A Day's History on an Old Land Mark.

In looking over my writing desk I find a delayed item that I think will be of interest to many of our readers. In the year of 1842 Mr. Roswell Root celebrated the 4th of July by moving his family from Genesee county into a new log cabin on a new farm, today known as the old Root homestead.

This 4th Richmond Root and Edmond Hackett, a brother-in-law, joint proprietors of the old home, welcomed again the children who have gone out from its four walls to do their share of the world's work, to help celebrate its fortieth birthday. A tent in the yard spread its wide wings over the banquet table which seated thirty-eight descendants of the family. The day was spent in recalling the joys and hardships of pioneer life and the many pleasures of their youth when they were all sheltered under the old home roof and also indulging in the usual sports which belong alone to the "glorious fourth."

In the evening to make the event seem more realistic of olden days, the barn was cleared away and the grandfathers and grand mothers showed the younger members of the party how they danced the cotillon in their youth. Thus the wee small hours found them enjoying themselves with nothing to mar their happiness except thoughts of a few friends from far away who found it impossible to be with them and enjoy the other wise pleasant day.

#### Obituary.

Robert Bagley died Sunday morning at his residence at the north end of Washington street, his death being caused by cancer of the stomach after an illness of over a year. His funeral was held at the Episcopal church Wednesday afternoon. Mr. Bagley was born in Scotland seventy-one years ago and while still in his teens came to Canada in company with his elder brothers two of whom are now living in Quebec. He spent most of his life in Canada and many are the exciting tales he could tell of bear and moose hunts in which he had taken part as a young man. Mr. Bagley married early and his children, of whom two sons and five daughters are now living, were all born in Canada where he lived until about fifteen years ago. He has lived in Owosso about nine years. His wife returned with her son John Bagley to his home in Chicago. One son Henry Bagley and a daughter, Mrs. Sophia Molles, live in Owosso.

Not an Abduction.

May Frost, the twelve year old Bancroft girl who has been missing since the fourteenth, has been found at Chicago and is now with her sister.

It seemed for a long time that she was surely lost as nothing was heard of her after she started for Chicago excepting a letter to her sister telling her to meet her at the Grand Crossing on the seventeenth inst.

According to her story she did not meet her sister as soon as she expected to in Chicago and so became confused and frightened, when a lady became interested in her, took her home and treated her kindly.

In the meantime May's parents in Bancroft, her sister in Chicago and the Y. W. C. A. were doing their utmost to find some trace of her. They were assisted by the police but her whereabouts remained as much of a mystery as though she had been spirited away from the earth and in view of the fact that the police reports show large numbers of young girls to be hopelessly lost in the city it seemed as though she never would be found.

Knowing this her parents were nearly crazed with the terrible anxiety and suspense and perhaps few can imagine with what feelings they received a telegram from her sister in Chicago, Tuesday, announcing that May had been found and was safe with her.

It does not appear very clearly how the woman could keep May so long without finding out where her parents or sister lived, but it is explained that she lost her sister's address and that the woman did not know whom to notify until she saw an article in one of the papers which showed her whom she was caring for. At this she notified the police who promptly turned her over to her sister.

It was nevertheless a narrow escape for her, and Mr. and Mrs. Frost are to be congratulated that they have not still to mourn for a daughter lost in the great city. It should be an additional warning to parents as it is. May Frost apparently fell into friendly, kind hands but hundreds of girls just as innocent as she do not and after all, home or a father's or mother's care is the only safe place for any young girl.

A Former Resident of Laingsburg.

From the State Republican.

Relatives and friends of S. H. Manzer, who resides at 819 Michigan avenue east, fear that some mishap has befallen him, as no trace of his whereabouts can be discovered. Mr. Manzer has been sick for some time, and since his illness his mind has become slightly deranged. This morning at about 5 o'clock, while the attention of his wife was diverted, he wandered away, and since then nothing has been heard of him.

Mr. Manzer is 64 years old. He is five feet, eight inches tall, and of medium weight. His facial features are thin, and he wears a long, full, grey beard. He was dressed in a dark grey suit of clothes with a white straw hat.

The matter was reported to the police and all day long a search has been in progress but up to the hour of going to press, not the slightest clue as to the direction he took, had been obtained.

Later—Mr. Manzer was found in the chapel at the cemetery in a semi-conscious condition. His friends hope that he will soon recover from his trouble.

Still later—A Lansing dispatch of the 26th says: S. H. Manzer, who wandered away from home Monday morning while in a demented condition and who was found on the floor of the chapel at Mt. Hope Cemetery last night, died this noon. He was in a semi-conscious condition when found and very weak, having had no food in over forty-eight hours. Aside from this he had taken considerable morphine, which he purchased last week. The circumstances go to show that he had taken this drug with suicidal intent, but when found, although talking wildly and incoherently, he would not admit that such was his purpose and consequently that his body be not taken home, but be buried at once in the potter's field. His home life was pleasant, and he leaves a valuable estate.

On Monday last myself and family left Detroit on one of the Star Cole line steamers for Port Huron and found the trip a delightful one. There are scores of cottages on the St. Clare flats that are built upon small islands made by digging in the shallow water and throwing the earth up to a center. Many of them are connected by rustic bridges making the most delightful summer residences. The ever moving water and passage of many boats gives constant change of scene. There are several boats from Detroit each way that stop at most of the landings when signalled. This gives the Detroiters who own the cottages or are members of the numerous clubs that have houses on the flats a fine chance to do business in the city and spend their nights where it is always cool and free from dust and I don't wonder that they boast that take it all in all Detroit is the finest residence city in the union.

## BALD HEADS!

What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it full of dandruff? Does your scalp itch? Is it dry or in a heated condition? If these are some of your symptoms be warned in time or you will become bald.

### Skookum Root Hair Grower

Is what you need. Its production is not an accident, but the result of scientific research. Knowledge of the diseases of the hair and scalp led to the discovery of how to treat them. "Skookum" contains neither minerals nor oils. It is not a dye, but a thoroughly cooling and refreshing tonic. By stimulating the follicles, it stops falling hair, cures dandruff, and grows hair on bald heads.

Keep the scalp clean, healthy, and free from irritating eruptions, by the use of Skookum Root Hair Grower. It destroys parasitic insects, which feed on the scalp, and destroy the hair.

If your doctor cannot supply you send direct to us, and we will forward prepaid, on receipt of price. Grower, \$1.00 per bottle; 6 for \$5.00. Soap, 50c. per jar; 6 for \$2.50.
