Prospects Fine For Fair.

From present indications the Oklahoma State Fair and Exposition, that opens Saturday of this week for eight days, will smash all records for exhibits and attendance.

For several months it has been evident that exhibits in all departments gave promise of mounting up beyond previous years. This is notably so in county exhibits, machinery, culinary, automobile show, live stock and poultry departments.

A general prosperous condition prevailing throughout the state augurs well for attendance.

AUCTION SALES

The season of the year for public sales is at hand, and when you figure on employing an Auctioneer to dispose of your property which you have been a life time accumulating, you want one that has experience—one that knows values and capable of getting the high dollar under all circumstances. I have been conducting sales here for the past 14 years. My success depends on my ability to please, fair treatment, no favorites, always working for you from the time I bill your sale.

I am now making dates for fall and winter sales—get yours in early—I will be busy every day.

Write or phone me at my expense. If unable to get me, talk to Mrs. Herriff, who will be glad to give you all the information you desire.

CONDUCT SALES ANYWHERE. Conduct more sales THAN ANY AUCTIONEER IN OKLAHOMA.
