# Your Money is Insured NA STATE BANK

Most men carry insurance. They insure their lives, their houses and their household goods. But how many men stop to think it their money is insured.

If your money is deposited in a state bank it's insured by the DEPOSITORS' GUARANTY LAW. This gives insurance sgainst loss from fire wind, robbery and dishonesty. For if a bank should fail from these or any other causes, depositors would be paid immediately and in full from the STATE GUARANTY FUND.

Put your money where it is insured. Open an account with us. You will know then that it is safe.
