ROAD BUILDING

MILLIONS FOR BETTER ROADS

Sum of \$85,000,000 of Federal Funds Made Available for Construction of Country Highways.

By the passage of the federal aid road bill the government of the United States has put itself in the way to reap great benefits. According to the new law, the sum of \$85,000,000 of federal funds is made available for the construction of country roads. Of this amount \$75,000,000 is to be expended for the construction of rural, post roads under co-operative arrangements with the highway departments of the various states and \$10,000,000 is to be used in developing roads and trails within or partly within the national forests.

This law is proof of the national awakening to the fact that our country is lamentably deficient in well-constructed highways. The main

lines of travel in the early days were the shores of great waters and the rivers and canals. The railroad building era followed close upon the period of the river steamboat and for these and other reasons the highways of the land were neglected. One of the most powerful of the agencies now at work for better roads is the automobile. The country owes a debt to the motor-driven car for making insistent demand for adequate highways over which to travel. The expenditure of these many millions of dollars will benefit the people very greatly by helping to convey farm products to market and thus to some extent it will make living cheaper and more comfortable, says Chicago News. Moreover, the country with an abundance of good roads within its boundaries is more easily defended when threatened from without. The best result of all, however, will be the quickening of intercourse and intelligence and the unifying of this great nation, which as yet is too much given to sprawling physically and otherwise.

KENTUCKY FIRST TO IMPROVE

Spent Money for Construction of Roads Over Half Century Ago—Had Highway Engineer.

It is often said that the use of state money for the construction of roads is of quite recent origin. The New Jersey state aid law of 1881 is sometimes referred to as the first instance of such use of state funds in this country. As a matter of fact, state money was spent for such purposes more than 75 years ago. Kentucky paid out over \$2,000,000 for road improvements between 1820 and 1840, under the direction of a state highway engineer, who drew a salary of \$5,000 a year, a very large sum for those days. The roads built then were 24 to 30 feet wide between the ditches. The surfaces were constructed of broken stone, and the bottoms were of large stones wedged together to make what road builders call a telford foundation. About 1870 business conditions in the country became bad and this work stopped. When it was resumed in 1908 such a long period had elapsed since the earlier state-aid work that 1908 is usually fixed as the beginning of state roadwork in Kentucky.

HEALTH HAD GOT RUN-DOWN

But Cardui Built Up Her Health And Strength So She Could Do Her Work.

Etowah, Tenn.—"About 5 years ago," writes Mrs. Lillie Carden, of this place, "I first took Cardui. Dr. — said I was suffering with ulceration . . . and . . . turned over to one side. I suffered great pain in lower abdomen and back. For 1 or 2 years the . . . had been irregular and came about every 2 weeks, and I suffered great pain. Would cramp so I couldn't get up and do my work. Sometimes the . . . would last 4 or 5 days and come too much, which seemed to cause me to suffer very much. I would be up and down in the bed for 4 or 5 days. When I'd take the Cardui through the period, the . . . would be less and not last so long—only something like 3 days, and the suffering would be entirely relieved.

My health had got run down and the Cardui would build up my health and strength and keep me going and out of bed, so I could do my work. It hurt me to even sweep my floor when I began it, but got so I could do the most of my work, and I didn't suffer any more, had no more cramps."

CALOMEL MAKES YOU SICK, UGH! IT'S MERCURY AND SALIVATES

Straighten Up! Don't Lose a Day's Work! Clean Your Sluggish Liver and Bowels With "Dodson's Liver Tone."

Ugh! Calomel makes you sick. Take a dose of the vile, dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you feel sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store or dealer and get a 50-cent bottle of Dodson's Liver Tone. Take a spoonful tonight and if it doesn't

straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.—Adv.

Kept His Promise.

A weaver, who had evidently got tired of married life, was one day taking a walk with his wife. Suddenly he espied a dead dog lying in the middle of the road. When they came close to it he said to his wife: "Nah, Mary, thee stand on that side and I'll stay on this."

Having taken up their respective positions, the husband said: "Nah, lass, when I got wed to thee I promised th' parson nowt but death and part us, and I'm off."

Then Mary faltered. Always proud to show white clothes, Red Cross Ball Blue does make them white. All grocers. Adv.

William and Mary College.

At the far end of Duke of Gloucester street (Williamsburg, Va.) stands William and Mary college, the second oldest institution of learning in America, from which such able men have been graduated that it is hard to believe they were ever boys like those of today, going about the grounds with or without white flannel trousers (you understand me, of course). I viewed them respectfully. "Presidents?" I asked myself. If they had understood and returned, "No; good mechanics," it would have been quite as impressive an answer.—Louise Closser Hale in Harper's Magazine.

One mistake many women make in buying coffee

You know how hard it is to get a coffee which really satisfies you. You know how seldom you can find a coffee which has the same fine taste and strength every morning! It can be done. You can do it if, when you buy coffee, you are careful not to make the mistakes so many women make. Read the experiences below—you yourself have undoubtedly had one or both of them.

Beware of loose coffee

Are you buying coffee which you get loose, coffee which hasn't been protected by a sealed package?

Are you afraid that it isn't clear? Has it lost its aroma? Are you often disappointed in its strength?

It isn't the grocer's fault. With loose coffee he can't be sure that it is the same kind he got before. You always run the risk of getting different coffee every time you buy.

And even if the coffee itself were the same, it can't be kept "loose" without losing its strength and flavor.

In packages—protected!

You can do away with every one of these disappointments by ordering the coffee which over one million other families drink.

Arbuckle's Coffee is such good coffee that way back in the sixties, when all other coffees on the market were loose and unprotected, Arbuckle Bros. protected theirs in sealed packages. This sealed package keeps the coffee's strength, and guards it from moisture and store odors. Most important of all, it makes it easy for you to be sure that you are getting the same good coffee every time you buy.

The second mistake women make

Are you continually being offered the same old coffee under new names? Under all sorts of new blends?

Did you ever stop to think of the hundreds of coffees which come and go on the market? And that all of these have tried to turn women away from Arbuckle's Coffee?

Arbuckle's is the coffee which has gone right out, always under its own name, never disguised, and held its users simply on the wonderful value it gave. You know what good value a coffee must be to do this against the competition of all the other coffees in America!

Used in a million homes

Settle, for all time, your coffee problem, by giving your family the only coffee which over a million families have proved to have the real coffee taste they want.

When you get Arbuckle's Coffee you get an entirely different coffee. No other coffee goes through the same process—in no other coffee can you get the same good flavor. The result of the care Arbuckle Brothers take in selecting it, in roasting and in packaging it, gives you an entirely different coffee from any other on the market.

Order it from your grocer today. He has it, in either the Whole Bean or the new Ground. Try it. See why it is by far the most popular coffee in America. Arbuckle Brothers, 71-Ok 2 Water St., New York.
