The Woman Voter

is interested in politics. Many a woman has come to the Judge of Probate and said, "I know nothing about business, my husband always attended to that," and the first business she ever has to do is to administer his estate.

Do the women wish to go to a Probate Office that has been made a foot-ball of politics to be passed around for political reasons?

The present Judge of Probate has made a careful study of Probate work. Why experiment?

Their only argument against Webster is in his favor. His experience.

For Father, Mother and the Children

COUGHS AND COLDS worry thoughtful persons more than they do the frivolous. Observing men and women know how quickly a cold can run into something more serious. So it is that in thousands of homes in the United States you will find

Foley's Honey and Tar
COMPOUND

in the family cupboard. In this time-tried and old reliable medicine are scientifically blended the pungent, clean and wholesome tar of the pine and balmy, tasteful, demulcent honey with other curative and healing plants used by our grandmothers, for coughs and colds.

Never Without It In His Home
Samuel McCay, 7 Fowler St., Trenton, N. J., writes: "I can truthfully say that Foley's Honey and Tar is the best cough remedy I have ever had in my family. We are never without it in our home. You can use my name and my recommendation."

Gave It to Her Children and Grandchildren

Mrs. V. M. Katz, 502 Armondale St., N. S. Pittsburgh, Pa., writes: "I gave Foley's Honey and Tar to my little grandson when he had a bad cold and it did him lots of good. I used to use a lot of it when my own children were small. Children like to take it."

Foley's Honey and Tar seems to get right at the root of the trouble, loosens phlegm and mucus, clears the passages, coats the inflamed and irritated membranes with a healing and soothing medicine, eases the hoarseness, tickling, and checks the cough.

FORDSON

TRADE MARK

Farm Tractor

More than one-third of the tractors in use in the United States are Fordsons, yet the Fordson has only been on the market two years. Just like the Ford car, the Fordson is an all-year utility. It is a compact tractor; it is easily operated, it has more power per pound weight than any other tractor manufactured, it is the lowest priced tractor and it is the most economical to operate.

There are more than seven thousand Fordson dealers in the United States. There is one in every community who not only sells Fordsons, but who carries a supply of Fordson parts for repairs and replacements with skilled mechanics to give dependable service, and to help the farmer get the best out of the Fordson tractor.

The demand for Fordson tractors is greater than the supply. There is only a limited number for each territory. Get your order in now. Orders are filled in the order received.
