**Avoid the Knife!
Take Stella-Vitae**
It Has Saved Thousands
of Suffering Women.

Mr. W. F. Nelson, a merchant of Eliza, Tenn., says that the daughter of one of his neighbors, Mr. James Roberts, was in such a condition with female trouble that an operation was advised, and the young lady was sent to Chattanooga for its performance. She dreaded the operation, and Stella-Vitae having been recommended, decided to try that first. She has taken six bottles and is happily on the road to recovery. She is able to do her usual work and is in better health than for years before, but continues to use it. She writes: "Stella Vitae will do all you claim." Her father says "she began to improve at once, after taking Stella-Vitae, the great female remedy." Try Stella-Vitae on our money-back-if-not-benefited guarantee. \$1 at your dealers.

Hammers.
The famous hammers of history, among warriors and saints, are Pierre d'Ally, hammer of heretics, who presided over the council which condemned John Huss (1370-1425); Julius Asmonaeus (Maccabaeus), the Hebrew warrior (B. C. 165-125); St. Augustine, "hammer of heretics" (354-430); John Fisher, who wrote a book, "Hammer of Heretics" (1470-1541); St. Hilary (350-368), the "hammer of the Arians, and most generally so named, Charles Martel (689-741).—Philadelphia Evening Ledger.

The Best Passage.
A somewhat conceited clergyman, who was more celebrated for the length of his sermons than for their eloquence, once asked the late Father Healy what he thought of the one just preached.
"Well, sir," replied the humorist, "I like one passage exceedingly well."
"Indeed, Father Healy, and pardon me for asking which passage you refer to?"
"Well, my dear sir," replied the wit, "the passage I refer to was from the pulpit in the vestry room."

Disillusioned.
"Is Rand happy in his marriage?"
"Happy? If Rand were to see Mrs. Rand today for the first time, he wouldn't even ask for an introduction."

The man who sits around and boasts of his bravery is usually the first to hike for the tall timber when danger threatens.

MID-SEASON DRESS

DESIGN SUITABLE FOR SUMMER OR EARLY FALL.

Possibility of Economy in Expenditure of Money Now in View of the Advantageous Situation the Market Affords.

Bargains in summer fabrics are so plentiful just now that many women do not consider it extravagant to add a new frock or two to her summer dresses, even though mere desire, not a need, inspires the purchase. The

Summer Frock of Plain and Printed Voile.

home dressmaker never had greater encouragement to try out her own ideas in style design than during the present season, because such infinite

variety obtains in cut and color or fabric combination that it is difficult for anyone with the slightest knack at sewing or with artistic ideas to go very far wrong.

Printed and plain white voiles are suggested as suitable for the little frock shown in the sketch, although plain and dotted handkerchief linen, checked gingham and plain color chambray, etc., might be used as effectively.

The double tunic is suggestive of a style line that is to be given considerable prominence in the first showing of fall frocks. Advance bulletins and advance models carry out an illusion of brevity in length and breadth of skirts, while they are in reality longer and narrower than those generally favored at present, and the long tunic aids very materially in this illusion, the underskirt being reasonably close reefed and modestly long, while the upper skirt or tunic is given a decided flare. The hostery display of the past season or two will not be looked on with favor in the fall, as practically all frocks brush lower than the shoe tops.

The little frock in the sketch is, however, distinctly a summer model, and excellent for tub frocks. The back of the bodice has a deep round yoke, coming below the shoulders, of white voile, and the back of the skirt is exactly like the front, paneled in white and printed voile. The dress fastens in the center front.

To make this gown, three yards of plain fabric 36 inches wide and seven and a half yards of figured material the same width will be required. The bottom skirt measures four yards wide. A bright ribbon is used for the girdle.

The generous use of ribbon as a trimming or finishing touch on summer frocks is a notable feature, and it strengthens the quaint and picturesque tendency of the season's apparel.

Ribbons will be used rather freely on the next season's evening frocks. Colored silk or bead embroideries are favorite trimming touches for modish utility gown of serge or gaberdine. The tendency to favor a lower waist line is more and more emphasized as the early fall models see the light of day.—Washington Star.

MAKING USE OF RIBBONS

About the First Thing is for One to Become an Adept in Tying a Bow.

This is a ribbon season, as we all know, and the shops, naturally, have put forth a big and goodly supply of attractive ribbons in response to the demand fashion has made for them.

Do you know how to tie a bow? Probably not. In this day of specialization few women do know how to tie more than a lingerie or hair ribbon. We leave it for the saleswoman at the ribbon counters, for our dressmakers and our milliners to tie bows of every other sort.

To begin with, if you would tie bows successfully, buy a reel of fine covered wire and use it to tie the loops in position. This, for instance, is the way a professional ties a sash rosette for a child's frock. She takes one end of two or three yards of ribbon and measures off about thirty inches to go around the waist. Then she makes as many loops as she wishes, gathering the ribbon for each through her fingers.

Next she measures off with her right hand, holding the loops in her left, enough ribbon for the two ends, and, at the end of this ribbon makes one more loop. This leaves a long loop of ribbon, later to be the two ends, and with one of them ties around the rosette loops, so making one end shorter than the other.

Moire ribbon is perhaps prettier for children's sashes, although a stiff quality of taffeta answers the same purpose well. The soft satin ribbons are not so pretty on children as are

the stiffer ribbons. For women, velvet ribbon of three-inch width forms a good girdle. It can be finished at the back with an upstanding loop and a down-hanging end to cover the secure closing made by means of snaps or hooks and eyes.

Handed ribbons are especially interesting this summer, a tailored bow, flat but not pressed down, finishes the left side of the hat when these ribbons are used, and in most shops lengths of ribbon with bows attached are sold for varying prices.

Broadened ribbons, with raised velvet figures on thick satin ribbon foundations, are also smart. One such ribbon shows panels of black, blue and purple velvet on a cerise ribbon. Another shows overlapping pellets or big polka dots of three colors—peacock blue, old gold and plum—on a black background.

Colors for Autumn.

The powers that be who determine what women will wear next season have put their heads together in Paris and decided upon the new autumn colors. Would you like to know what they are to be? Yellow, it seems, is left out entirely, and green, so fashionable this year, will have few adherents. There are purplish blues, nickel and gunmetal grays, several charming reds, including fuchsia, geranium and brick red. Browns will be exclusively fashionable with a gamut from bisque to chocolate. The great feature in this respect, however, will be chameleon, each chameleon shade combining two others in shot effect.

BUTTONS USED IN MANY WAYS

Pronounced Feature of the Season's Styles is a Thing That Has to Be Recognized.

Buttons are not at all left in the lurch because of the amount of handwork used. In fact, they serve to accentuate the special feature of the waist, coat or suit they adorn. Buttons increase the importance of pockets, belt and capes and give themselves a chance to assume extraordinary shapes and sizes.

Because of the vogue for dark suits with white hats, shoes or gaiters, white ivory buttons are allowed. Sometimes they are ringed with black or a fashionable color, sometimes they have a pearl center, but all of them are light in weight, and that accounts for at least part of their popularity. They are also made on dark taffeta dresses.

Those used on coats and suits are more conservative, mushroom and saucer shapes being the most popular. Balls, squares and cubes are also employed, as well as acorns. Pearl buttons come in all sizes and shapes, from the large ball buttons, appropriate for novelty suits, and the flat styles for separate skirts, to the tiny ones for shirtwaists. Heavy colored materials make use of ribbon buttons.

The ked suits may be thanked for the plain and checked button, as well

as the black and white effects in combinations with white rims. Among the new colors shown is a French gray button which catches the shade now so popular in dresses. A ring of black is often used to enhance its beauty.

CHARMING PICTURE HAT

It is Made of Yellow Crepon, Patterned With Fruit in Bright Green and Dull Purple, and Lined With Black Velvet. Clusters of Apples Appear as Trimming, and a Bright Green Ribbon is Loosely Tied Under the Chin.

Improved Beyond Expectations

"My wife has been a long sufferer of lung trouble, and frequently with hemorrhages," says Mr. R. C. Currence, of 5100 Pennsylvania Ave., Nashville, Tenn. "We had almost given up hope of her ever being any better. She has taken four bottles of Lung-Vita, and she has never had another hemorrhage, or even symptom. She has improved beyond our expectations, has gained in flesh, and we are almost sure she will soon be sound and well." Mr. Currence is a prominent lumber man of this city and is connected with John B. Ransom & Co. Take Lung-Vita for consumption, asthma, and kindred troubles. **CALOMEL WHEN BILIOUS? NO! STOP!
ACTS LIKE DYNAMITE ON LIVER**

I Guarantee "Dodson's Liver Tone" Will Give You the Best Liver and Bowel Cleansing You Ever Had—Doesn't Make You Sick!

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious or constipated, listen to me!

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile, crashes into it, breaking it up. "It" is when you feel that awful nausea and cramping. If you feel "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store or dealer and get a 50-cent bottle of Dodson's Liver Tone. Take a

spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot salfate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.—Adv.

Have to Be Brave.
"Pop!"
"Yes, my son."
"I don't believe in this scheme of offering prizes for swatting a few innocent flies."
"Why not, my boy?"
"Why don't you make the fellows show their bravery by going out and swatting a few hornets?"

RED CROSS BALL BLUE Makes clothes whiter than snow. Delights the housewife. Large package 5 cents at all good grocers.—Adv.

The Wheat Yield Tells the Story
of Western Canada's Rapid Progress
160 ACRE FARMS IN WESTERN CANADA FREE
The heavy crops in Western Canada have caused new records to be made in the handling of grains by railroads. For, while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities, have been strained as never before, and previous records have thus been broken in all directions.
The largest Canadian wheat shipments through New York ever known are reported for the period up to October 15th, upwards of four and a quarter million bushels being exported in less than six weeks, and this was but the overflow of shipments to Montreal, through which point shipments were much larger than to New York.
Yields as high as 60 bushels of wheat per acre are reported from all parts of the country; while yields of 45 bushels per acre are common.
Thousands of American farmers have taken part in this wonderful production, and prices are still low and free homestead lands are easily secured in good localities, convenient to churches, schools, markets, railroads, etc.
There is no war tax on land and no conscription.
