued Mr. Perkins, in an interview with a San Francisco "Call" reporter, "I saw one town that didn't want a railroad. It was Astoria. There are 6,000 people there, and still they don't want a railroad. They think it would hurt them. They don't know that a railroad from Portland to Astoria would hurt Portland and build up Astoria."

"Then you think it would make a Sacramento of Portland?"

"Certainly. Trade would go to the ocean port as it went from Honston, Texas, to Galveston. It will be a sorry day for Portland when the railroad is completed to Astoria on the ocean, as it will be in a year or two."

During the present season, says the Princeville News, there has been upwards of 5000 head of cattle sold in this section. Oceloco will furnish between 2,000 and 2,500 and Beaver 2,500 more. The most of the cattle sold are beef steers, though in one or two instances the entire band has been sold. Twenty dollars is about the average price received for these cattle. This will bring into our section \$100,000, the greater part of which will be retained here.

CLIPPED AND CONDENSED.
Josephine county has elected a republican representative for the first time in her history.

South Australia has a population of 279,866. Its debt has grown from \$11,000,000 in 1873 to nearly \$50,000,000 in 1881.

A grove meeting of Spiritualists will be held at New Era Clackamas county, Oregon, beginning Thursday, July 13th, and holding four days.

Capt. Nicholson, of the British ship Glenelg, paid his fine of \$5,250 last Tuesday for bringing too many Chinamen on his ship, and the libel on his ship was removed.

The robber of the grave of Howlish Wampo received \$250 for his trouble, as \$300 and over was found in the old chief's clothing. Between \$550 and \$600 was buried with him.

The business of the Pacific Mail

Steamship Company for the year ending April 30th amounts, in gross, to \$4,124,714, and the expenses \$3,233,038. The net income \$901,676.

The Census Bureau shows that the number of men engaged in agricultural pursuits in the United States is 7,900,212, as against 3,519,647 in manufacturing, mechanical and mining occupations.

The shovel-makers in the United States manufacture 12,000 shovels every week. About one-half of them are used at home and the other half are shipped abroad, mostly to Panama and South America.

It is not generally known, says the Yagouin Post, but it is nevertheless a fact, that honey made at Yaquina Bay is unexcelled by that of any other locality, and only equaled by the famous Los Angeles honey.

It is estimated that if a man lives to be seventy years old he passes at least twenty-four years in sleep. So you see a man is a pretty good sort of a fellow one-third of the time, bad as he may be the remaining two-thirds. Let us be charitable!

Father Gazzoli, S. J., died at Cour d'Alene mission on the 10th inst. He was born at Rome, Italy, on the 26th day of August, 1814. He came to this coast in 1846, and since then has been a missionary among the Indians, most of the time among the Cour d'Alenes.

All but three of the sealing fleets have reached Victoria B. C. The season's catch amounts to about 10,500 seals and the amount paid to the Indians employed is over \$50,000. The streets of Victoria are thronged with natives distributing their wealth in civilized fashion.

The President nominated a tariff commission last week, which signifies that there is to be no good done. It has on it a high-bred high-tariff man from Ohio. The commission is a farce, and will be a fraud. The tariff people have been made absurd by their successes, and need the breakage of their ring. The country is getting very tired of them.

A cough, cold or sore throat should be stopped. Neglect frequently results in an incurable lung disease or consumption. Brown's Bronchial Troches do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in asthma, bronchitis, coughs, catarrhs, and the throat troubles which singers and public speakers are subject to. For thirty years Brown's bronchial troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have acquired a well merited rank among the few staple remedies of the age. Sold at 25 cents a box everywhere.
