A PLEA FOR REFORM

I will try to realize the idea that it is not the intent of the Knights of Labor to use political means in the past, but to influence men as capital and labor have done in the past. The question of political power is not at issue, but the idea that it is the duty of every individual to do their best to secure the principles of the Knights of Labor.

I am not a member of the International "Dictatorship of the Proletariat," and I have been consistently against it. I am not against the idea of political power, but I am against the idea that it is the duty of every individual to do their best to secure the principles of the Knights of Labor.
