Correcting History.

"Why these tears, your majesty?" ask-ed the sycophants. "Isn't it glory enough to have conquered one world?"

"I'm not weeping because there are no more worlds to conquer," blubbered Alexander. "It's because I have a presentiment that some day Sig. Ferrero will find out I'm nothing but a shine!'

The sycophants, suppressing the real facts in the case, gave out the false version of the incident that has come down through the ages .- Chicago Tribune.

Portland will hold its third grand annual rose festival the week of June 7-12, while Seattle will be hostess for the Alaska-Yukon-Pacific exposition, continuing all summer The rates which the railroads have given are much more attractive than any that have been put into effect in any previous year, so far as this part of the country is concerned, and they permit of a much wider range of stop-overs and side trips, all of which is appreciated by the tourist. Many communities and individuals in the Northwest have taken advantage of this and have notified their friends and relatives in the East to make the trip this summer and to do so early in the season so as to be able to visit the expositions at both Portland and Seattle. The rates are effective May 20, plenty early enough for Easterners to avail selves of the fine opportunity of seeing the whole Northwest at its be The rates are good returning until September 30.

Want a Telephone?

If you do you can get it. If you are anxious to get into closer touch with your friends, with the family doctor, with the store, with the post office, or with the cotton buyer, you can do it with a telephone at hand. If you want to make the farm a more livable place, if you want to protect your home, you can do it by installing a telephone.

If you will cut out this advertisement, write your name and address on the margin and mail it to-day to our nearest house, we will send you at once a copy of our Free Bulletin No.112 on

"How to Build Rural Telephone Lines"

This Bulletin explains clearly how a rural telephone system is built and operated, and it also contains full information as to costs.

In a Farmer's Mutual Company a few day's labor and a cash investment of about \$25. per subscriber, will purchase all material and build an absolutely standard system.

A Rural Telephone is an investment, not an expense. The telephone which enables you to sell ten bales of cotton at 1/2 cent per pound more than the traveling buyer offers you, has paid for its entire cost. If you have some hay down all ready to go in, it is worth

something to have a telephone with which to call on Neighbor Smith "for a lift" before the storm breaks, The Rural Telephone pays for itself each year and we have brought the initial cost within the reach of every farmer. Present prices are especially favorable and thousands of Farmers' Mutual Companies are now organizing so as to build their lines this Spring. Write us to-day.
